

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1245044	LPIO-10314	yes	The Greenfield estate Grange Road West Kirby						
1244956	LPIO-10534	yes	St Bridget's (West Kirby) school playing field between St Bridget's churchyard, the Old Rectory and Rectory Road. 1) This playing field is an important asset to the children at St Bridget's and must be afforded at least the same protection as playing fields for other school children. 2) The field is also with West Kirby Old Village conservation area and is adjacent to the Grade 2 listed church. The open aspect of this field is important to both the conservation area and the church. 3) The field is used regularly by the community for community events.						
1246724	LPIO-10595	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION.						
1241337	LPIO-10615	yes	Heswall: These are currently Urban Green Spaces as I understand it - but would be better designated as Local Green Spaces: The Dales/Cleaver Heath Telegraph Road/Thurstaston Road triangle Poll Hill Reservoir Feather Lane Woods The Puddydale Whitfield Common Heswall Library Bowling Green Hill House Gardens Dawstone Park (incl War Memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as green space)						
1246778	LPIO-10624	yes	Grange Road proposed development site, West Kirby. Close proximity to locality and community, tranquil space, wildlife, special historical interest, important to locality.						
1246804	LPIO-10686	yes	St Bridget's school playing field within the boundary of the churchyard, the Old Rectory and Rectory Road. It is an important place for the health and wellbeing of local children and residents. It should be given at least the same protection as any other school playing field. It is significant for so many people being at the heart of West Kirby Village conservation area and adjacent to the Grade 2 listed St Bridget's church.						
1238582	LPIO-10769	yes	the school playing field at St Bridget's school and the greenfield estate (SHLAA 3095) are both vital to the west Kirby heritage and environment. With so many flat conversions and increase in visitor numbers and residential population increases foreseen then these spaces will be increasingly important in ensuring west Kirby provides the space for Wirral visitors and successful tourism						
1246242	LPIO-10998	yes	Site SHLAA 3095. / 6.15 Fields Column Road leading to Stapleton Wood. Both these sites are very enjoyable Local Green Spaces which certainly add to the well being of local residents and those visiting the area. A haven for wild life and habitat for birds and animals of prey. They therefore fill the criteria of paragraph 100 of the National Planning Policy Framework on all 3 points in that document :- (a) Close proximity to the community. (b) Demonstrably special to the local Community, adding beauty, tranquility, well being and a richness of wild life. (c) Local in character.						
1247185	LPIO-11215	yes	We believe St Bridget's playing field should be retained to allow school children to play sports.						
1244144	LPIO-11221	yes	St. Bridget's School Playing Field should be protected from all development to ensure the school children have space to play all sports. Thank you very much in advance for reading my thoughts. It is greatly appreciated.						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1243946	LPIO-11223	yes	St Bridget's field is beautiful. Many of West Kirby's children attend St Bridget's school and during the years they spend at the school the almost daily experience of being in and close to the beauty of the surroundings plays a major role in their happiness. Happiness which will serve them well in future years when they are out in the world of brick, tarmac, dense buildings and polluting traffic. My own child (now grown up) attended the school and the pure joy of sport, summer Fayres and musical gatherings on the beautiful green field is priceless and never forgotten. If there was absolutely no space available to build absolutely essential buildings for the general good of local humanity the fields might have to go; but this is most decidedly not the case at all. There is no argument for the loss of these fields which give spiritual succour to anyone who sees them. Once they go we would never get them back. The Wirral has lots of brownfield sites which would benefit from development. Brownfield sites have many advantages; they're already accepted as having a human, built use. They are not beautiful, they have routeways and services already very close by, they would benefit from a change in their often eyesore appearance. Most people would support their redevelopment. Some might say "why should new homes, for example, be built in run down areas; doesn't everyone deserve a pleasant environment? The answer to that is that pleasant environments are easy to create, we have some excellent landscaping these days; trees, plants, etc can all be brought in to turn a brown field site into an area of beauty. The real desire to destroy a beautiful peaceful, historic site is usually that very expensive homes can be built and attract buyers willing to pay for a prestigious address. Ironically the reason it is a desirable address is because of the natural beauty their new house will destroy. The Playing Field should be protected so that the children can play sport and experience nature						
1247207	LPIO-11233	yes	St. Bridget's Field My family and I support the designation of the above in West Kirby as a designated Green Space. Please Protect the St Bridget's playing field from all development to allow local children to play sports. This must be a priority? This site has heritage value and other sites must surely be considered for development first. Please kindly take account of our views when making any decisions regarding local development?						
1243903	LPIO-11235	yes	I support the designation of Rectory Road Field and Stables and St Bridget's Playing Field as a Green Space. The areas are historical places in our community, there for all to enjoy and an open area to provide wildlife and people freedom of space. I support the Preferred option in the Local Plan, with Urban Intensification. I also support a sequential approach to development to ensure sustainable sites are developed before those with a heritage value. Children should have						
1241832	LPIO-11239	yes	St. Bridget's Field As a former parent of 3 children who attended the school, and a member of the Church congregation, I believe St Bridget's School Playing field should be protected for all development to ensure the school children have space to play all sports. We want our children to remain healthy and encourage them to be outside and active.						
1243890	LPIO-1144	no							
1247342	LPIO-11536	yes	St. Bridget's school field should be protected from all development to ensure the children have space to play. My children made great use and had many happy times on this space when they were small.						
1247346	LPIO-11539	yes	St. Bridget's Field We have very few unspoiled open places left in West Kirby and the Church appears to be hell bent (literally!) on destroying them to swell their overflowing coffers. Rectory lane is narrow, crowded with parents' cars and many young children walking on their way to and from school, and that's on a quiet day. If there's a wedding or funeral on the chaos is multiplied. The field has been grazed by ponies for years and years with their owners paying high rents to the Church. There are many animal charities who work with deprived and sick children who are desperate for somewhere to like this for their work. PLAYING FIELD. Generations of children, including mine, have used this field for various sports. The Government want the children to become more active! This is St. Bridget's nearest field and the School is attached to the Church. To get to the other playing field which they are generously allowed by local owners to use sometimes they have to walk up the part of Village road which is almost as dangerous as Rectory road. On both cases the Church appears to have no interest in the safety of our young children and is only interested in money not young lives!						
1247348	LPIO-11545	yes	St. Bridget's School Playing Field should be protected from all development to ensure the school children have space to play sports and enjoy the safe and natural environment of a green field. We have recently moved into the catchment area so that my daughter can attend St. Bridget's Primary and it would be devastating if this school field was developed on. The negative affect, both mentally and physically, for hundreds of school children would be unnecessary and totally unfair. Thank you very much for taking the time to read my opinions.						
1247196	LPIO-11620	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247359	LPIO-11652	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1244748	LPIO-11701	yes	While appreciating the need for accommodation and affordable housing, I would like to request that St Bridget's School Playing field should be protected from development to ensure that the pupils receive the best physical education. I was unable to respond through your website. (additional comments						
1247015	LPIO-11867	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1238484	LPIO-11916	yes	In addition I would like St Bridget's Primary School Playing field to be afforded the same protection as all other school playing fields to ensure no development is allowed ever on the field. Ideally I would like the Rectory Road field to be designated such that no development could be allowed on that field either as the two fields combined form the heart of the West Kirby Conservation Area - a special place in terms of landscape, heritage and tranquility in the area.						
1247405	LPIO-12190	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247363	LPIO-12192	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247364	LPIO-12193	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247365	LPIO-12194	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247366	LPIO-12195	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247369	LPIO-12196	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247370	LPIO-12197	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247371	LPIO-12198	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247372	LPIO-12199	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247373	LPIO-12200	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247374	LPIO-12201	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247375	LPIO-12202	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247376	LPIO-12203	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247377	LPIO-12204	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247378	LPIO-12205	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247379	LPIO-12206	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247380	LPIO-12207	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247381	LPIO-12208	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247382	LPIO-12209	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247383	LPIO-12210	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247385	LPIO-12211	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247386	LPIO-12212	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247387	LPIO-12213	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247388	LPIO-12214	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247389	LPIO-12215	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247390	LPIO-12216	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247391	LPIO-12217	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247392	LPIO-12218	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247393	LPIO-12219	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1247394	LPIO-12220	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1244707	LPIO-1224	yes	I understand that the St. Bridgets School Playing Field is not designated as a green space. It is intensively used by the school as a playing field and there are a number of events (e.g. Fetes) throughout the year organised by local community groups. I did think the Church (in this case the Diocese of Chester), would always honour their obligations to the local Church and community, but it seems that this cannot be relied upon.						
1247486	LPIO-12381	yes	We are also in favour of St Bridget's School Playing Field being protected from all development. We believe it is important for children to play sports to help develop their characters. It also helps to develop their coordination between eye and hand or foot, which can be helpful in enjoying games in later life.						
1247214	LPIO-12452	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1247492	LPIO-12555	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1247514	LPIO-12616	yes	With the obesity problem with young children St Bridget's School Playing Field should be protected						
1247515	LPIO-12619	yes	St. Bridget's school playing field. The school playing field should be protected from all development to ensure that school children have a convenient space to play all sports. Given the serious issue of obesity amongst children; the easy location of the field to the school - which means that children do not have to cross busy roads; the overwhelming recreational and health benefits of this space; and its occasional use for local fetes and environmental festivals which are well supported not only by local people but within the wider Wirral area its importance as a playing field is invaluable.						
1247516	LPIO-12623	yes	St Bridgets school playing field should also be protected from all development to ensure the school children have space to play all sports.						
1240843	LPIO-12711	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1247540	LPIO-12763	yes	Relatedly, I have recently learned that St. Briget's playing field, may also be vulnerable to development, and want to urge the Council not to further sacrifice that space. Losing either of these green spaces will have immeasurable costs to the village, the integrity of the Council, and the character of W Kirby.						
1247543	LPIO-12765	yes	Also in the same area (and opposite the ""horse field"" ) is the playing field for St Bridget's School. My understanding is that this is council-owned. I also believe that there are no current plans for building on this, which I support. The reasons are similar to those related to the field opposite (as above), but a specific issue is the need for the school to have a sports area. More generally, I would like to very much support the ""Preferred Option"" in the Local Plan.						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1237712	LPIO-12834	yes	I also believe that St.Bridget's Bruidget's Playing Field - also in the West Kirby Conservation Area should also be protected from development to ensure the school children have space to play all sports - in line with the National Planning Framework Paragraph 96 and 97, and to maintain the West Kirby Conservation Area.						
1247578	LPIO-12910	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1244782	LPIO-1294	yes	I note that St Bridget's School Field adjacent to the church and opposite to the glebe land appears to have no listing in the appendices that would give it protection from development as protected green space. I consider that it should be protected in the same way and under the same designation as that proposed for the glebe land. It is a vital piece of land used as a recreational space for the children of St Bridget's school and should be protected.						
1247510	LPIO-13035	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1244811	LPIO-1310	yes	Saint Bridget's School playing field - This is used by the large school population every school day for sports and play times. It is also frequently used for fetes and other gatherings and for fundraising activities for the church - In the light of this I am amazed that the Diocese of Chester does not appear to value it except as a financial asset						
1246335	LPIO-13173	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1247687	LPIO-13305	yes	St Bridget's C E Primary School 's present playing field must be protected from all development so that all sports can be played safely. Increased domestic and commercial traffic in the area would make this impossible.						
1246853	LPIO-13426	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1247720	LPIO-13456	yes	The treasured beautiful St Bridgets School Playing Field must be protected-a vital adjacent facility for the school pupils' sporting activities/ school and church fayres/community Earthfest and other healthy wholesome activites and celebrations. Please consider these comments and those of the many other supporters.						
1247726	LPIO-13466	yes	I would like to see St Bridget's School Playing field protected from all development as this is vital to the school children to use for sporting activities.						
1247738	LPIO-13475	yes	St Bridgets School Playing Fielf should be protected from all development to ensure the children have space to play sports. My son is at St Bridgets and this is absolutely essential.						
1246852	LPIO-13551	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1247748	LPIO-13595	yes	I also support that St Bridget's School playing field should also be protected from all development to ensure that future generations of school children have the space to play sport.						
1247755	LPIO-13623	yes	St Bridget's School Playing Fired should be protected from all development to ensure that local school children have space to play all sports, take exercise & support a healthy lifestyle. Wishing you & your families all the very best. Thank you for the array of services you provide us.						
1246065	LPIO-13627	yes	Relatedly, I have recently learned that St. Briget's playing field, may also be vulnerable to development, and want to urge the Council not to further sacrifice that space. Losing either of these green spaces will have immeasurable costs to the village, the integrity of the Council, and the character of West Kirby. Thank you for your time and consideration						
1247746	LPIO-13707	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1247228	LPIO-13741	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247747	LPIO-13754	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1238192	LPIO-13818	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247012	LPIO-13872	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1244681	LPIO-1391	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. Examples include the landscaped area beside Birkenhead Central Library and the tree lined avenue on Balls Road East between Borough Road and Woodchurch Road.						
1247014	LPIO-13926	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1242183	LPIO-14024	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1247218	LPIO-14119	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1247219	LPIO-14221	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1247220	LPIO-14319	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1247822	LPIO-14372	yes	The school field used by St Bridget's school, should be protected as a 'school field,' and given protection from development in a similar way to Devonshire Field nearby. Please will these points be taken into consideration by councillors when deciding which Local Plan should be implemented by Wirral Council moving forward.						
1247222	LPIO-14448	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1247226	LPIO-14538	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1247245	LPIO-14636	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1246827	LPIO-14754	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1247016	LPIO-14862	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space? 1241669	LPIO-177	yes	The school playing field adjacent to St. Bridgets Primary School and Church does not appear in Appendix 8.1 as protected green space. Is this an omission? This field which is in the conservation area in West Kirby should be protected as green space. An application is already in place for the glebe land (known locally as the horse field) opposite the school playing field located in Rectory Lane to be designated as green space and this playing field should be similarly protected for the same reasons as those applying to the horse field application.						
1247979	LPIO-17793	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION

1247024	LPIO-18577	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247025	LPIO-18670	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247038	LPIO-18671	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1248018	LPIO-18684	yes	I was a pupil of St Bridget's School (SBS). The playing field was a really important part of the school as this is where we were able to do sport and have our sports days etc. The SBS Playing Field definitely needs protection from any form of building/ development to ensure that the children of that school retain the ability to play sports, something pivotal for their physical, mental and emotional development. Without the field, the children of this school would be significantly disadvantaged. In addition, the field provides a fantastic venue that attracts many locals and visitors from afar for its church fayres and also West Kirby's first ever festival (Earthfest) that has been happening successfully for a number of years, supporting the environment and providing opportunities for all visitors to enhance a community spirit and support each other.						
1248019	LPIO-18698	yes	I was a pupil of St Bridget's School (SBS). The playing field was a really important part of the school as this is where we were able to do sport and have our sports days etc. The SBS Playing Field definitely needs protection from any form of building/ development to ensure that the children of that school retain the ability to play sports, something pivotal for their physical, mental and emotional development. 1247042	LPIO-18932	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1248029	LPIO-18960	yes	I would like to register my objection to any planned development on the Greenfields Estate in West Kirby. This is a uniquely lovely piece of green space - a veritable "rus in urbe" in the heart of out town. The area has been untouched by modern farming methods, and is bound on one side by the ancient wall of Abbey Manor, whilst toward the bottom of the field the original gated entrance to Grove Hill House remains. The land itself is a small, self - contained ecosystem of its own - a rare breeding ground for a wide variety of flora and fauna. The uneven, uncultivated ground, the distinctive ant hills, the mature trees, the woodpeckers, the badgers, the sheep; all of this lends the space a rare bucolic feel - the feel of a pastoral idyll that was largely lost to society in general in the nineteenth century. To build on this space would be to eviscerate this unique oasis of tranquility, and to deprive our children of something truly beautiful, both aesthetically and sensually. My wider views on the Local Plan have been submitted through the portal, and fundamental to them is that there is no actual need to build on green spaces anywhere in the borough; this is not a case of "nimbyism." However, this green space is particularly close to my heart, and I have enjoyed its unique charm and beauty on many occasions as I have walked to and from the town centre, by day and by night. Please do not let inflated government targets, short-termism, and the grubby profiteering of housing developers prevail; we simply must retain the Greenfields Estate for future generations to enjoy, and I would ask that you give it ""Urban Green Space"" status.						
1247060	LPIO-19034	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247061	LPIO-19035	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247063	LPIO-19108	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247064	LPIO-19162	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247068	LPIO-19216	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1245060	LPIO-1923	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION.						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247071	LPIO-19273	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247072	LPIO-19331	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247078	LPIO-19386	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247080	LPIO-19485	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247081	LPIO-19486	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1248101	LPIO-19535	yes	I wish to register my support for the appeal to Wirral Council to have the fields on Grange Road West Kirby designated as local green						
1248102	LPIO-19536	yes	SHLAA 3095 Please accept this email as support for the application to make the fields known as Greenfields a local green space.						
1248104	LPIO-19537	yes	SHLAA 3095 Please accept this email as support for the application to make the fields known as Greenfields a local green space.						
1248105	LPIO-19538	yes	SHLAA 3095 Please accept this email as support for the application to make the fields known as Greenfields a local green space.						
1248106	LPIO-19539	yes	SHLAA 3095 Please accept this email as support for the application to make the fields known as Greenfields a local green space.						
1248107	LPIO-19540	yes	SHLAA 3095 Please accept this email as support for the application to make the fields known as Greenfields a local green space.						
1248108	LPIO-19541	yes	SHLAA 3095 Please accept this email as support for the application to make the fields known as Greenfields a local green space.						
1248109	LPIO-19542	yes	SHLAA 3095 Please accept this email as support for the application to make the fields known as Greenfields a local green space.						
1248110	LPIO-19543	yes	SHLAA 3095 Please accept this email as support for the application to make the fields known as Greenfields a local green space. This space of great importance to local history and has unique flora and fauna which should be protected.						
1248111	LPIO-19544	yes	SHLAA 3095 I am supporting the petition to have the fields on Grange Road designated as green space. There is plenty of brown field space in Birkenhead, Wallasey and Rock Ferry to construct housing on rather than concreting over green fields in West Kirby – one of the Sunday Times top 10 places to live in the North West.						
1248112	LPIO-19545	yes	SHLAA 3095 I am supporting the petition to have the fields on Grange Road designated as green space. There is plenty of brown field space in Birkenhead, Wallasey and Rock Ferry to construct housing on rather than concreting over green fields in West Kirby – one of the Sunday Times top 10 places to live in the North West.

1248123	LPIO-19573	yes	SHLAA 3095 Please designate the fields adjacent to Grange Road, West Kirby (Greenfield) as a designated local green space. The beauty and character of the area would be irrevocably destroyed were these fields to be built upon.						
1248124	LPIO-19574	yes	SHLAA 3095 Please accept this in support of the application to make the fields known as Greenfields, Grange Road a local green						
1248136	LPIO-19617	yes	Please accept this in support of the application to make the fields known as Greenfields, Grange Road a local green space						
1247082	LPIO-19654	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247083	LPIO-19708	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1246647	LPIO-19731	yes	<p>I am writing to you to lodge an objection to the Greenfields Estate being used as a potential housing allocation site. I am lodging this objection based on the following two views:</p> <ol style="list-style-type: none"> <li>To object to these fields being considered as a potential housing development site; and</li> <li>That the area should be designated an "Urban Green Space" – like Caldly Hill, Grange Hill and the Parks.</li> </ol> <p>I would like the Greenfields Estate to be designated an "Urban Green Space" based on the following guidance from Section 8.49 , Paragraph 100, of the National Framework that states "Local Green Space designation should only be used where the green space is:</p> <ol style="list-style-type: none"> <li>in reasonably close proximity to the community it serves;</li> <li>demonstrably special to a local community and holds a particular local significance, for example because of its beauty, historic significance, recreational value (including as a playing field), tranquillity or richness of its wildlife; and</li> <li>local in character and is not an extensive tract of land</li> </ol> <p>The Greenfields Estate meets this criteria due to the following: The fields alongside Grange Road and behind Abbey Road West Kirby (The Greenfields Estate) have remained untouched for centuries. There is a lot of history behind them and the surrounding area, including links to Abbey Manor/Grove Hill House which still remains today, the link to which is below.  <a href="http://westkirby1841.co.uk/abbey-manor-grove-hill.php">http://westkirby1841.co.uk/abbey-manor-grove-hill.php</a> The fields are bound by one of the original walls to the House owned by John Robin and is a wall of historical interest. Although not built by Philip De Grouchy, it is built in the same manner by using irregular uncut stone. This wall runs behind no's 4 and 6 Abbey Road. The walls are maintained by these houses and are accessed via the fields. In addition at the intersection of one of the fields with Grange Road, there is still the original gated entrance to Grove Hill House which took visitors through the then magnificent gardens to the front of the manor house. These fields, known as Greenfield currently, are the only fields in West Kirby that are original land, untouched by any farming methods. They look the same now as they did centuries ago. This has allowed a unique flora and fauna to grow up which has been able to flourish. You will notice, possibly unique to the Wirral, mounds rising up in the fields. These actually belong to ants which have a very delicate ecosystem and only appear on unfarmed land. In addition to this there are Badgers who use the land (video evidence available in the garden of no. 2 Abbey Road). There are also foxes, many varieties of birds including woodpeckers and birds of prey. There are established trees, again some dating back to early 20th century. The fields are privately owned which means the rare environment has been allowed to continue as, unlike the parks and other land in west Kirby, it is not frequented by the general public. The fields are a well know public landmark, however, as they are a focal point as you drive along Grange Road when you either enter or leave West Kirby. They give an open and welcoming impression of West Kirby which could be lost forever. Any alteration to this will completely change West Kirby. Please consider this request to assign the Greenfields Estate an Urban Green Space.</p>						
1247084	LPIO-19771	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.

1247150	LPIO-21948	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1244329	LPIO-22031	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247119	LPIO-22120	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1246678	LPIO-22121	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1245125	LPIO-2221	yes	The playing field used by St.Bridget' s Primary School in West Kirby should also be designated as a Green Space. This is opposite the glebe land shown on the previous map (fig 8.2) on Rectory Road. All children should have a green space to play outside, to create vitamin D , to exercise and to learn about team games. Most school playing fields are already protected. This field is also used for several community events, such as the very popular Wirral Earth Festival, which attracted hundreds of visitors last year.						
1247151	LPIO-22228	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247152	LPIO-22229	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1239471	LPIO-22272	yes	Environment We are aware that the Council has received an application to designate a site to the north of Rectory Road, within West Kirby Old Village Conservation Area, as a Local Green Space. (para 8.52 & fig 8.2) We welcome such a designation. "						
1247153	LPIO-22342	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1247155	LPIO-22343	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.

Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1245146	LPIO-2360	yes	Heswall Dales Junction of Telegraph Road/Thurstaston Road Whitfield Common Area around Library and Jug & Bottle Heswall Dawstone Park Land opposite Catholic Church in Heswall Heswall Puddydale						
1241020	LPIO-23720	yes	I would like to make a submission to the consultation process on behalf of West Kirby Old Village Conservation Area Committee. I have submitted this comment via the on-line consultation but I have not received confirmation that it was accepted as valid, so I am sending a copy directly to you. The West Kirby Conservation Area Appraisal and Management Plan 2009 describes the important elements of its character – notably semi-rural setting, wooded grounds and paddock areas, defining views of St Bridget’s Church. It also states that; “Green spaces and wooded areas add very considerably to the character of the area”. These aspects should be protected in the Local Plan.						
1242185	LPIO-23949	yes	Groups will comment separately on Local Green space to limit the length of this group submission.						
1245483	LPIO-24299	yes	SHLAA 3095 - The fields alongside Grange Road and behind Abbey Road West Kirby have remained untouched for centuries. There is a lot of history behind them and the surrounding area, including links to Abbey Manor/Grove Hill House which remains today. The fields are bound by one of the original walls to the House and is a wall of historical interest. It is built in the same manner by using irregular uncut stone. This wall runs behind no’s 4 and 6 Abbey Road. The walls are maintained by these houses and need to be accessed via the fields. In addition, at the intersection of one of the fields with Grange Road, there is still the original gated entrance to Abbey Manor/Grove Hill House which took visitors through the then magnificent gardens to the front of the manor house. These fields, known as Greenfields currently, are the only fields in West Kirby that are original land, untouched by any farming methods. They look the same now as they did centuries ago. This has allowed a unique flora and fauna to grow up which has been able to flourish. You will notice, possibly unique to the Wirral, mounds rising up in the fields. These have been constructed by ants (some may be up to 100 years old) and have a very delicate ecosystem only appearing on unfarmed land. In addition to this there are Badgers who use the land (video evidence available in the garden of no. 2 Abbey Road). There are also bats, foxes, many varieties of birds including owls, woodpeckers and birds of prey. There are established trees, again some dating back to early 20th century. Unlike the parks and other land in west Kirby, it is not frequented by the general public, however, the fields are a well know public landmark, as they are a focal point as you drive along Grange Road when you either enter or leave West Kirby. They give an open and welcoming impression of West Kirby which could be lost forever. Any alteration to this will completely change the intrinsic character of West Kirby as we know it and the only greenspace visible as you enter or leave West Kirby will disappear forever. The Local plan specifically asks for areas of land like Greenfields to be nominated in order that they can be preserved.	<a href="https://wirral-consult.objective.co.uk/file/5646939">https://wirral-consult.objective.co.uk/file/5646939</a>	<a href="https://wirral-consult.objective.co.uk/file/5647012">https://wirral-consult.objective.co.uk/file/5647012</a>	<a href="https://wirral-consult.objective.co.uk/file/5647016">https://wirral-consult.objective.co.uk/file/5647016</a>	<a href="https://wirral-consult.objective.co.uk/file/5646937">https://wirral-consult.objective.co.uk/file/5646937</a>		
1242697	LPIO-24718	yes	The Council could add other sites in private ownership in due course – for example land at SHLAA 4056 and SHLAA 3095 – instead of earmarking them for development. These sites have a value as green space, along the lines of the 5 NPPF purposes for the Green Belt. Further development on Grange Hill Farm (SHLAA4056) would run counter to the prevention of visually intrusive development in more elevated areas, set out in bullet 4 of the preferred approach for Landscape. Other examples, in other settlement areas will exist.	<a href="https://wirral-consult.objective.co.uk/file/5659118">https://wirral-consult.objective.co.uk/file/5659118</a>	<a href="https://wirral-consult.objective.co.uk/file/5659119">https://wirral-consult.objective.co.uk/file/5659119</a>	<a href="https://wirral-consult.objective.co.uk/file/5659120">https://wirral-consult.objective.co.uk/file/5659120</a>	<a href="https://wirral-consult.objective.co.uk/file/5659121">https://wirral-consult.objective.co.uk/file/5659121</a>		
1245833	LPIO-24734	yes	Support for designation of Glebe Land at West Kirby as a Local Green Space due to the high levels of historical, architectural and heritage value of the buildings and land – full detail included in attachment and summarised here. CASE FOR LISTING A LINKED BARN AND STABLES ON THE GLEBE LAND IN RECTORY ROAD, WEST KIRBY, WIRRAL, CH48 7HL RECTORY ROAD BUILDINGS GROUP VALUE <ul style="list-style-type: none"> <li>The two buildings lie close to three Grade II listed buildings, St Bridget’s church, West Kirby War Memorial and Nook Cottage, a late 17th century cottage of a similar age to the barn.</li> <li>They are also close to the Ring o’ Bells and Manor Farm, which along with the barn and stables are classified in the Conservation Area Assessment as “buildings that are critical to the character of the area: typically landmark buildings and/or historic buildings with most of their original character retained”.</li> </ul>						
1244826	LPIO-2474	yes	All landscapes green belts should be protected from unnecessary development.						
1244901	LPIO-2499	yes	St Bridget field along Rectory Road in West Kirby currently used by the local primary school and other community activities and events, should also be protected together with the 'glebe land' in the same location. Both are part of the West Kirby Old Village Conservation Area and should never be allowed to be developed upon.						
1246341	LPIO-25625	yes	We wish to promote an alternative Local Green Space designation for the parcels identified in our Appendices 1 and 4. The alternative designations in Appendix 1 would help to secure public parks in perpetuity and would preserve a much larger area as Local Green Space.	<a href="https://wirral-consult.objective.co.uk/file/5664161">https://wirral-consult.objective.co.uk/file/5664161</a>	<a href="https://wirral-consult.objective.co.uk/file/5664160">https://wirral-consult.objective.co.uk/file/5664160</a>	<a href="https://wirral-consult.objective.co.uk/file/5664163">https://wirral-consult.objective.co.uk/file/5664163</a>	<a href="https://wirral-consult.objective.co.uk/file/5664164">https://wirral-consult.objective.co.uk/file/5664164</a>	<a href="https://wirral-consult.objective.co.uk/file/5664162">https://wirral-consult.objective.co.uk/file/5664162</a>	

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1246458	LPIO-25820	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1246459	LPIO-25821	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1237870	LPIO-2611	yes	Very simply - any land that is used for AGRICULTURE should have protected status. The Council already have a detailed map of AGRICULTURAL LAND so I do not need to provide you with one from me.						
1247721	LPIO-26111	yes	Barclay's Meadow, Grange Road, west Kirby - Application for designation as Local Green Space The Society has had separate approached from three people, who have each decided independently that they wished to make application for this land to be designated as Local Green Space. From our knowledge of Barclay's Meadow, and having considered the case they have each put forward to support such a designation, we are of the view that these requests ought to satisfy the necessary criteria. The Society is therefore pleased to lend its support to these Applications.						
1243721	LPIO-2618	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) The Heswall Society in its own submission will provide detailed applications to support.						
1249219	LPIO-26488	yes	The following sites in Heswall should be designated as Local Green Space that would provide much better protection than the current Urban Green Space classification: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space) Our own submission will provide detailed applications to support.	<a href="https://wirral-consult.objective.co.uk/file/5677529">https://wirral-consult.objective.co.uk/file/5677529</a>	<a href="https://wirral-consult.objective.co.uk/file/5677528">https://wirral-consult.objective.co.uk/file/5677528</a>				
1249889	LPIO-26578 1of 2	yes	Please accept this as an application to designate Noctorum Field, located off Noctorum Road and adjacent to Noctorum Lane, as Local Green Space. Local Green Spaces can only be designated through Local Plans or Neighbourhood Development Plans. Noctorum Ridge Residents' Association therefore wishes to make this application in accordance with paragraphs 99 to 101 of the National Planning Policy Framework (February 2019) and in response to Question 8.10 of the Wirral Local Plan, during the consultation period of the Wirral Local Plan 2020-2035. National Planning Policy Framework (2019), paragraph 100 and Wirral Local Plan 2020-2035 Issues and Options Consultation, paragraph 8.49 states: "The Local Green Space designation should only be used where the green space is: (a) in reasonably close proximity to the community it serves; (b) demonstrably special to a local community and holds a particular local significance, for example because of its beauty, historic significance, recreational value (including as a playing field), tranquility or richness of its wildlife; and (c) local in character and is not an extensive tract of land." Noctorum Field meets each of the criteria in paragraph 100 of the National Planning Policy Framework, the following pages set out the evidence in support of this application against each of the three criteria. (a)The land has to be 'reasonably close to the community it serves'. Noctorum Field is located at the junction of Noctorum Road and Lane, adjacent to Wirral Golf Club which is on the other side of Noctorum Lane. Noctorum Road and Lane are residential. Noctorum Field is centrally placed at the hub of the Noctorum Ridge area and the local community it serves, as shown on the map (Figure 1). The Field is 2.24 hectares in size and no more than 300m (5 minutes' walk) from many homes, thus fulfilling Natural England's Accessible Natural Greenspace standards. Noctorum Lane and the adjacent Golf Course are hugely popular with dog walkers and others, who use the area, and this expands the numbers of the community who recognise the value of the	<a href="https://wirral-consult.objective.co.uk/file/5685761">https://wirral-consult.objective.co.uk/file/5685761</a>					

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1249889	LPIO-26578 2 of 2	yes	<p>asset. Noctorum Field therefore meets the standard for consideration of designating it Local Green Space.</p> <p>b) The land must be 'demonstrably special to a local community and holds a particular local significance, for example because of its beauty, historic significance, recreational value (including as a playing field), tranquility or richness of its wildlife'</p> <p>(i) Beauty Noctorum Field is a beautiful open green space within a perimeter of trees which merge with the surrounding setting of established trees.</p> <p>The varied collection of mature trees is a feature of the area, there is an extensive tree canopy. The trees of Noctorum Field and the surrounding area are protected by Tree Preservation Orders, to protect the beauty and character of the area (Figure 2). The broadleaved trees include beech, oak, lime, willow and silver birch. Conifers include Scots pine, black pine and holly.</p>						
1249889	LPIO-26579	yes	<p>The character of the area is created by the combination of the open green space of the Field and the extensive surrounding tree cover which extends along Noctorum Road and Lane, and beyond. Although the houses in the area are set in large gardens, they provide enclosure, and Noctorum Field provides contrast and openness as the views become more extensive across the Golf Course to the east, and the Field to the west. It is one of the defining and distinctive features of Noctorum Ridge, and a key attribute in placemaking.</p> <p>Local residents are proud of the beauty and unique character of the Field and surroundings. The beauty is a visual amenity which is enjoyed by the wider community. The tree canopy provides shade and has a cooling effect, thus mitigating against climate change.</p> <p>(ii) Historic significance</p> <p>The name Noctorum is Old Irish in origin, the original is Cnoc Trim, meaning "Dry Hill". Noctorum and "Chenoterie" (Norman French) appear in the Domesday Book of 1086. The six-inch OS map of 1870 shows both Chenotrie and Noctorum. Noctorum Field includes a playing pitch and large pavilion, which belong to Birkenhead School. The Field has been part of the school's heritage for more than 100 years. The school first rented the field in 1905, then bought it in 1910. Generations of the local community have played outdoor sports here.</p> <p>The pavilion housed a war memorial, an inscribed brass plaque (WM reference 47789). The inscription read "In honoured memory of the members of the Old Birkenhead Football Club who gave their lives for their country in the World War 1939-1945 (followed by 29 names) Their Name Liveth for Evermore".</p> <p>Noctorum Field adjoins Middlewood, a house designed by Edmund Kirby and completed in 1889. There is a narrative history that the field was pastureland for horses, adjacent to the coach house of Middlewood, until the owner of Middlewood bought a There are other important examples of local architectural heritage nearby on Noctorum Lane. Rathmore (1880's) and Mere Hall (1881) were both designed by Edmund Kirby and are grade II listed, whilst the nearby Wethersfield (1893, grade II) is also a Kirby design.</p> <p>(iii) Recreational value</p> <p>Noctorum Field is a playing field which is used for rugby and cricket by Birkenhead School. There is no public access. There is a large pavilion. Local schools (Birkenhead, St. Anselm's and Ridgeway High) use the area for cross country running, along the edge of the Field. Noctorum Road and Lane follow two of the three borders of the site. These are popular routes for walking, running and cycling. Outdoor recreation around the Field is enjoyed by the local and wider community, by people of all ages. Noctorum Lane adjoins Wirral Golf Course (formerly Wirral Ladies' Golf Course) on the opposite side to the Field, enhancing the open green space. Monitor of Engagement with the Natural Environment (September 2019) reports that the total number of visits to green spaces (parks and playing fields) in towns and cities almost doubled in the ten years to 2018/19. 94% of the population agreed that having open green spaces close to home was important (in 2018/19). Local walks which pass along the edge of Noctorum Field include a walk which to Bidston Hill from the River Fender (see <a href="http://www.visitwirral.com">www.visitwirral.com</a>).</p> <p>Noctorum Field is part of Wirral's green infrastructure, connecting with Bidston Woods, Wirral Golf Course and Boundary Lane allotments.</p>	<a href="https://wirral-consult.objective.co.uk/file/5685761">https://wirral-consult.objective.co.uk/file/5685761</a>					

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1249889	LPIO-26580	yes	<p>(iv) Tranquility. Noctorum Field and its surroundings are an oasis of peace and tranquility, the only sound being of birdsong. There is obviously some noise when the playing pitch is being used.</p> <p>(v) Richness of wildlife. The Field and its ring of trees support a variety of wildlife, including bats. There is abundant birdlife, which can be seen and heard. Birds include robins, blackbirds, thrushes, blue tits, long tailed tits, great tits, goldfinches, woodpeckers, nuthatches, jays, magpies, pigeons, seagulls, sparrowhawks and owls. Only the central playing field is managed, leaving a wide rim which is not managed or walked on and therefore an ideal natural environment to support wildlife and help to maintain biodiversity. The Field is a wildlife corridor which connects local green sites, including the adjacent Wirral Golf Course which is recognised as a site of Biological importance in the Wirral Local Plan.</p> <p>(c) The land needs to be 'local in character, not an extensive tract of land'. The land is local in character. A review of the Ordnance Survey maps from 1870, and earlier tithe maps, shows that it has never been built on except for a sports pavilion and possibly a stable. This high quality green space, surrounded by its own and neighbouring trees, gives a very distinctive character to the area and is an urban green space of great natural beauty. Noctorum Field is 2.24 hectares in size. The importance of this area to local residents is demonstrated by their attached signatures in support of Local Green Space designation.</p> <p>In summary, Noctorum Field is a recreational green space which fulfils the criteria defined in the National Planning Policy Framework (2019) paragraph 100 for designation as a Local Green Space. It has additional importance for environmental reasons, biodiversity and local heritage. It is a high quality open green space within an urban area which is enjoyed by the wider community. We want to protect Noctorum Field for future generations. We strongly recommend that Noctorum Field should be protected as a designated Local Green Space. It would be appreciated if you could confirm receipt of this application and consider Noctorum Field to be designated as Local Green Space as a part of the development of the Wirral Local Plan 2020-2035. (maps, pictures and member's list attached to submission)</p>	<a href="https://wirral-consult.objective.co.uk/file/5685761">https://wirral-consult.objective.co.uk/file/5685761</a>					
1248223	LPIO-26716	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1248224	LPIO-26717	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1248226	LPIO-26742	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1248225	LPIO-26743	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1248228	LPIO-26767	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1248229	LPIO-26768	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1248230	LPIO-26794	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1248231	LPIO-26795	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space? I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1248212	LPIO-27157	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1248208	LPIO-27164	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1248176	LPIO-27179	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1248178	LPIO-27200	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1248180	LPIO-27224	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1250049	LPIO-27229	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1250048	LPIO-27231	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1248181	LPIO-27245	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1250054	LPIO-27266	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1248213	LPIO-27272	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1250059	LPIO-27304	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1250058	LPIO-27344	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1250062	LPIO-27345	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1250057	LPIO-27346	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1250063	LPIO-27363	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1250065	LPIO-27376	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						
1250067	LPIO-27389	yes	Local Green Space. Consideration should be given to including the site at Noctorum Field (OS140) as a Local Green Space. I believe it meets the criteria for such a designation as set out in P.100 of the NPPF, and I support the application made by the Noctorum Ridge Residents Association for the designation of NF as a Local Greenspace.						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247747	LPIO-27393	yes	<p>Please accept this as an application to designate Noctorum Field, located off Noctorum Road and adjacent to Noctorum Lane, as Local Green Space.</p> <p>Local Green Spaces can only be designated through Local Plans or Neighbourhood Development Plans. Noctorum Ridge Residents' Association therefore wishes to make this application in accordance with paragraphs 99 to 101 of the National Planning Policy Framework (February 2019) and in response to Question 8.10 of the Wirral Local Plan, during the consultation period of the Wirral Local Plan 2020-2035. National Planning Policy Framework (2019), paragraph 100 and Wirral Local Plan 2020-2035 Issues and Options Consultation, paragraph 8.49 states:</p> <p>"The Local Green Space designation should only be used where the green space is:</p> <ul style="list-style-type: none"> <li>(a) in reasonably close proximity to the community it serves;</li> <li>(b) demonstrably special to a local community and holds a particular local significance, for example because of its beauty, historic significance, recreational value (including as a playing field), tranquility or richness of its wildlife; and</li> <li>(c) local in character and is not an extensive tract of land."</li> </ul> <p>Noctorum Field meets each of the criteria in paragraph 100 of the National Planning Policy Framework, the following pages set out the evidence in support of this application against each of the three criteria.</p> <p>(a)The land has to be 'reasonably close to the community it serves'.</p> <p>Noctorum Field is located at the junction of Noctorum Road and Lane, adjacent to Wirral Golf Club which is on the other side of Noctorum Lane. Noctorum Road and Lane are residential. Noctorum Field is centrally placed at the hub of the Noctorum Ridge area and the local community it serves, as shown on the map (Figure 1). The Field is 2.24 hectares in size and no more than 300m (5 minutes' walk) from many homes, thus fulfilling Natural England's Accessible Natural Greenspace standards. Noctorum Lane and the adjacent Golf Course are hugely popular with dog walkers and others, who use the area, and this expands the numbers of the community who recognise the value of the asset. Noctorum Field therefore meets the standard for consideration of designating it Local Green Space.</p> <p>b) The land must be 'demonstrably special to a local community and holds a particular local significance, for example because of its beauty, historic significance, recreational value (including as a playing field), tranquility or richness of its wildlife'</p> <p>(i) Beauty Noctorum Field is a beautiful open green space within a perimeter of trees which merge with the surrounding setting of established trees. The varied collection of mature trees is a feature of the area, there is an extensive tree canopy. The trees of Noctorum Field and the surrounding area are protected by Tree Preservation Orders, to protect the beauty and character of the area (Figure 2). The broadleaved trees include beech, oak, lime, willow and silver birch. Conifers include Scots pine, black pine and holly.</p>	<a href="https://wirral-consult.objective.co.uk/file/5685761">https://wirral-consult.objective.co.uk/file/5685761</a>					
1247747	LPIO-27394 1 of 2	yes	<p>The character of the area is created by the combination of the open green space of the Field and the extensive surrounding tree cover which extends along Noctorum Road and Lane, and beyond. Although the houses in the area are set in large gardens, they provide enclosure, and Noctorum Field provides contrast and openness as the views become more extensive across the Golf Course to the east, and the Field to the west. It is one of the defining and distinctive features of Noctorum Ridge, and a key attribute in placemaking.</p> <p>Local residents are proud of the beauty and unique character of the Field and surroundings. The beauty is a visual amenity which is enjoyed by the wider community. The tree canopy provides shade and has a cooling effect, thus mitigating against climate change.</p> <p>(ii) Historic significance</p> <p>The name Noctorum is Old Irish in origin, the original is Cnoc Trim, meaning "Dry Hill". Noctorum and "Chenoterie" (Norman French) appear in the Domesday Book of 1086. The six-inch OS map of 1870 shows both Chenotrie and Noctorum. Noctorum Field includes a playing pitch and large pavilion, which belong to Birkenhead School. The Field has been part of the school's heritage for more than 100 years. The school first rented the field in 1905, then bought it in 1910. Generations of the local community have played outdoor sports here.</p> <p>The pavilion housed a war memorial, an inscribed brass plaque (WM reference 47789). The inscription read "In honoured memory of the members of the Old Birkenhead Football Club who gave their lives for their country in the World War 1939-1945 (followed by 29 names) Their Name Liveth for Evermore".</p> <p>Noctorum Field adjoins Middlewood, a house designed by Edmund Kirby and completed in 1889. There is a narrative history that the field was pastureland for horses, adjacent to the coach house of Middlewood, until the owner of Middlewood bought a motor car.</p>	<a href="https://wirral-consult.objective.co.uk/file/5685761">https://wirral-consult.objective.co.uk/file/5685761</a>					

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247747	LPIO-27394 2 of 2	yes	<p>There are other important examples of local architectural heritage nearby on Noctorum Lane. Rathmore (1880's) and Mere Hall (1881) were both designed by Edmund Kirby and are grade II listed, whilst the nearby Wethersfield (1893, grade II) is also a Kirby design.</p> <p>(iii) Recreational value Noctorum Field is a playing field which is used for rugby and cricket by Birkenhead School. There is no public access. There is a large pavilion. Local schools (Birkenhead, St. Anselm's and Ridgeway High) use the area for cross country running, along the edge of the Field. Noctorum Road and Lane follow two of the three borders of the site. These are popular routes for walking, running and cycling. Outdoor recreation around the Field is enjoyed by the local and wider community, by people of all ages. Noctorum Lane adjoins Wirral Golf Course (formerly Wirral Ladies' Golf Course) on the opposite side to the Field, enhancing the open green space. Monitor of Engagement with the Natural Environment (September 2019) reports that the total number of visits to green spaces (parks and playing fields) in towns and cities almost doubled in the ten years to 2018/19. 94% of the population agreed that having open green spaces close to home was important (in 2018/19). Local walks which pass along the edge of Noctorum Field include a walk which to Bidston Hill from the River Fender (see <a href="http://www.visitwirral.com">www.visitwirral.com</a>). Noctorum Field is part of Wirral's green infrastructure, connecting with Bidston Woods, Wirral Golf Course and Boundary Lane allotments.</p>						
1247747	LPIO-27395	yes	<p>(iv) Tranquility. Noctorum Field and its surroundings are an oasis of peace and tranquility, the only sound being of birdsong. There is obviously some noise when the playing pitch is being used.</p> <p>(v) Richness of wildlife. The Field and its ring of trees support a variety of wildlife, including bats. There is abundant birdlife, which can be seen and heard. Birds include robins, blackbirds, thrushes, blue tits, long tailed tits, great tits, goldfinches, woodpeckers, nuthatches, jays, magpies, pigeons, seagulls, sparrowhawks and owls. Only the central playing field is managed, leaving a wide rim which is not managed or walked on and therefore an ideal natural environment to support wildlife and help to maintain biodiversity. The Field is a wildlife corridor which connects local green sites, including the adjacent Wirral Golf Course which is recognised as a site of Biological importance in the Wirral Local Plan.</p> <p>(c) The land needs to be 'local in character, not an extensive tract of land'. The land is local in character. A review of the Ordnance Survey maps from 1870, and earlier tithe maps, shows that it has never been built on except for a sports pavilion and possibly a stable. This high quality green space, surrounded by its own and neighbouring trees, gives a very distinctive character to the area and is an urban green space of great natural beauty. Noctorum Field is 2.24 hectares in size. The importance of this area to local residents is demonstrated by their attached signatures in support of Local Green Space designation.</p> <p>In summary, Noctorum Field is a recreational green space which fulfils the criteria defined in the National Planning Policy Framework (2019) paragraph 100 for designation as a Local Green Space. It has additional importance for environmental reasons, biodiversity and local heritage. It is a high quality open green space within an urban area which is enjoyed by the wider community. We want to protect Noctorum Field for future generations. We strongly recommend that Noctorum Field should be protected as a designated Local Green Space. It would be appreciated if you could confirm receipt of this application and consider Noctorum Field to be designated as Local Green Space as a part of the development of the Wirral Local Plan 2020-2035. (maps, pictures and member's list attached to submission)</p>	<a href="https://wirral-consult.objective.co.uk/file/5685761">https://wirral-consult.objective.co.uk/file/5685761</a>

1245180	LPIO-2783	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION.						
1245100	LPIO-2808	yes	There are many sites on Wirral that should be designated as Local Green Space. Examples include the landscaped area beside Birkenhead Central Library and tree lined avenue on Balls Road between Balls Road East, Borough Road and Woodchurch Road						
1245081	LPIO-2892	yes	The Sheep Field, as it is known locally, is an important pastoral open space in an urban area and makes a major contribution to the character of West Kirby at a key gateway. The site provides a unique meadow greenspace and is a significant feature in the panoramic gateway, contributing to the setting and character of West Kirby. The site has important historical connections to the town and is one of the few remaining pieces of meadow land within the West Kirby settlement. Being so close to the centre of the town is enjoyed by residents and visitors alike. It is highly visible from A540 Grange Road and the characterful, historic pedestrian link between Grange Road and Carpenters Lane. The site is an important visual oasis of meadow greenspace in a built-up area.	<a href="https://wirral-consult.objective.co.uk/file/5655821">https://wirral-consult.objective.co.uk/file/5655821</a>					

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1245256	LPIO-2909	yes	St Bridget's School Playing field off Rectory Road, West Kirby should be designated as a Local Green Space.						
1245159	LPIO-3087	yes	St Bridget's School Field, Rectory Road, West Kirby All Ashton Park especially the area of Ashton Park in the ownership of the Diocese of Chester						
1241315	LPIO-3317	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1237944	LPIO-3460	no							
1238835	LPIO-3484	yes	These sites are too numerous to mention and all of them serve the local communities in a variety of ways. I don't think it is fair and reasonable to include this question, within this document. You may want to make this issue the subject of a seperate questionnaire. All Wirral green space, including agricultural land, farmland and other associated Greenbelt should be protected from house building.						
1245451	LPIO-3590	yes	St Bridget's School Field, Rectory Road, West Kirby All Ashton Park especially the area of Ashton Park in the ownership of the Diocese of Chester						
1245462	LPIO-3644	yes	St Bridget's School Field, Rectory Road, West Kirby						
1245466	LPIO-3669	yes	St. Bridget's School Playing Field should be designated as a Local Green Space. It is a vital space for the school to continue providing their quality care for pupils. It is a very popular school with outstanding OFSTED results, and any reduction in their already tight space would tamper their quality care, not to mention the children's safety.						
1237827	LPIO-3829	no							
1245288	LPIO-3898	yes	There is a triangular piece of land, which is grassed and has some trees in Pensby (no map available), it provide a through path to properties in Marlsden Avenue. It could be turned in to a wild flower patch for all residents to enjoy.						
1240939	LPIO-4178	no							
1245346	LPIO-4254	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. Examples include the landscaped area beside Birkenhead Central Library and the tree lined avenue on Balls Road East between Borough Road and Woodchurch Road.						
1245638	LPIO-4315	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. Please withdraw this question						
1237667	LPIO-4592	yes	Heswall Dales and Cleaver Heath Telegraph Road and Thurstaston Road Triangle in Heswall Poll Hill Reservoir in Heswall The Puddydale in Heswall Dawstone Park in Heswall The Beacons Heswall Pinewoods both north and south. Area on Telegraph Road by the Catholic Church.						
1245734	LPIO-4614	yes	St Bridget's school playing fields should be included in the Local Green Space as it is the only green outdoor space for the school children and local community to use for the activities and planned gatherings such as fetes etc.						
1244720	LPIO-4756	yes	The current green space on the Birkenhead School campus bordered by Beresford Road on one side, and the Prep school on the other side. It meets criterias a, b and c of the NPPF, valued by the local community, tranquil, and providing amenity value as it is the playing field of the school. It is of historical significance due to its relationship to the school which is 160 years old and has many renowned ex pupils. The field is part of the character of the area, resembling a village green.						
1244629	LPIO-4800	yes	Do not like this question, it should not be included really.						
1245713	LPIO-5125	yes	All current green spaces, unable to identify individually						
1245501	LPIO-5155	yes	As this question does not establish if the local green space is natural woodland, allotments, common land or even agricultural land, nor explain the minimum or maximum size, it is difficult for a layman to answer this question. In the interest of crystal clear explanation in all Council communication, this question should reworded, (which as it is one day before the consultation ends, is not going to happen) or be withdrawn.						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1244215	LPIO-5229	yes	Proposed Local Green Space Designation - Site Assessment - Report in response to Local Plan Regulation 18 Consultation (Wirral Borough Council) Site name SHLAA 3095 North of 90 to 92 Grange Road, and land east of Carpenter's Lane, West Kirby Location plan Sheep Field, as it is locally known, is an important pastoral open space in an urban area and makes a major contribution to the character of West Kirby at a key gateway to the town, for local residents, Wirral residents and visitors. The site provides a unique meadow greenspace and is a significant feature in the panoramic gateway, contributing to the setting and character of West Kirby, setting off the views across the estuary to Wales and Snowdonia. The site, with its largely unbroken sandstone wall, has important historical connections to the town and is one of the few remaining pieces of meadow land within the West Kirby settlement. The site is an important visual oasis of meadow greenspace in a built-up area, acting as a lively wildlife area, natural drainage feature and housing important protected trees. Being so close to the centre of the town it is enjoyed by residents and visitors alike. It is highly visible from A540 Grange Road and the characterful, historic pedestrian link between Darmonds Green, Grange Road and Carpenters Lane.	<a href="https://wirral-consult.objective.co.uk/file/5679321">https://wirral-consult.objective.co.uk/file/5679321</a>					
1245496	LPIO-5244	yes	The area known as Harrocks Wood is a national trust area . This area is off Thurstaston Road leading up to Irby Village.. It is a well known woodland for its extensive amount of bluebells in the spring. It also has the Arrowe Brook stream running through the woodland. Any proposed development in the Irby and Pensby area would have a detrimental affect on the area, woodland the brook and surrounding area. I am unable to upload a map of the area.						
1239571	LPIO-5282	yes	I support the detailed proposal being prepared by the Heswall Society.						
1246006	LPIO-5352	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. Examples include the landscaped area beside Birkenhead Central Library and the tree lined avenue on Balls Road East between Borough Road and Woodchurch Road.						
1240383	LPIO-5454	yes	We support other WGSAs members in their efforts to achieve Local Green Space designation with particular regard to the list proposed by the Heswall Society						
1242541	LPIO-5681	yes	Junction of Telegraph Road and Boundary Lane in Heswall Junction of Telegraph Road and Thurstaston Road in Heswall Telegraph Road between junction with the mount and tescos All are special to our local community. They provide a welcome relief from the traffic along Telegraph Road, a place for older community to pause and catch their breath, a place to see some green amongst the houses. Please do not let any of these spaces be taken over for development or parking						
1242964	LPIO-571	yes	I would like to suggest the following local sites are designated as Local Green Spaces: Flynn's Piece, Grove Road, Wallasey Land surround The Grange, Grove Road, Wallasey The Dips, Coastal Drive, Wallasey Wallacre Playing Field and Play Area, Mosslands Drive Land on the corner of Harrison Drive and Basywater Road Harrison Park Elleray Park Cross Lane playing fields, Wallasey Belvidere Fields, Belvidere Road The Oval cricket ground, Wallasey All these sites are in close proximity to the community they serve and are very much valued as green spaces in densely occupied residential areas and several hold particular local significance, because of their recreational value (including as a playing field).						
1246310	LPIO-5975	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. I'm not in a position to answer this						
1246341	LPIO-6012	yes	We wish to promote an alternative Local Green Space designation for the parcels identified in our Appendices 1 and 4. The alternative designation for the Glebe land is attached at Appendix 4. The entirety of the land would remain protected by Conservation Area status but the revised Local Green Space designation would recognise that a less sensitive area to the north-west is suitable for a well-designed development that respects and preserves the character and appearance of the area. It would include an existing derelict building on the road frontage and its curtilage. The proposed designation would help to protect the most important and sensitive parts of the land. The whole of the land is private at present. The developer has indicated that the revised Local Green Space area could be made publicly available, representing a significant benefit to the local community. The finer details of that offer would be determined in the context of a planning application and could be secured through a suitable S106 agreement.	<a href="https://wirral-consult.objective.co.uk/file/5664161">https://wirral-consult.objective.co.uk/file/5664161</a>	<a href="https://wirral-consult.objective.co.uk/file/5664160">https://wirral-consult.objective.co.uk/file/5664160</a>	<a href="https://wirral-consult.objective.co.uk/file/5664163">https://wirral-consult.objective.co.uk/file/5664163</a>	<a href="https://wirral-consult.objective.co.uk/file/5664164">https://wirral-consult.objective.co.uk/file/5664164</a>	<a href="https://wirral-consult.objective.co.uk/file/5664162">https://wirral-consult.objective.co.uk/file/5664162</a>	
1245767	LPIO-6047	yes	I support the proposal by The Heswall Society that the following sites in Heswall should be designated as Local Green Space:- The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (corner of Telegraph Road/Boundary Lane).						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1244896	LPIO-6255	yes	ITPAS has identified the following green spaces to be classified as a 'Local Green Space'. See uploaded file for 6 Sites - Green Space ITPAS 01 to 06	<a href="https://wirral-consult.objective.co.uk/file/5677129">https://wirral-consult.objective.co.uk/file/5677129</a>					
1243903	LPIO-6362	yes	Glebeland on Rectory Road West Kirby, as previously mentioned in my earlier comments, all these areas provide habitats which have trees and scrub area, all contributing to help our carbon footprint in the CO2 they absorb. Field on South side of Grange Hill West Kirby, this runs from Abbey Road to the path leading to Carpenters Lane. This is a natural area whilst providing an area where children can see farm animals in their natural habitat. St Bridgets School field, opposite the Glebeland, between St Bridgets old Rectory, St Bridgets Church and St Bridgets School, access by car via St Bridgets Lane. The fields between Caldys roundabout up to Kings North Road on Column Road. All these areas provide space, conservation of wildlife and a tranquil area in a built up space. The school field is essential as a space for children, especially from the school, they have access to it without having to cross a road.						
1246339	LPIO-6366	yes	SHLAA 3095 Greenfield estate proposed potential housing site. This site is highly valued by the residents of West Kirby. I am aware of this from some workshops I undertook with local groups back in 2001 when trying to produce a town design statement for West Kirby (on a voluntary basis). It allows significant views of the Dee Estuary from Grange Road as people approach by road into West Kirby. These views are iconic and part of the character of the town. The open nature of the land contributes to the character of West Kirby with its low housing densities punctuated with parks and greenspaces. The site provides a wildlife corridor between Grange Hill and the Wirral Way. Foxes, Badgers etc frequent the site. In historic terms the land has been open pasture for many centuries and formed part of the farms to Monks Way and the adjacent Grove Hill House, now Abbey manor. This site should be properly assessed as part of the proposed Blue and Green infrastructure policy. Public consultation with the people of West Kirby is vital as part of this.						
1246402	LPIO-6479	no							
1242751	LPIO-648	yes	Give all the present greenbelt the same protection.						
1241096	LPIO-6731	yes	The school playing field, between St. Bridget's churchyard and the Old Rectory, and owned by the council, should be included in Appendix 8.1 (Open Space sites to be protected). I do not understand why it has been omitted from this list. If for some reason it can't be included, then it should be designated as Local Green Space and retained for the use of St. Bridget's school pupils, as well as activities organised through St. Bridget's church. It meets the criteria set out in Paragraph 100 of the NPPF: it is close to the community it serves, and is not an extensive tract of land. It is part of West Kirby Old Village Conservation Area and contributes to the semi-rural setting of the Grade 2 listed building of St. Bridget's Church and the War memorial. As well as its historical importance - the land is originally glebe land - the field has been vital to the school in giving pupils the opportunity to do outdoor sports when the rest of the school site is very bounded by residential properties. The field is used by the church, school and other local community groups for recreational activities, such as fairs and acts as the 'village green' for West Kirby. Therefore this site meets the criteria for designation as Local Green Space.	<a href="https://wirral-consult.objective.co.uk/file/5656862">https://wirral-consult.objective.co.uk/file/5656862</a>	<a href="https://wirral-consult.objective.co.uk/file/5661944">https://wirral-consult.objective.co.uk/file/5661944</a>				
1241661	LPIO-6838	yes	There are many sites in Birkenhead that should be considered as 'Local Green Space'. Examples include: The landscaped area beside Birkenhead Central Library The tree lined avenue on Balls Road East between Borough Road and Woodchurch Road. green space along Borough Road between Carlton Road and Glover Street Land opposite entrance to Whetstone Lane bordered by Church Road, Warrington Street, Pearson Road Green space on Church Road, Tranmere opposite the former Black Horse public house Triangle of land where Holt Hill meets Hinderton Road, Tranmere						
1241723	LPIO-6939	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. Examples include the landscaped area beside Birkenhead Central Library and the tree lined avenue on Balls Road East between Borough Road and Woodchurch Road. See attached for others in my ward of Birkenhead and Tranmere.	<a href="https://wirral-consult.objective.co.uk/file/5661964">https://wirral-consult.objective.co.uk/file/5661964</a>					
1245086	LPIO-6965	yes	There are many areas on the Wirral that should be considered as Local Green Space.						
1246482	LPIO-7057	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately.						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1245970	LPIO-7128	yes	St Bridgets playing field rectory rd. west kirby Important facility for young school children to engage in outdoor sports. Fields on grange rd west kirby. Area bounded by Carpenters lane on the west, grange rd. on the north, abbey rd on the east and townsend rd. on the south Farmnland as follows:- fields bounded by column rd to the north and east, caldy rd to the south and Stableton woods to the west. This area is primarily used for productive farming. Any housing dev. would be of premium, expensive homes (to uphold the high property prices of Caldly). This would be of little help to people with need of affordable housing and would be at the cost of food producing land which is vital to the country.						
1246488	LPIO-7290	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION						
1246348	LPIO-7359	yes	Probably plenty but this question, like others, is too complicated to answer.						
1246592	LPIO-7834	yes	All current green spaces should be protected						
1246556	LPIO-7922	yes	Site name: 3095 Greenfields Estate Location plan: Land off Grange Rd West Kirby Greenfields needs to be assessed on its own merits not as part of an amalgamated group of smaller areas. The existence of this land without development is intrinsic to the visual amenity of West Kirby which visitors see approaching from the south and east and contributes significantly to the aesthetic value of the area. It is part of the visual and cultural character of West Kirby and known locally as "the sheep fields". Furthermore, it is an intrinsic part of the corridor of green spaces which collectively serve to absorb carbon emissions and counter climate change. Owned by a local family for generations it is now the sole remaining site of ancient and untouched agricultural land in West Kirby as evidenced by the presence of many anthills which only exist on such land. The fields are therefore an oasis of undisturbed soil and pasture for biodiversity. We think that the following parts of the Wirral Local Plan 2020-35 are significant in arguing in favour of "Greenfields" being designated a Local Green Space as the council is required to observe the following in relation to the landscape – see below. Whilst we support the preferred approach, also outlined below, we object to this site being listed as a Proposed Urban Housing Allocation site for the reasons cited here. "8.53 Chapter 15 of the National Planning Policy Framework deals with conserving and enhancing the natural environment. Paragraph 170 states that "Planning policies and decisions should contribute to and enhance the natural and local environment by: a. protecting and enhancing valued landscapes, sites of biodiversity or geological value and soils (in a manner commensurate with their statutory status or identified quality in the development plan); b. recognising the intrinsic character and beauty of the countryside, and the wider benefits from natural capital and ecosystem services – including the economic and other benefits of the best and most versatile agricultural land, and of trees and woodland..."	<a href="https://wirral-consult.objective.co.uk/file/5656364">https://wirral-consult.objective.co.uk/file/5656364</a>					
1246594	LPIO-7960	no							
1240903	LPIO-8029	yes	Wirral existing green and open spaces need preservation. No more building on greenbelt or green spaces. Protect farmland and areas of beauty.						
1246596	LPIO-8087	yes	Heswall Dales/ Cleaver Heath, Telegraph road/ Thurstaston road triangle, Poll Hill reservoir, Feather Lane woods, The Puddydale, Whifield Common, Heswall Library bowling green, Hillhouse Gardens, Dawstone Park and War Memorial, The Beacons, Heswall Pinewoods North & South, Area by Heswall Catholic Church						
1246605	LPIO-8199	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION.						
1241770	LPIO-8354	yes	The triangular piece of green space alongside the Sainsbury's roundabout in Upton CH49. This piece of land contains several mature trees but also it provides a main pedestrian access and public right of way from the Woodchurch estate onto the main route into both Upton village and the Sainsbury's shopping area. Woodchurch residents also use this space to exercise their dogs. This piece of land is a vital green lung on an already congested area where traffic is gridlocked at peak times and air pollution levels high.						
1239410	LPIO-845	yes	Field at Monks Way, Bebington. I have attached a rough Google Map with red boundary outlining my suggestion. The site should be considered as it is evidently central to many terraced dwellings and nearby flats who's residents use the field. Local children use the field to play in the warmer months and we see children use the field in the winter to play too. The field is used by locals to stretch dogs legs. The site is home to three mature trees and one semi mature tree. The oak tree at the site is massive and is a cherished feature of the estate. It appears to be at least, over 100 years old and dominates the area. Species seen recently at the field include; bats, woodpeckers, mistle thrushes, hedgehogs, kestrels and buzzards, among the more commonly seen birds & mammals.	<a href="https://wirral-consult.objective.co.uk/file/5609297">https://wirral-consult.objective.co.uk/file/5609297</a>					

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1237882	LPIO-8467	yes	There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland. This question makes it impossible for many residents to answer accurately. PLEASE WITHDRAW THIS QUESTION.						
1240653	LPIO-8774	no							
1246637	LPIO-8903	yes	SHLAA site 0716 North of 90 to 92 Grange Road, and land east of Carpenter's Lane, West Kirby. The site is an important pastoral open space feature in an urban area and makes a major contribution to the character of West Kirby at a key gateway. Although the site is not publicly accessible the site provides a unique pastoral greenspace adjoining a key gateway into the town, close to the town centre. It adjoins a key pedestrian and vehicular access corridor and forms part of the panoramic gateway to and character of West Kirby. Views into the site are available both to pedestrians and vehicle users. See additional information and justification attached	<a href="https://wirral-consult.objective.co.uk/file/5656390">https://wirral-consult.objective.co.uk/file/5656390</a>					
1246202	LPIO-8911	yes	St Bridget's School field, St Bridget's Lane West Kirby. This provides an outdoor facility beneficial to the health and well-being of pupils at St Bridget's School. Being immediately adjacent the school, it can be safely accessed without crossing roads or vehicular transport, which would be environmentally unfriendly. It also is an integral part of the open space within the West Kirby Old Village, linking with the Glebe land on the other side of Rectory Road - refer to response to Q.8.9a						
1245034	LPIO-9200	yes	The Tower Grounds in New Brighton should be considered for designation as a Local Green Space. This is the area identified in the KKP study referenced in Appendix 8.1 as OS24 (KKP reference 459). With regard to the criteria set out in paragraph 100 of the national Planning Policy Framework, the Tower Grounds meets these as follows: a. The area is an integral part of the local community, with local housing occupying part of the old Tower Grounds site, and other housing directly adjacent to it. b. The area has great significance locally because of its association with New Brighton's history as a resort, and its links with groups such as the Beatles who performed at the Tower Ballroom. The Tower Grounds is now a peaceful local park oasis, enjoyed by the community, and hosting wildlife such as birds, butterflies and foxes. c. The Tower Grounds has a very local character, having being created from a site that was formerly occupied by New Brighton Tower its ballroom and fairground. It is not an extensive site (5.07 hectares), and is an integral part of the green space enjoyed in an urban area.						
1239377	LPIO-9214	yes	I wish to support the Greenfield Application for Local Green Space at land at Grange Road, West Kirby.	<a href="https://wirral-consult.objective.co.uk/file/5676779">https://wirral-consult.objective.co.uk/file/5676779</a>					
1246651	LPIO-9259	yes	There are many sites on Wirral that should be considered as Local Green Space examples include the landscaped area beside Birkenhead central library and the tree lined avenue on balls Road East between Borough Road and Woodchurch Road and the tree lined areas of Upton Road between the Sainsbury roundabout, Upton and the bridge over the M53 motorway before Bidston Hill.						
1245289	LPIO-9336	yes	Farmland as follows: between Heswall & Gills Lane and from Gills Lane to Crosshill Reservoir This area is principally used for farming and should continue to be so to help ensure consistent food supply for either the UK market or external markets as the UK exits the EU and starts to build new trading partners. In addition this farming use provides continuing employment for those involved. Furthermore any housing development in this area is likely to be at the more premium end and developers will probably find a way out of providing 30% affordable homes thereby negating its purpose						
1246678	LPIO-9390	no							
1241495	LPIO-9468	yes	Yes, I would like to propose SHLAA 3095 the Greenfield estate, West Kirby. This site is an important green space on the approach to West Kirby. It is part of the character and appeal of West Kirby. It is a quiet & tranquil area, currently used for livestock grazing, and should be retained as such. It is also a badger foraging area and forms part of an important wildlife corridor for badgers between Caldy Hill, Holm Hill, Grange Hill and the Royal Liverpool Golf Course.						

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1246711	LPIO-9574	yes	<p>The field on the south side of Rectory Road, which is used as a playing field by St Bridget's school should be included on the list of Open Space Sites to be Protected (Appendix 8.1). If this is not possible it should be considered as another case for designation as a Local Green Space.</p> <p>CASE FOR LISTING A LINKED BARN AND STABLES ON THE GLEBE LAND IN RECTORY ROAD, WEST KIRBY, WIRRAL, CH48 7HL RECTORY ROAD BUILDINGS GROUP VALUE</p> <ul style="list-style-type: none"> <li>The two buildings lie close to three Grade II listed buildings, St Bridget's church, West Kirby War Memorial and Nook Cottage, a late 17th century cottage of a similar age to the barn.</li> <li>They are also close to the Ring o' Bells and Manor Farm, which along with the barn and stables are classified in the Conservation Area Assessment as "buildings that are critical to the character of the area: typically landmark buildings and/or historic buildings with most of their original character retained".</li> </ul> <p>LOCATION AND HISTORICAL SETTING The two buildings suggested for listing consist of a linked barn and stables or shippon, situated in a small area of open paddock, lying opposite St Bridget's church in the West Kirby Old Village Conservation Area. The paddocks are former Glebe land, originally belonging to the Rectory of St Bridget's. St Bridget's church history and architectural heritage described in detail. It is a Grade II listed building.</p> <p>RECTORY ROAD BUILDINGS -ARCHITECTURAL VALUE The agricultural buildings under review, i.e. the barn and stables, are important as they are typical examples of local vernacular architecture, an increasingly rare resource in Wirral, older farm buildings having disappeared as the area becomes ever more urbanised and farming practices changed. Both are constructed from red sandstone and are currently roofed in Welsh slate. The Conservation Area Appraisal and Management Plan, prepared for Wirral Council in 2007, state that the two buildings contribute to the semi-rural character of this part of the conservation area and gives them an A rating appropriate to 'buildings that are critical to the character of the conservation area'. Typically these may be landmark buildings and/or historical buildings with most of their original character retained". (Appendix C of the Conservation Area Management Plan showing contribution of buildings to character of area) The Appraisal dates both buildings to the earlier 19th century. In this it is mistaken. The older of the two buildings, i.e. the one set back from the road, is significantly earlier. A terrier of 1663, while not explicitly recording a tithe barn, lists a ' barn of 5 bays' among the ancillary buildings linked to the Rectory (1663 Glebe terrier of West Kirby : CALS EDV8/94/1). A terrier of 1712 is more specific, listing a 'Tithe barn', again with '5 bays'. (1712 Glebe terrier of West Kirby: CALS EDV.8/94/13). The Tithe map of 1844 shows the building, though it is not specifically named as such in the Apportionment The plot to the west, No. 132, is recorded as 'Tithe Barn Croft'. Building</p> <ol style="list-style-type: none"> <li>The tithe barn. Detailed assessment of architectural heritage of the tithe barn provided in attachment. Plus interior photo Building</li> <li>The stable or shippon. Detailed assessment of architectural heritage of the tithe barn provided in attachment. Plus interior photograph. The stonework of the later building is similar in style to that of the surrounding sandstone boundary walls so it is possible that it was built at much the same time as the walls. The two buildings are linked by a section of old wall that looks as if it originally formed part of the north wall of the barn.</li> </ol> <ul style="list-style-type: none"> <li>In recent years the previous owner, who own the land and buildings, has not invested in the upkeep of the buildings or of the surrounding boundary walls.</li> <li>Local residents would like to raise funds to buy the land and barns and create a community asset which would protect and preserve the historic buildings for posterity.</li> </ul> <p>RECTORY ROAD BUILDINGS –HISTORIC INTEREST The two buildings put forward for listing afford a strong connection with the agricultural past of the area. In particular the barn is a reminder that until the passing of the Tithe Commutation Act, payment to the Rector of tithes was in kind and a barn was required for their storage. Further detailed information provided in attachment.</p> <p>RECTORY ROAD BUILDINGS –AESTHETIC INTEREST The two agricultural buildings are the centre point of the fields, open pasture and woods to the north of Rectory Road. This area of land is specifically mentioned in the Conservation Area Assessment (p. 19 and 20) which states that the green space and wooded areas add very considerably to the character of the area. The buildings have attracted artists and photographers and feature in a painting by Sharn Lyn Asbridge (Williamson Art Gallery) a copy is included in the supporting photographs.</p>	<a href="https://wirral-consult.objective.co.uk/file/5673318">https://wirral-consult.objective.co.uk/file/5673318</a>					

Person ID	ID	Question 8.10 - Are there any other sites which you think should be considered for designation as a Local Green Space?	Question 8.10a - Please upload a map with a proposed boundary marked on it or provide a clear description of the location of the site so that we can identify it and tell us how you think it meets the criteria set out in paragraph 100 of the National Planning Policy Framework:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1243448	LPIO-959	yes	If it is not already designated as local green space, then I think that a triangle of land in Greasby bounded by Greasby Road, Frankby Road and the Greasby health centre should be designated as such. It is an asset to the community and is used for community events. Also, green space and trees on the other side of Greasby Health Centre ( bounded by Greasby Road, Frankby Road and surrounding Greasby Library) should be designated as local green space.						
1244337	LPIO-968	yes	The area bordering our house was designated local green space when the house was built and described to us by the builders in 2001.The land has fell into dismanagement as Wirral Council did not adopt the land, as was originally intended. This land provides both valuable green space, flood plane and is a small tract of land that provides recreational benefit and beauty to the estate. Its fall into misuse has been because the land has been sold on and on and the Council have done the minimum to manage the state and earnest requests from the residents each year The land is of considerable benefit to the community and its adoption as Local Green Space will add to the beauty and tranquility of the estate.	<a href="https://wirral-consult.objective.co.uk/file/5611509">https://wirral-consult.objective.co.uk/file/5611509</a>					
1246693	LPIO-9897	yes	This is a vague question and there is a lack of definition. There are many sites on Wirral that should be considered as 'Local Green Space'. It is not clear if this is to include farmland/greenbelt etc						
1237724	LPIO-9900	no
