<p><b>Please give details of why you consider the Local Plan is unsound. Please be as precise as possible.</b></p>	<p>I fully support the Council's Brownfield only policy contained within the Local Plan. I am pleased that the Council finally listened to Wirral residents who are totally opposed to any development on Green Belt. However, I do wish to point out that the Council have used housing need figures which I understand have been obtained by using the Government's standard method of calculation. I do not understand why the Council has repeatedly failed to challenge these figures which have been shown by several prominent experts to be vastly overstated. Whilst the Council has demonstrated the Borough's housing need stated in the Plan can be met via the housing supplied on brownfield sites I believe, that despite these assurances, stubbornly sticking to these unrealistically high figures still leaves the Green Belt at risk from unscrupulous developers such as Leverhulme Estates, who no doubt will oppose this Plan. Surely using more accurate figures will removed that risk altogether? There is no need to release any Green Belt land. I would ask that these figures are revisited to ensure that the Green Belt is totally safe for the future generations to enjoy.</p>

Yes, I wish to participate in hearing session(s)

**If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:**

Because I don't feel that the council officers in charge have fully considered this plan in detail, and have failed to properly consult with local people. I therefore feel council officers work has been directed by their own narrative, without proper consideration of the public they work for.

<p><b>Please give details of why you consider the Local Plan is legally compliant. Please be as precise as possible.</b></p>	<p>I fully support the draft local plan designation of Greenfields West Kirby as Local Green Space (denoted as LGS-SA 6.3 in the West Kirby Inset Map) as legally compliant and sound. The importance of the designation of Greenfields (Sheep fields) within the local plan as Local Green Space cannot be overstated.</p> <p>First, the urbanisation of Greenfields would introduce an additional significant volume of traffic egressing onto Grange Road, a road that has seen a steady increase of traffic flow over the years, exacerbating traffic standing time, pedestrian and vehicular danger, congestion and back up through Grange Hill.</p> <p>Second, West Kirby is an important driver for tourism and the economy of the Wirral. The Greenfields estate with sheep grazing, pine trees and views of the sea and the Welsh hills is significant in identifying the character and attractiveness of West Kirby. The site is also a resource of the bio diversity of Wirral, with its well-established ant hills which attract bird life, tree lined boundaries and hedgerows,</p> <p>The urbanisation of Greenfields would obliterate the setting of West Kirby and deplete the bio diversity of Wirral.</p>

<p><b>Please give details of why you consider the Local Plan is unsound. Please be as precise as possible.</b></p>	<p>Good Morning</p> <p>I have received a letter dated 9th May that outlined the submission draft and the intension to seek planning for houses to be built on the Unilever Research situated in Quarry Road East. I have lived in number 65 for over 40 years and have seen numerous positive developments over the years. Sadly, this may not be one of them.</p> <p>However, we are talking about an undetermined number of homes being built that will result in environmental, parking, pollution health issues caused by traffic that residents will have to live with the during the development. This does not factor in any problems caused after the development has been completed.</p> <p>The road infrastructure simply cannot take the heavy traffic needed in providing supplies believe me it's a nightmare now as is the restricted parking with any new development adding to the existing problems. Site access needs consideration as will the compensatory requirements for houses that may need added maintenance caused by the development during the build.</p>

I have spent xxxxxx recently in improving my property and do not want to see that being a fruitless exercise. As a married couple of sixty-seven we do not want to move just live in peace. The land is being used as a way of gaining added profit for Unilever whilst removing it off their balance sheet etc. In addition to the added financial benefits that local councils gain from government subsidies when building affordable housing. The environmental damage is untold given the pollution and construction of building will no doubt contain asbestos all of which need highly expert removal but at what cost to the nearby residents.
