

Person ID	ID	Question 8.7 - Do you agree with on the Council's proposed approach to the provision of open space and sport and recreation facilities?	Question 8.7a - If you answered No, what what would you change and why? Do you have an alternative approach? If you answered Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1246763	LPIO-10391	no	The Wirral Borough Council Draft Open Space Standards Paper provides an up-to-date assessment of the condition, distribution and overall quality of existing open space in Wirral. It also considers the future need for new open space based upon population distribution, planned growth and public consultation. Upon review of this paper, Our Client have concerns that the distances suggested by the Council for open space provision are overly restrictive and may impact on the viability of the Site. Within the paper, there is a theme relating to the on-site provision, which the Site owners feel is too heavily emphasised as a necessity for sites within the centre of the Bromborough Eastham Urban Area. There is a concern that, should the proposed development be carried out and be subject to the proposed on-site standards within the paper, that this will vastly reduce the developable area of the Site. The scale of development proposed at Bromborough Wharf makes it a key site within the context of the Local Plan in contributing to the Council's future housing land supply and housing delivery targets , and also to prevent the widescale spread of development into the Green Belt. Our Client would urge the Council to reconsider a stringent open space and recreation facility standards policy in order to safeguard the deliverability of the Site.						
1246544	LPIO-10469	yes	Supplying and preserving green and open spaces should be high priority. Open space should include farmland, which must be protected						
1241337	LPIO-10584	yes							
1246724	LPIO-10585	yes	Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1246778	LPIO-10647	yes	Also protect st bridgets school, wets Kirby - playing field - this should be an open space to be protected.						
1246242	LPIO-10995		The Council need to ensure a supply of Green open spaces suitable for recreation, bearing in mind we also need to protect our existing agricultural farm land.						
1243890	LPIO-1141	yes							
1247281	LPIO-11527		I find the whole process of making a comment on the Local Plan totally incomprehensible. There is just information overload without any clear way of focusing on the area of interest. I visited Leasowe Millennium Centre today and was advised to look at sections 8.32, 8.43 and 8.44 and to submit my response on 8.7. I have been unable to find these sections. I wish to know why there appear to be no plans for up-to-date skiing facilities in Wirral (or indeed anywhere in Liverpool City Region). I have been negotiating with the Council on this issue for over 30 years now on behalf of local skiers. This was a top Priority in "North West Ski Federation January 1988: Policy on Permanent Facilities" published by The Sports Council (North West Region) and again in "Skiing: A Plan for the Development in the North West Region 1996-2000" published by the North West Ski Federation (the Regional arm of Snowsport England, the governing body of Snow-sports) with the assistance of The Sports Council (North West Region). The sport has moved on dramatically since the Oval ski slope was built and this is now totally inadequate for the needs of skiers on Merseyside. Whilst the main problem was identifying a suitable site, with modern ideas (see CopenHill recently opened in Copenhagen), there is scope for a facility within Wirral Waters, if Peel Holdings can be persuaded to take it on board.						
1247196	LPIO-11617		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1247359	LPIO-11650		Noctorum Field (OS140) is shown as a school playing field on the proposals map- site reference OS140. In relation to Noctorum Fields, Sport England's playing field policy exception E1 only allows for development of lapsed or disused playing fields if a PPS shows a clear excess in the quantity of playing pitch provision presently and in the future across all playing pitch sports types and sizes.						
1247363	LPIO-12131		Noctorum Field (OS140) is shown as a school playing field on the proposals map- site reference OS140. In relation to Noctorum Fields, Sport England's playing field policy exception E1 only allows for development of lapsed or disused playing fields if a PPS shows a clear excess in the quantity of playing pitch provision presently and in the future across all playing pitch sports types and sizes.						
1247364	LPIO-12132		Noctorum Field (OS140) is shown as a school playing field on the proposals map- site reference OS140. In relation to Noctorum Fields, Sport England's playing field policy exception E1 only allows for development of lapsed or disused playing fields if a PPS shows a clear excess in the quantity of playing pitch provision presently and in the future across all playing pitch sports types and sizes.						
1247365	LPIO-12133		Noctorum Field (OS140) is shown as a school playing field on the proposals map- site reference OS140. In relation to Noctorum Fields, Sport England's playing field policy exception E1 only allows for development of lapsed or disused playing fields if a PPS shows a clear excess in the quantity of playing pitch provision presently and in the future across all playing pitch sports types and sizes.						
1247366	LPIO-12134		Noctorum Field (OS140) is shown as a school playing field on the proposals map- site reference OS140. In relation to Noctorum Fields, Sport England's playing field policy exception E1 only allows for development of lapsed or disused playing fields if a PPS shows a clear excess in the quantity of playing pitch provision presently and in the future across all playing pitch sports types and sizes.						
1247369	LPIO-12135		Noctorum Field (OS140) is shown as a school playing field on the proposals map- site reference OS140. In relation to Noctorum Fields, Sport England's playing field policy exception E1 only allows for development of lapsed or disused playing fields if a PPS shows a clear excess in the quantity of playing pitch provision presently and in the future across all playing pitch sports types and sizes.

1247354	LPIO-16604		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1247434	LPIO-16702		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1244969	LPIO-1678	yes							
1247436	LPIO-16812		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1247935	LPIO-16873		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1247437	LPIO-17000		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1247439	LPIO-17001		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1247441	LPIO-17108		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1247960	LPIO-17229		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1247962	LPIO-17318		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1247965	LPIO-17351		<p>Open Space, Sport and Recreation. NF is shown as a school playing field on the proposals map- site reference OS140. In relation to NF, Sport England's playing field policy exception E1 only allows for development of lapsed or disused playing fields if a PPS shows a clear excess in the quantity of playing pitch provision presently and in the future across all playing pitch sports types and sizes. The Spatial Portrait 2020 for settlement area 3, including NF, states that the approach is:</p> <ul style="list-style-type: none"> <li>• Protecting and enhancing the limited supply of biodiversity, quality open space and playing fields.</li> <li>• Providing for the enhancement and protection of local heritage.</li> <li>• Preserving the attractiveness of high-quality residential areas along the Noctorum Ridge at Bidston, Noctorum, Claughton, and Oxton.</li> </ul> <p>NPPF guidance indicates that open spaces with recreational value should be protected from development, having regard to current levels of provision and local deficiencies. Wirral UDP Policy RE5 sets out general criteria for the protection of playing fields and Proposal RE6 identifies sites within the urban area that should be protected from development. The aim of Proposal RE6 is to prevent the continued loss of playing fields from within the urban area. NF is included in this need to protect. The Wirral Playing Pitch Strategy 2016 illustrates that NF has 4 non-community cricket pitches, and 1 rugby pitch, non-community, which is used to capacity by the school. The approach is to retain/protect. It also illustrates that there is a current shortage of 16 match sessions relating to rugby, with a future demand shortfall by 2025 of 18. The highest shortfall within the Borough. In relation to NF, the implication is clear; it is located in an area with a shortage of adequate playing pitch facilities, and the local and national policies applied require it to be protected from development.</p>						
1247966	LPIO-17427		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1247967	LPIO-17452		<p>Open Space, Sport and Recreation. NF is shown as a school playing field on the proposals map- site reference OS140. Person ID	ID	Question 8.7 - Do you agree with on the Council's proposed approach to the provision of open space and sport and recreation facilities?	Question 8.7a - If you answered No, what what would you change and why? Do you have an alternative approach? If you answered Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247974 (Sport England)	LPIO-17480		<p>The preferred approach - It is noted local standards for 'open space' have been referenced and that the Local Plan will provide updated standards. It is not clear whether outdoor sport is included in the generic open space and clarification is required. Local standards are not appropriate for outdoor sports because they do not and cannot take into account sports catchment areas or the variable units of demand for individual pitch/court types. For example, the unit of demand for a court/pitch ranges from two people if a tennis court to 30 people if a full sized adult rugby pitch. In addition the catchment area for sports ranges from Ward level if a junior football pitch to Borough wide if rugby or hockey. This means the accessibility standards cannot accurately reflect where the demand for outdoor sport is derived from. Quantitative standards are not appropriate because although it is widely acknowledged housing growth generates additional demand for sport not everyone from that housing site will want to participate in sport. In reality the application of standards has led to single pitch sites being constructed within housing developments that are unsupported by ancillary facilities and are not located in areas of demand. These pitches do not contribute to the supply of pitches and all too often become informal kick about areas or semi natural open space. A guidance note on the inappropriate use of standards for outdoor sport has been attached for your information. The Council has undertaken a Playing Pitch Strategy (PPS) 2016 and has a draft Built Sports Facilities Strategy (2019) which should be used as the evidence base to inform: • what the additional demand for sport will be from individual or cumulative housing sites, • which existing sites need to be improved to increase capacity to take the additional demand; and • what an appropriate developer contribution should be Sport England formed and continues to form part of the PPS Steering Group and has offered to work with the Council to identify what the additional demand from population and housing growth will be and what the impact on existing playing fields will be. That offer of assistance is reiterated here and please contact the undersigned for further information. It should also be noted that neither Sport England nor the pitch sport national governing bodies are aware of any monitoring and updating of the baseline data having been undertaken since 2016. Sport England considers a PPS to be out of date after 5 years unless monitoring and updates have been carried out within the last 3 years and agreed with the PPS Steering Group. As the baseline data was collected during the 2015/16 season the PPS will be considered out of date and no longer robust within the next year. It is strongly recommended the Council update the PPS to ensure the PPS continues to be robust and can accurately inform Local Plan policies. Through the PPS Sport England made a commitment to the Council to assist with the development of an appropriate process for determining how to establish what the additional demand for sport is and where and what type of pitches are required, using Sport England's Strategic Planning Tools. The start of that process was to produce Housing Growth scenarios in Part 7 of the PPS to estimate the additional demand generated by housing by sport and pitch type with capital and lifecycle costs. Recommendations: a) As Sport England do not consider the use of standards for outdoor sport or any sports facility is appropriate we would wish to see a separate Indoor/Outdoor Sport policy included within the Plan. Sport England would be happy to assist with the preparation of that policy. It should be noted Sport England does not object to the use of standards for other open typologies, only outdoor sport. b) Update the 2016 Playing Pitch Strategy within the next year to ensure it remains a robust evidence base to help inform emerging local plan policies.</p>	<a href="https://wirral-consult.objective.co.uk/file/5685067">https://wirral-consult.objective.co.uk/file/5685067</a>					
1247974 (Sport England)	LPIO-17482		<p>Sport England would wish to see the principles contained within the document 'Active Design' incorporated as an overarching principle throughout the Local Plan. We believe that being active should be an intrinsic part of everyone's daily life – and the design of where we live and work plays a vital role in keeping us active. Good design should contribute positively to making places better for people and create environments that make the active choice the easy choice for people and communities. That's why Sport England, in partnership with Public Health England, has produced the Active Design Guidance. This guidance builds on the original Active Design (2007) objectives of improving accessibility, enhancing amenity and increasing awareness, and sets out the Ten Principles of Active Design.</p> <p><a href="http://www.sportengland.org/facilities-planning/planning-for-sport/planning-tools-and-guidance/active-design/">http://www.sportengland.org/facilities-planning/planning-for-sport/planning-tools-and-guidance/active-design/</a> Ten principles The ten principles have been developed to inspire and inform the layout of cities, towns, villages, neighbourhoods, buildings, streets and open spaces, to promote sport and active lifestyles. The guide features an innovative set of guidelines to get more people moving through suitable design and layout. It includes a series of case studies setting out practical real-life examples of the principles in action to encourage planners, urban designers, developers and health professionals to create the right environment to help people get more active, more often. The Active Design Principles are aimed at contributing towards the Governments desire for the planning system to promote healthy communities through good urban design.</p>						
1247971	LPIO-17527		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1241726	LPIO-17627		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1247979	LPIO-17787		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1247980	LPIO-17788		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1245502	LPIO-17917		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1247541	LPIO-18022		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1247539	LPIO-18127		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						

Person ID	ID	Question 8.7 - Do you agree with on the Council's proposed approach to the provision of open space and sport and recreation facilities?	Question 8.7a - If you answered No, what what would you change and why? Do you have an alternative approach? If you answered Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247996	LPIO-18297		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1237857	LPIO-18345		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland. WBC underestimate the importance and economic value of the nature of the Wirral countryside. A lot of the usage of the Greenbelt is for gentle, under the radar, recreation, families taking walks, cyclists, dog walking etc. This is actually far more important and of higher value than competitive sport and is far more impacted by Greenbelt building.						
1246446	LPIO-18707		Playgrounds New Brighton tower grounds playground is a sad little affair with no signage to indicate its presence. This needs a major upgrade, with associated budget to ensure maintenance New Brighton frontage is now attracting much greater footfall because of the new shops. A big playground with innovative equipment as seen in London parks, near the existing miniature golf courses, or possibly using the site currently advertising foot golf, which is unused, would be very popular and attract more visitors.						
1245060	LPIO-1918	no	Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1246851	LPIO-21203		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1246918	LPIO-21424		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1246924	LPIO-21425		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1246928	LPIO-21426		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1246920	LPIO-21619		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1246926	LPIO-21620		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1245112	LPIO-2188	no							
1248150	LPIO-22476		Please green our urban areas making them a healthier and more pleasant place to live. Pocket parks, trees and flower beds, community gardening initiatives and allotments to be prioritised in areas where poverty is at its greatest such as Birkenhead, Seacombe, and Rock Ferry.						
1248151	LPIO-22688		Increase rather than reduce the amount of green outdoor spaces, especially in areas such as Seacombe. This will improve the well-being of residents						
1248151	LPIO-22691		OS024 Ban development on existing popular, well used, and much loved open spaces, such as the Tower Grounds in New Brighton						
1238379	LPIO-2278		The council should make it a priority to provide green and open spaces as well as protecting Green belt land						
1242519	LPIO-2282	no	Council should put protection of greenbelt as top priority.						
1241770	LPIO-23650		Pocket parks need to be included in urban areas of high density, we all need access to green spaces.						
1248438	LPIO-23799		With regard to the provision of public open space within new developments, the delivery of on-site provision should be preferred. This will provide health and well-being benefits to residents, young and old and with it positively address social inclusion. This is true of high-density development in the urban conurbation. If these sites are unable to deliver the correct amount of on-site public open space, which should be tested through the plan-making process, then they should not be identified for development. A financial contribution to existing provision in the area will not necessarily result in a quantitative increase in public open space, which clearly an increase in population centred to East/North-West Wirral will require if the Council's preferred approach were pursued.	<a href="https://wirral-consult.objective.co.uk/file/5684850">https://wirral-consult.objective.co.uk/file/5684850</a>	<a href="https://wirral-consult.objective.co.uk/file/5657890">https://wirral-consult.objective.co.uk/file/5657890</a>				
1242185	LPIO-23946	yes	We are supportive of more open space and sport and recreation facilities, particularly in areas that are deficient. We recommend urban areas with a notable greenspace gap have new greenspace provided to promote the health and well-being of communities, and for biodiversity, and enhancement of ecosystems. More is required in terms of improved maintenance.						

Person ID	ID	Question 8.7 - Do you agree with on the Council's proposed approach to the provision of open space and sport and recreation facilities?	Question 8.7a - If you answered No, what what would you change and why? Do you have an alternative approach? If you answered Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1248487	LPIO-24085		<p>Whilst we support the Council's approach towards the identification of open space and sport and recreation facilities, it does not consider it to have appropriately appraised one of the sites [Ref. Noctorum Lane Playing Fields, OS140, Appendix 8.1] in the context of the Framework. The Framework sets out existing open space, sports and recreational buildings, including playing fields should not be built upon unless: An assessment has been undertaken which clearly demonstrates that the open space is surplus to requirement; or, The loss resulting from the proposed development would be replaced by equivalent or better provision in terms of quantity and quality in a suitable location. The wording of this Policy is reflective of Exception Test Four of Sports England's the Playing Fields Policy (August 2018). Exception Test Four states Sports England will oppose the grant of planning permission which will result in the loss of playing fields, unless: The area of playing field to be lost as a result of the proposed development will be replaced, prior to the commencement of development, by a new area of playing field: Of equivalent or better quality, and Of equivalent or greater quantity, and In a suitable location, and Subject to equivalent or better accessibility and management arrangements. The Site is not available for community use and is surplus to requirement for use from the School. The loss of the Site for residential purposes cannot be considered as impacting on the provision of playing pitches within the area on the premise that it is not available for use by the community. Notwithstanding this, to demonstrate that it is surplus to requirement in the context of the Framework we have sought to engage with cricket and rugby clubs within the local area to ascertain whether they would be interested in relocating their existing facilities to the Site. None of the cricket and rugby clubs within the local area were interested in relocating their facilities to the Site. The reasons for this are summarised below: There is capacity within their existing facilities to enable them to grow; The existing pitches do not meet national standards; and, The clubs are established in their present locations and are a known hub and focus for the local community. A relocation could prejudice their identify and culture which is better served at their existing locations. It is considered that this assessment clearly demonstrates that the Site is surplus to requirement both for use by the School and the cricket and rugby clubs within the local area. The second test of the Framework is whether the loss resulting from the proposed development would be replaced by equivalent or better provision in terms of quantity and quality in a suitable location. Financial contributions towards the improvement of facilities at Prenton RUFC and Old Parkonians RUFC, together with the replacement of grass match wickets at the McAllester Fields will ensure that the loss of sports pitches resulting from the proposed development is appropriately mitigated by providing qualitatively better sports facilities which will improve public participation in sport. This mitigation strategy has been accepted in principle by Sport England following preapplication discussions in December 2019. It has been clearly demonstrated that the Site is surplus to requirement, and that its loss as a result of the proposals would be replaced by equivalent and better provision in a more suitable location. Its redevelopment for residential purposes therefore satisfies the tests set out in the Framework. We therefore respectfully request that the Site's proposed designation for proposed 'Playing Pitch' is removed, and that it is allocated for residential development.</p>	<a href="https://wirral-consult.objective.co.uk/file/5656330">https://wirral-consult.objective.co.uk/file/5656330</a>	<a href="https://wirral-consult.objective.co.uk/file/5656329">https://wirral-consult.objective.co.uk/file/5656329</a>				
1248152	LPIO-24095		<p>It cannot be sensible to allow landowners and developers, who seek easy short-term financial gains, to develop irrespective of invaluable Green Belt, Green Spaces, Sports Facilities and other site classifications. If more attention was paid to the loss of existing open spaces then flooded properties would, by and large, be avoided.</p>						
1248496 (United Utilities)	LPIO-24218		<p>Opportunities should be provided for the use of genuine, above ground sustainable drainage systems (SuDS). We would advise a link with the policy for green/blue infrastructure and clearly define the relationship with open space and any requirements. One example is to use the Local Plan to define proposed informal open space and the relationship to SuDS provision/green infrastructure requirements. Defining the relationship between open space and green infrastructure will provide future applicants with a clarity on expectations from going forward. It will also provide the greater ability to influence the relationship between green/blue infrastructure and open space as applications are being determined. This should be discussed with the Lead Local Flood Authority (LLFA).</p>	<a href="https://wirral-consult.objective.co.uk/file/5684806">https://wirral-consult.objective.co.uk/file/5684806</a>					
1247798	LPIO-24266		<p>With regard to the provision of public open space within new developments, the delivery of on-site provision should be preferred. This will provide health and well-being benefits to residents, young and old and with it positively address social inclusion. This is true of high-density development in the urban conurbation. If these sites are unable to deliver the correct amount of on-site public open space, which should be tested through the plan-making process, then they should not be identified for development. A financial contribution to existing provision in the area will not necessarily result in a quantitative increase in public open space, which clearly an increase in population centred to East/North-West Wirral will require if the Council's preferred approach were pursued.</p>	<a href="https://wirral-consult.objective.co.uk/file/5684846">https://wirral-consult.objective.co.uk/file/5684846</a>

1248536	LPIO-24342		<p>Future planning for the club Below is a photo of Oxton Fields (found to the right of OS058) and below The Arno. The location which is behind Sainsbury's supermarket and some allotments is a large piece of land which as highlighted on the plan below are designated as playing fields. As mentioned previously, Glenavon Juniors have an increasing demand and would like to obtain this piece of land for the football club. This location is local to the club and the only real location available in the Prenton / Oxton area in which the club can expand into, as previous property off Glenavon Road was redeveloped for housing in which the club saw no financial benefit. If the club were able to secure a long term lease of these playing fields we believe we would be able to bring so much more to the Prenton and Oxton Wards, by developing a social hub for the boys, girls and families in and around this area. If we were to secure this land, we would continue to update the toilet and changing facilities on both The Solly and The Glen, however, would look to make Oxton Fields the club's central location and building a clubhouse at this location. Parking in this area is not a problem as the is some parking to the side of Rightway, and plenty of parking around the Storeton Road area. With this location being central to most of the club's players, a lot would also be able to walk to this location and enjoy the games and facilities offered it a clubhouse was to be built at this location. Above shows two pictures of Oxton Fields. One of the shots show one goal post, however, this is the only sign of this land being used for any sort of sport. With OS058 next to Oxton Fields, there is still plenty of land for locals to use for walking their dogs, and other recreational activities. If Glenavon Juniors were able to secure a long-term lease of this land, we would plan to make this area a more attractive location for the local youth and their families to attend. We would plan to build if funding was granted, a 4G pitch at this location, and offer more services such as disability activities, walking football and other such activities for not only our club member but for the whole community.</p> <p><b>Proposals:</b></p> <ul style="list-style-type: none"> <li>• Obtain long-term lease for The Glen playing fields</li> <li>• Obtain planning permission and grant funding / support to building basic toilet facilities on both The Solly and The Glen.</li> <li>• Obtain long-term lease for Oxton Fields – This would enable to club to expand and offer its players, families and the local community a central hub offering a variety of activities on top of the football.</li> </ul>	<a href="https://wirral-consult.objective.co.uk/file/5658625">https://wirral-consult.objective.co.uk/file/5658625</a>					
1244826	LPIO-2471	yes	The council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1248749	LPIO-24902		Agree with safeguarding existing open space and recreation allocations but note the serious under provision of open space/ recreation facilities in and around Wirral Waters and in the eastern and southern parts of Birkenhead, which identifies a lack of amenities and facilities within the Commercial Core where a large proportion of the housing allocations are being located. The lack of open space or recreation opportunities in the Commercial Core and surrounding areas should raise questions over the health and social implications that come with developing in highly urban locations. The requirement for new open space is not in line with the high-density developments that the Council are proposing in these locations. We would therefore want to see a greater assessment of the implications that come from the requirement for more open space in urban areas to support the new residential developments, as we feel this will further impact the proposed housing numbers and trajectory.	<a href="https://wirral-consult.objective.co.uk/file/5684847">https://wirral-consult.objective.co.uk/file/5684847</a>	<a href="https://wirral-consult.objective.co.uk/file/5684848">https://wirral-consult.objective.co.uk/file/5684848</a>	<a href="https://wirral-consult.objective.co.uk/file/5684845">https://wirral-consult.objective.co.uk/file/5684845</a>

Person ID	ID	Question 8.7 - Do you agree with on the Council's proposed approach to the provision of open space and sport and recreation facilities?	Question 8.7a - If you answered No, what what would you change and why? Do you have an alternative approach? If you answered Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1249116	LPIO-26045		We do not have any specific views on the Council's proposed approach to the provision of open space and sport and recreation facilities at this stage but would not support any policy requirement which would render developments unviable or undeliverable and reserve the right to comment when further detail is released at a later stage of the process.	<a href="https://wirral-consult.objective.co.uk/file/5684802">https://wirral-consult.objective.co.uk/file/5684802</a>	<a href="https://wirral-consult.objective.co.uk/file/5684835">https://wirral-consult.objective.co.uk/file/5684835</a>	<a href="https://wirral-consult.objective.co.uk/file/5677041">https://wirral-consult.objective.co.uk/file/5677041</a>	<a href="https://wirral-consult.objective.co.uk/file/5677037">https://wirral-consult.objective.co.uk/file/5677037</a>	<a href="https://wirral-consult.objective.co.uk/file/5684804">https://wirral-consult.objective.co.uk/file/5684804</a>	
1237870	LPIO-2606	yes	We need open spaces. The Council MUST make provision for the PROTECTION of existing open space and in particular AGRICULTURAL						
1249116	LPIO-26079		We do not have any specific views on the Council's proposed approach to the provision of open space and sport and recreation facilities at this stage but would not support any policy requirement which would render developments unviable or undeliverable and reserve the right to comment when further detail is released at a later stage of the process.	<a href="https://wirral-consult.objective.co.uk/file/5674240">https://wirral-consult.objective.co.uk/file/5674240</a>	<a href="https://wirral-consult.objective.co.uk/file/5684832">https://wirral-consult.objective.co.uk/file/5684832</a>	<a href="https://wirral-consult.objective.co.uk/file/5674256">https://wirral-consult.objective.co.uk/file/5674256</a>	<a href="https://wirral-consult.objective.co.uk/file/5684834">https://wirral-consult.objective.co.uk/file/5684834</a>	<a href="https://wirral-consult.objective.co.uk/file/5684837">https://wirral-consult.objective.co.uk/file/5684837</a>	
1249219	LPIO-26486		To be completed.	<a href="https://wirral-consult.objective.co.uk/file/5677529">https://wirral-consult.objective.co.uk/file/5677529</a>	<a href="https://wirral-consult.objective.co.uk/file/5677528">https://wirral-consult.objective.co.uk/file/5677528</a>				
1240932	LPIO-26631		Yes, we broadly support the Council's ambitions to protect and enhance open space, sport and recreation provision across the Borough but observe that the Issues and Options document focusses mainly upon urban parks, playing pitches and playing fields, play areas, allotments and open spaces in urban areas. Our attached Vision Document encompasses enhancing public access to our land and recognises the benefits that providing access to the countryside by foot or cycle can bring to positively impact health and mental wellbeing of Wirral residents. This is an extremely important matter which has unfortunately often been overlooked by policy and decision-makers, to the disbenefit of community health. As part of our comprehensive approach to development across our landholding we hope, amongst other things, to establish an off-road long distance cycle network within the residual Green Belt land along with new leisure trails which will provide valuable new accessible open space and recreation facilities for residents and visitors to the Borough.	<a href="https://wirral-consult.objective.co.uk/file/5683689">https://wirral-consult.objective.co.uk/file/5683689</a>	<a href="https://wirral-consult.objective.co.uk/file/5682697">https://wirral-consult.objective.co.uk/file/5682697</a>	<a href="https://wirral-consult.objective.co.uk/file/5682701">https://wirral-consult.objective.co.uk/file/5682701</a>			
1248223	LPIO-26712		Noctorum Field (OS140) is shown as a school playing field on the proposals map- site reference OS140. In relation to Noctorum Fields, Sport England's playing field policy exception E1 only allows for development of lapsed or disused playing fields if a PPS shows a clear excess in the quantity of playing pitch provision presently and in the future across all playing pitch sports types and sizes.						
1248224	LPIO-26713		Noctorum Field (OS140) is shown as a school playing field on the proposals map- site reference OS140. In relation to Noctorum Fields, Sport England's playing field policy exception E1 only allows for development of lapsed or disused playing fields if a PPS shows a clear excess in the quantity of playing pitch provision presently and in the future across all playing pitch sports types and sizes.						
1248226	LPIO-26738		Noctorum Field (OS140) is shown as a school playing field on the proposals map- site reference OS140. In relation to Noctorum Fields, Sport England's playing field policy exception E1 only allows for development of lapsed or disused playing fields if a PPS shows a clear excess in the quantity of playing pitch provision presently and in the future across all playing pitch sports types and sizes.						
1245180	LPIO-2772	yes	Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1245100	LPIO-2802	no	WBC should make it a priority to supply green and open spaces. BUT it should also protect ALL farmland						
1248546 (Wirral Wildlife)	LPIO-2882	yes	Wirral Wildlife support the Council's approach, but add: Every effort must be made to secure new quality open space, including naturalistic places, as these provide greater benefits to people's physical and mental health. This will require good design in new developments. This needs to be combined with layouts maximising solar gain, and sustainable drainage provision. Poor quality layouts that do not consider these matters will no longer be acceptable. Such greenspace can be multi-purpose if carefully designed and appropriately managed. Planning conditions and legal agreements must ensure proper construction, planting and maintenance of greenspace for the life of the development. Conditions and agreements must be monitored and enforced.						
1245159	LPIO-3079	yes	St Bridget's School field in West Kirby should be given specific protection as a playing field and a green space, the Stables Field in Rectory Road should be protected from development and designated as Local Green Space for community use. Also all Ashton Park should be designated Local Green Space as part of it is in private ownership and leased by Wirral Council from the Diocese of Chester.						
1238645	LPIO-3189	yes	All open spaces should be protected, and more developed if possible. As Wirral is not that big then a small number of high quality sports / recreation facilities should be provided for football / hockey / tennis etc.						
1241315	LPIO-3314	no	Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1238835	LPIO-3451	yes	Both the quality and quantity of football pitches and facilities have been long overdue for upgrade and improvement. There seems to be a reasonable number of pitches available for use, but they seem to be under utilised. The same is apparent with Rugby pitches, but we need to encourage more people to play the sport. Council, and their partners should embark on a programme of encouraging more people playing team sports. Council should maintain and expand such open and green spaces in order to maximise the health and well-being benefits for residents. Council should also embark on a programme to protect all agricultural land, in order to meet Government policy of increasing food output by at least 20% by 2050.						
1237944	LPIO-3455	yes							
1245451	LPIO-3587	no	In general, yes we agree. St Bridget's School field in West Kirby should be given specific protection as a playing field and a green space, the Stables Field in Rectory Road should be protected from development and designated as Local Green Space for community use. Also all Ashton Park should be designated Local Green Space as part of it is in private ownership and leased by Wirral Council from the Diocese of Chester.						

Person ID	ID	Question 8.7 - Do you agree with on the Council's proposed approach to the provision of open space and sport and recreation facilities?	Question 8.7a - If you answered No, what what would you change and why? Do you have an alternative approach? If you answered Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1245462	LPIO-3641	no	St Bridget's School field in West Kirby should be given specific protection as a playing field and a green space, the Stables Field in Rectory Road should be protected from development and designated as Local Green Space for community use. Also all Ashton Park should be designated Local Green Space as part of it is in private ownership and leased by Wirral Council from the Diocese of Chester.						
1237827	LPIO-3826	no							
1245288	LPIO-3895	yes							
1245498	LPIO-3980	no							
1240939	LPIO-4175	yes							
1245346	LPIO-4248	yes	Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1245638	LPIO-4311	yes	The Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1244720	LPIO-4745	no	All playing fields and pitches should be protected bar none. Even when a school has been closed down, their playing field needs to remain. We have a diminution in children and young people having access to playing areas. WBC can and should protect their health by protecting our provision of playing pitches, whether they are privately owned or not.						
1244629	LPIO-4798	yes	Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1243171	LPIO-4980	yes	WFPOSPS support your conclusions in paragraph 8.46						
1237923	LPIO-5093		it should be a priority to supply green and open spaces and it should protect all agricultural farmland						
1245713	LPIO-5122	yes	Council should make it a priority to preserve and supply green and open spaces						
1245501	LPIO-5153	yes	The method used to calculate green spaces, opens paces, blue areas is perhaps incorrect as by default the coastline of the Wirral has been included. These areas are not necessarily 'intentional' open spaces, as lets be honest, apart from a pier or beach huts there isn't much that could be built upon them anyway. I would expect that if you remove the coastal areas from the total calculation, it would show that there is much less available green and blue area, which, in order to provide the necessary amount of green/blue space per resident, none of the current green space, green belt, open natural areas should be considered for future development.						
1245496	LPIO-5242	yes	The council should make it a priority to supply preserve and increase the number of green and open spaces. There should be no building on agricultural or farmland for housing and other development.						
1246006	LPIO-5351		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1240383	LPIO-5451	yes	Open spaces, sport and recreational facilities should be easily accessible and well maintained for all Wirral Residents						
1245984	LPIO-5766		Section 8.34 states "existing open space, sports and recreational buildings and land, including playing fields, should not be built on unless: a) an assessment has been undertaken which has clearly shown the open space, buildings or land to be surplus to requirements". The phrase surplus to requirements is very broad and does not specify what criteria would be used. In any case where land is thought to be surplus to requirements it should be used as green space as we need to increase the stock of green space within the Borough. Section 8.35 (and 8.16) protects allotments but more allotments should be planned as growing food in a community reduces carbon emissions and is beneficial to health and well being. Section 8.41 We agree with requiring developers to provide green space on sites with over 35 dwellings however would suggest that those developers developing sites with less than 35 houses make a proportional contribution to providing other green spaces where housing density is high as the Council states "there are local deficiencies in certain types of open space within some locations, particularly within the old urban areas". Section 8.47 should stipulate that any new indoor leisure facilities to replace old ones will not be built on greenbelt or green spaces but rather brownfield sites or in the existing location.						
1246310	LPIO-5972	yes	The council should make it a priority to supply green and open spaces.and to also protect ALL agricultural farmland!!!!						

Person ID	ID	Question 8.7 - Do you agree with on the Council's proposed approach to the provision of open space and sport and recreation facilities?	Question 8.7a - If you answered No, what what would you change and why? Do you have an alternative approach? If you answered Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1244896	LPIO-5989	yes	ITPAS supports WMBC's approach to provision of open space and sport/recreational facilities, but would add that every effort must be made to secure quality open space, including naturalistic places, as these provide greater benefits to people's physical and mental health. This will require good professional design within new developments and better management of current and new provision. Layouts need to maximise solar gain, provide a variety of landscaping (trees, open spaces) with both accessible and natural pathways, and include sustainable drainage. Poor quality layouts that do not consider these matters are not to be accepted. Design needs to recognise increased rainfall predictions. The Footpath Officer is a great asset but needs increased support to ensure public footpaths are accessible throughout more of the year. Greenspace can be multi-purpose if carefully designed and appropriately managed. Planning conditions and legal agreements must ensure proper construction, planting and maintenance to suit a range of leisure activities for the life of the development; and they must be monitored and enforced. Current performance must be improved. Assessment of current sporting facilities needs improving now and for the longer term. The example of Irby Park indicates deficiencies. The playing condition of the football pitches is not good, as described. For most of the Season the ground is too wet and soft for football and it hardly occurs. For much of the time, the whole Park is unsuitable even for walkers. Ground drainage is poor, aeration infrequent and ditch maintenance doesn't occur. As for the Pavilion being a reasonable facility, it was basic at best before being vandalised, burned down, demolished and grassed-over. The Council either needs to maintain facilities well or help set up and finance local groups to do their job for them.						
1238310	LPIO-6190	no	8.32 Chapter 8 of the National Planning Policy Framework deals with promoting healthy and safe communities and states (paragraph 92 refers) that "To provide the social, recreational and cultural facilities and services the community needs, planning policies and decisions should: a) plan positively for the provision and use of shared spaces, community facilities (such as local shops, meeting places, sports venues, open space, cultural buildings, public houses and places of worship) and other local services to enhance the sustainability of communities and residential environments...." The options and consultation document only provides details on proposed new housing sites. The plan contains no new provision for any of the buildings facilities or venues listed in 8.32 above. The plan provides no evidence of support for sustainability of communities or residential environments WBC should maintain all existing areas designated as areas of special landscape. WBC should protect the country setting of key tourism spots such as Thurstaston hill. WBC should adhere to the guidelines in the Landscape character and sensitivity reports. WBC should remove greenbelt options 2a and 2b. Greenbelt provides people a place of openness to walk the children, the dog, ride their bike, their horse, and to go for a jog. It provides great health and wellbeing benefits to all. These areas provide sport and recreation facilities without council maintenance costs. The greenbelt and its benefits are absolutely free to WBC. Do not give up this valuable asset of free recreational facilities.						
1246161	LPIO-6256	yes	WUTH is supportive of this approach and believes it should be a key priority of the local plan.						
1242751	LPIO-645	yes	Council should make it a priority to supply green and open spaces. To also protect ALL agricultural and accommodation farmland.						
1246402	LPIO-6477	yes	But also keep all green and open spaces						
1241723	LPIO-6938	yes	Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland which should be a priority for future provision of food in a climate changing world.						
1245086	LPIO-6962	yes	It is very important that all new developments include adequate open space provision and they are not built on green belt land. It is right that all Urban Greenspace & Allotments are protected - indeed all agricultural land should also be protected.						
1237647	LPIO-713	no							
1246488	LPIO-7284		Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1246348	LPIO-7356	no	The council have not shown a great deal of interest in the green belt. They did not put up any defense to protect the green belt at Storeton for starters and why are schools being allowed to sell off playing fields for houses? Talk and action going in different directions.						
1240932	LPIO-7631	yes	Yes, Our Client broadly supports the Council's ambitions to protect and enhance open space, sport and recreation provision across the Borough but observes that the Issues and Options document focusses mainly upon urban parks, playing pitches and playing fields, play areas, allotments and open spaces in urban areas. Our Vision Document encompasses enhancing public access to Our Client's land and recognises the benefits that providing access to the countryside by foot or cycle can bring to positively impact health and mental wellbeing of Wirral residents. As part of its comprehensive approach to development across the Estate outlined in the accompanying Vision Document, Our Client hopes to establish an off-road long distance cycle network within its residual Green Belt land along with new leisure trails which will provide valuable new accessible open space and recreation facilities for residents and visitors to the Borough.	<a href="https://wirral-consult.objective.co.uk/file/5683689">https://wirral-consult.objective.co.uk/file/5683689</a>	<a href="https://wirral-consult.objective.co.uk/file/5682697">https://wirral-consult.objective.co.uk/file/5682697</a>	<a href="https://wirral-consult.objective.co.uk/file/5682701">https://wirral-consult.objective.co.uk/file/5682701</a>			
1246592	LPIO-7826	yes	Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland						
1246594	LPIO-7955	no	Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1240903	LPIO-8019	yes	Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1246605	LPIO-8194	no	Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland						

Person ID	ID	Question 8.7 - Do you agree with on the Council's proposed approach to the provision of open space and sport and recreation facilities?	Question 8.7a - If you answered No, what what would you change and why? Do you have an alternative approach? If you answered Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1241770	LPIO-8323	yes	All current green recreational spaces must be maintained, particularly small pockets of green within high density urban areas. Open spaces must be maintained and biodiversity protected. Significant developments must include areas of communal open space and greenery.						
1246612	LPIO-8393	yes							
1244670	LPIO-8453		We need to maintain all open spaces, greenbelt, and farmland too						
1237882	LPIO-8464	yes	Council should make it a priority to supply green and open spaces. To also protect ALL agricultural farmland.						
1237832	LPIO-8624	yes	There is current over-provision of facilities for golf, a declining sport. Do not add to problem by developing a Hoylake Golf Resort						
1240653	LPIO-8780	yes							
1246631	LPIO-8958	yes							
1246667	LPIO-9057	yes							
1245034	LPIO-9083	no							
1240872	LPIO-9158	yes	Some areas do not have sport and recreation close by, these areas need to have greater protection of the green areas that they do have. For example Spital has no recreation pitches or facilities. Greater protection of its surrounding greenspaces and greenbelt must be given to areas such as these						
1239377	LPIO-9205	yes							
1246651	LPIO-9254	yes	Council should make it an absolute priority to supply green and open spaces and who also protect ALL agricultural farmland.						
1246678	LPIO-9387	no							
1241495	LPIO-9462	yes	I would support this approach. We need good quality easily accessible open spaces. It is widely accepted that they are beneficial to people's physical and mental well being. It is important that funding is available to maintain these spaces.						
1242382	LPIO-970	no	The plan to turn the large Hoylake Trinity Road/School Lane cemetery into playing fields should be cancelled. Many local residents have family/friends buried there but there has been no consultation about it at all. What are the plans for the buried bodies there? Where will they go? Where will the bodies be re-buried? How will the bodies be moved? Shouldn't families be informed? Will there be health risks to local residents? Additionally, this is a peaceful, reflective area in the centre of old Hoylake. Creating playing fields will be a pre-cursor to more house building.						
1237807	LPIO-9702	yes	But if there is a shortage of rugby pitches why was permission given to build 22 houses on a rugby pitch in Eastham Conservation Area and in the green belt? Can the council be trusted to comply with the terms of its own policies?						
1242554	LPIO-9730	yes							
1246693	LPIO-9882	no	I have answered no because I feel like the policy is about to be decimated through release of green belt. The council should make it a priority to supply substantial green and open spaces which are local to people. It is all too common for housing developers tpo get their plans through and include a pathetic small paved play area should. All greenbelt and agricultural land should be protected from development. All green and open spances should be protected and retained for the mental and physical health of the local communities.
