

Person ID	ID	Question 8.8 - Do you agree with the list of open spaces identified for protection from development set out in Appendix 8.1 and the boundaries shown on the Council's website?	Question 8.8a - If you answered No, what what would you change and why? (please give KKP Study reference) If you answered Yes, you can comment here.	Question 8.8b - If you have any comments on the boundaries of these sites as shown on the Council's web site please describe the changes you would like to be made. (please give KKP Study reference) Ideally please upload a sketch plan.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1242185	LPIO-23947			We support the list of spaces identified and encourage groups to comment separately on local open space to limit the length of this group submission. It is noted that the report has some errors. The information on Irby Park is not up-to-date - the Pavilion is not adequate as it was burned down, and cleared. The playing surface and surrounds of the football pitches are not fit for purpose, as they are unusable for most of the season.	<a href="https://wirral-consult.objective.co.uk/file/5659121">https://wirral-consult.objective.co.uk/file/5659121</a>	<a href="https://wirral-consult.objective.co.uk/file/5684263">https://wirral-consult.objective.co.uk/file/5684263</a>	<a href="https://wirral-consult.objective.co.uk/file/5657006">https://wirral-consult.objective.co.uk/file/5657006</a>			
1238612	LPIO-13242		The last plans I view showed a Brownfield site formally known as Bluewood Drive (OS073). It once had over a hundred ex council house but had been demolished and on that plan you were going to build 26 new houses. I asked the planning officers if they were maximising the brownfield sites you were now only building a quarter of the original houses. I was passed from one officer to another none could answers me but faithfully promised they would get back to me. Their email must have got lost in the vast internet. These latest plans showed how much my concern about Bluewood Drive had been taken. They should that they were fully maximising the brownfield sites by building no houses on Bluewood but it was to become a green site. Strange there are two huge parks , Bidston hill with its urban farm, a boating lake and a large green space all within walking distance.	The last plans I view showed a Brownfield site formally known as Bluewood Drive (OS073). It once had over a hundred ex council house but had been demolished and on that plan you were going to build 26 new houses. I asked the planning officers if they were maximising the brownfield sites you were now only building a quarter of the original houses. I was passed from one officer to another none could answers me but faithfully promised they would get back to me. Their email must have got lost in the vast internet. These latest plans showed how much my concern about Bluewood Drive had been taken. They should that they were fully maximising the brownfield sites by building no houses on Bluewood but it was to become a green site. Strange there are two huge parks , Bidston hill with its urban farm, a boating lake and a large green space all within walking distance.						
1241176	LPIO-1167	no	On behalf of Ditton Lane Nature Area community group I would like to suggest extending OS 238 (Ditton Lane Nature Area) in north east direction to include the corner between Ditton Lane, a house called the Beeches and Cheltenham Crescent (number 23 to 33 , the so called "Bat block" on the attached map) and in west direction to cover the whole area between Birket, Pasture Road and Ditton Lane. These are very important parts of the nature area with lots of protected wildlife. The whole Ditton Lane Nature area (see the map attached) is very important from biodiversity point of view. It is rich of many protected species and is currently a subject of an application from Wirral Wildlife to designate it as a protected Local Wildlife Site which our organisation Ditton Lane Nature area community group fully supports (within the boundaries of the attached map).	See my comments in 8.8b	<a href="https://wirral-consult.objective.co.uk/file/5900153">https://wirral-consult.objective.co.uk/file/5900153</a>					
1241176	LPIO-1164	no	It would suggest extending open area OS 237 ( Epsom Road Play Area ) in north west direction to include the green area surrounded by Cheltenham Crescent to the south and Epsom Road to the east ( marked with a blue arrow on the attached map). It is a nice local green area and a favourable spot to play on for the local children from the whole Epsom Road Estate. I would also suggest extending open area OS239 ( Birket Walkway Leasowe ) in north direction to include the whole high risk flood plain ( marked with a red arrow on the attached maps).This area is of very high risk of flooding and is clearly not suitable for any residential development so better designate it as open space. I would also like to suggest extending open area OS238 (Ditton Lane Nature Area ) in north east direction to include the corner between Ditton Lane , a house called The Beeches and Cheltenham Crescent ( number 23 to 33 ) and in west direction to include the whole area between Birket, Pasture road and Ditton Lane. These are very important area from biodiversity point of view rich of endangered species and is a subject of an application to protect it as a Local Wildlife site from Wirral Wildlife which I fully support ( I am going to attach the map in a separate comment on behalf of a local Wildlife protection organisation called Ditton Lane Nature area community group as the local plan feedback e-system does not allow more than one attachment ).	Please see my comments in question 8.8a	<a href="https://wirral-consult.objective.co.uk/file/5613068">https://wirral-consult.objective.co.uk/file/5613068</a>					
1245107	LPIO-24000			Land to rear of 41-52 Tabley Close, shown on the plan attached, should be designated for protection as open space	<a href="https://wirral-consult.objective.co.uk/file/5655898">https://wirral-consult.objective.co.uk/file/5655898</a>	<a href="https://wirral-consult.objective.co.uk/file/5655900">https://wirral-consult.objective.co.uk/file/5655900</a>	<a href="https://wirral-consult.objective.co.uk/file/5655903">https://wirral-consult.objective.co.uk/file/5655903</a>	<a href="https://wirral-consult.objective.co.uk/file/5655904">https://wirral-consult.objective.co.uk/file/5655904</a>	<a href="https://wirral-consult.objective.co.uk/file/5655905">https://wirral-consult.objective.co.uk/file/5655905</a>	<a href="https://wirral-consult.objective.co.uk/file/5655899">https://wirral-consult.objective.co.uk/file/5655899</a>

1247084	LPIO-19769		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247085	LPIO-19825		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247088	LPIO-19891		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247089	LPIO-19953		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247090	LPIO-20008		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247091	LPIO-20062		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247092	LPIO-20122		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247093	LPIO-20186		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247094	LPIO-20241		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247095	LPIO-20296		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247096	LPIO-20352		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247099	LPIO-20408		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							

Person ID	ID	Question 8.8 - Do you agree with the list of open spaces identified for protection from development set out in Appendix 8.1 and the boundaries shown on the Council's website?	Question 8.8a - If you answered No, what what would you change and why? (please give KKP Study reference) If you answered Yes, you can comment here.	Question 8.8b - If you have any comments on the boundaries of these sites as shown on the Council's web site please describe the changes you would like to be made. (please give KKP Study reference) Ideally please upload a sketch plan.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247101	LPIO-20462		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247108	LPIO-20537		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247102	LPIO-20538		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247106	LPIO-20657		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247105	LPIO-20658		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247109	LPIO-20732		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247110	LPIO-20819		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247111	LPIO-20820		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247112	LPIO-20952		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247113	LPIO-21006		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247115	LPIO-21062		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247116	LPIO-21116		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)

1247174	LPIO-23094		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247175	LPIO-23202		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247176	LPIO-23203		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247177	LPIO-23358		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247178	LPIO-23359		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1247179	LPIO-23360		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. These are: The Dales / Cleaver Heath Telegraph Rd / Thurstaston Road triangle Poll Hill reservoir Feather Lane Woods The Puddydale Whitfield Common Library / Bowling Green Hill House Gardens Dawstone Park (incl War memorial) The Beacons Heswall Pinewoods North Heswall Pinewoods South Area by Catholic Church (not currently classified as a green space)							
1249219	LPIO-26487		Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space. (see answer to question 8.10.		<a href="https://wirral-consult.objective.co.uk/file/5677529">https://wirral-consult.objective.co.uk/file/5677529</a>	<a href="https://wirral-consult.objective.co.uk/file/5677528">https://wirral-consult.objective.co.uk/file/5677528</a>				
1243721	LPIO-2617	yes	Yes, we agree with areas identified in Heswall and their protection. However, a number of these should become designated as Local Green Space.							
1245086	LPIO-6963	yes	Yes, I agree with protecting all these open spaces.							
1247935	LPIO-16878	yes	Yes I agree with this protection.							
1237857	LPIO-18346	yes	Yes I agree with this protection.							
1245060	LPIO-1920	yes	Yes I agree with this protection.							
1241315	LPIO-3315	yes	Yes I agree with this protection.							
1245638	LPIO-4313	yes	Yes I agree with this protection.							
1244629	LPIO-4799	yes	Yes I agree with this protection.							
1245496	LPIO-5243	yes	Yes i agree with this protection.							
1246594	LPIO-7956	yes	Yes I agree with this protection.							
1246605	LPIO-8195	yes	Yes I agree with this protection.							
1246310	LPIO-5973	yes	Yes I agree with this protection!!!!							
1240903	LPIO-8021	yes	Yes but go further and prevent further destruction of trees, green open spaces.							
1243171	LPIO-4982	yes	Yes as a minimum, but other open spaces should be able to be added where appropriate, in the same way as lost ways can be added to a definitive map.							

Person ID	ID	Question 8.8 - Do you agree with the list of open spaces identified for protection from development set out in Appendix 8.1 and the boundaries shown on the Council's website?	Question 8.8a - If you answered No, what what would you change and why? (please give KKP Study reference) If you answered Yes, you can comment here.	Question 8.8b - If you have any comments on the boundaries of these sites as shown on the Council's web site please describe the changes you would like to be made. (please give KKP Study reference) Ideally please upload a sketch plan.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1248546 (Wirral Wildlife)	LPIO-2883	no	Wirral Wildlife support the open spaces as designated, and are pleased to see that privately-owned spaces have been included, such as New Ferry Butterfly Park and Port Sunlight River Park. We wish to add: Ditton Lane, Moreton. The Nature Area itself is designated open space, except for the north-east corner, which for some reason is omitted. Bat roosts were found in this corner in summer 2019. This corner should be open space. The fields west of the Nature Area, designated as washlands for flood storage in the UDP, are coloured as "primarily residential" when they should be open space and flood storage. This whole area is a proposed Local Wildlife Site, which designation should be in progress by the time this consultation finishes – it has been held up by lack of Council officer time. Several other proposed LWS amendments and new areas are in progress, limited by officer and volunteer time, but they are in existing areas of open space, or Green Belt outside current building proposals. Future versions of this map must check that the most up to date boundaries of LWS and proposed LWS are used.							
1248487	LPIO-24086		We do not support the designation of the Site [Ref. Noctorum Lane Playing Fields OS140 Appendix 8.1] as a proposed 'Playing Pitch' and protected from development. The Site is no longer in significant or regular use by the School. We are pursuing outline planning permission for residential development, and actively promoting it through the Local Plan as a residential allocation. This has been subject to significant and extensive public consultation in February and March 2020. We are reviewing the responses to understand the principal issues raised by the community, and how these can be addressed whilst balancing its financial commitment to invest in existing community sports facilities, as well as its own sport facilities and education system. Should planning permission be granted, the Site has the potential to come forward in the first five years of the plan period, contributing up to 33 dwellings to the Council's housing land supply position, and assist in meeting the immediate need for four and five bedroom family housing. The delivery of this site for housing accords with the Council's strategy which is to identify sufficient supply of land within the urban area before considering the release of Green Belt land. The receipt of outline planning permission for residential development, and its allocation for housing in the emerging Local Plan will ensure that the School achieves maximum value from the Site, which is a requirement on the basis that it is a charity. The redevelopment of the Site for residential purposes has been appropriately considered in the context of the Framework, and a robust mitigation strategy devised to ensure that the loss of the sports pitches can be offset and that better provision is delivered in a more suitable location, which has been endorsed by the RFU and Sport England. Further details are included within our attachment but include the creation of a new floodlit, natural, turf pitch at Prenton RUFC; the main pitch at Old Parkonians RUFC to be fully drained and floodlit; and the relocation of four cricket wickets onto the schools existing McAllester Fields. On the premise that the Site is minimally used by the School, and that appropriate mitigation is proposed to compensate the loss of the playing pitches (which has been validated by Sport England), we respectfully request that the Site's designation for a proposed 'Playing Pitches' is removed, in favour of an allocation for residential development.		<a href="https://wirral-consult.objective.co.uk/file/5656330">https://wirral-consult.objective.co.uk/file/5656330</a>	<a href="https://wirral-consult.objective.co.uk/file/5656329">https://wirral-consult.objective.co.uk/file/5656329</a>				
1245984	LPIO-5767	yes	we agree with this protection							
1238835	LPIO-3479	no	There is no mention of Brackenwood Golf Course nor Arrowe Park Golf Course on this list. Also, you made reference to Octel Sports and Social club to be protected and yet there are plans submitted to build houses on this land. I trust they will be							
1245451	LPIO-3588	no	The Stables Field at Rectory Road, West Kirby should be included as open space as should the St Bridget's School Field at West Kirby. The Diocese owned part of Ashton Park should be given special protection as a Local Green Space							
1245462	LPIO-3642	no	The Stables Field at Rectory Road, West Kirby should be included as open space as should the St Bridget's School Field at West Kirby. The Diocese owned part of Ashton Park should be given special protection as a Local Green Space							
1245159	LPIO-3081	no	The Stables Field at Rectory Road, West Kirby should be included as open space (Local Green Space) as should the St Bridget's School Field at West Kirby. The Diocese owned part of Ashton Park should be given special protection as a Local Green Space							
1247359	LPIO-11651		The Spatial Portrait 2020 for settlement area 3, including Noctorum Field, states that the approach is: <ul style="list-style-type: none"> <li>Protecting and enhancing the limited supply of biodiversity, quality open space and playing fields.</li> <li>Providing for the enhancement and protection of local heritage.</li> <li>Preserving the attractiveness of high-quality residential areas along the Noctorum Ridge at Bidston, Noctorum, Claughton and Oxton.</li> </ul> NPPF guidance indicates that open spaces with recreational value should be protected from development, having regard to current levels of provision and local deficiencies. Wirral UDP Policy RE5 sets out general criteria for the protection of playing fields and Proposal RE6 identifies sites within the urban area that should be protected from development. The aim of Proposal RE6 is to prevent the continued loss of playing fields from within the urban area. Noctorum Field is included in this need to protect. The Wirral Playing Pitch Strategy 2016 illustrates that Noctorum Field has 4 non-community cricket pitches, and 1 rugby pitch, non-community, which is used to capacity by the school. The approach is to retain/protect. It also illustrates that there is a current shortage of 16 match sessions relating to rugby, with a future demand shortfall by 2025 of 18. The highest shortfall within the Borough. In relation to Noctorum Field, the implication is clear; it is located in an area with a shortage of adequate playing pitch facilities, and the local and national policies applied require it to be protected from development.							

Person ID	ID	Question 8.8 - Do you agree with the list of open spaces identified for protection from development set out in Appendix 8.1 and the boundaries shown on the Council's website?	Question 8.8a - If you answered No, what what would you change and why? (please give KKP Study reference) If you answered Yes, you can comment here. Wirral UDP Policy RE5 sets out general criteria for the protection of playing fields and Proposal RE6 identifies sites within the urban area that should be protected from development. The aim of Proposal RE6 is to prevent the continued loss of playing fields from within the urban area. Noctorum Field is included in this need to protect. The Wirral Playing Pitch Strategy 2016 illustrates that Noctorum Field has 4 non-community cricket pitches, and 1 rugby pitch, non-community, which is used to capacity by the school. The approach is to retain/protect. It also illustrates that there is a current shortage of 16 match sessions relating to rugby, with a future demand shortfall by 2025 of 18. The highest shortfall within the Borough. In relation to Noctorum Field, the implication is clear; it is located in an area with a shortage of adequate playing pitch facilities, and the local and national policies applied require it to be protected from development.</p>							
1247381	LPIO-12177		<p>The Spatial Portrait 2020 for settlement area 3, including Noctorum Field, states that the approach is:</p> <ul style="list-style-type: none"> <li>• Protecting and enhancing the limited supply of biodiversity, quality open space and playing fields.</li> <li>• Providing for the enhancement and protection of local heritage.</li> <li>• Preserving the attractiveness of high-quality residential areas along the Noctorum Ridge at Bidston, Noctorum, Claughton and Oxton.</li> </ul> <p>NPPF guidance indicates that open spaces with recreational value should be protected from development, having regard to current levels of provision and local deficiencies. Wirral UDP Policy RE5 sets out general criteria for the protection of playing fields and Proposal RE6 identifies sites within the urban area that should be protected from development. The aim of Proposal RE6 is to prevent the continued loss of playing fields from within the urban area. Noctorum Field is included in this need to protect. The Wirral Playing Pitch Strategy 2016 illustrates that Noctorum Field has 4 non-community cricket pitches, and 1 rugby pitch, non-community, which is used to capacity by the school. The approach is to retain/protect. It also illustrates that there is a current shortage of 16 match sessions relating to rugby, with a future demand shortfall by 2025 of 18. The highest shortfall within the Borough. In relation to Noctorum Field, the implication is clear; it is located in an area with a shortage of adequate playing pitch facilities, and the local and national policies applied require it to be protected from development.</p>							

Person ID	ID	Question 8.8 - Do you agree with the list of open spaces identified for protection from development set out in Appendix 8.1 and the boundaries shown on the Council's website?	Question 8.8a - If you answered No, what what would you change and why? (please give KKP Study reference) If you answered Yes, you can comment here. The aim of Proposal RE6 is to prevent the continued loss of playing fields from within the urban area. Noctorum Field is included in this need to protect. The Wirral Playing Pitch Strategy 2016 illustrates that Noctorum Field has 4 non-community cricket pitches, and 1 rugby pitch, non-community, which is used to capacity by the school. The approach is to retain/protect. It also illustrates that there is a current shortage of 16 match sessions relating to rugby, with a future demand shortfall by 2025 of 18. The highest shortfall within the Borough. In relation to Noctorum Field, the implication is clear; it is located in an area with a shortage of adequate playing pitch facilities, and the local and national policies applied require it to be protected from development.</p>							
1237899	LPIO-27149		<p>The Spatial Portrait 2020 for settlement area 3, including Noctorum Field, states that the approach is:</p> <ul style="list-style-type: none"> <li>• Protecting and enhancing the limited supply of biodiversity, quality open space and playing fields.</li> <li>• Providing for the enhancement and protection of local heritage.</li> <li>• Preserving the attractiveness of high-quality residential areas along the Noctorum Ridge at Bidston, Noctorum, Claughton and Oxton.</li> </ul> <p>NPPF guidance indicates that open spaces with recreational value should be protected from development, having regard to current levels of provision and local deficiencies. Wirral UDP Policy RE5 sets out general criteria for the protection of playing fields and Proposal RE6 identifies sites within the urban area that should be protected from development. The aim of Proposal RE6 is to prevent the continued loss of playing fields from within the urban area. Noctorum Field is included in this need to protect. The Wirral Playing Pitch Strategy 2016 illustrates that Noctorum Field has 4 non-community cricket pitches, and 1 rugby pitch, non-community, which is used to capacity by the school. The approach is to retain/protect. It also illustrates that there is a current shortage of 16 match sessions relating to rugby, with a future demand shortfall by 2025 of 18. The highest shortfall within the Borough. In relation to Noctorum Field, the implication is clear; it is located in an area with a shortage of adequate playing pitch facilities, and the local and national policies applied require it to be protected from development.</p>							

Person ID	ID	Question 8.8 - Do you agree with the list of open spaces identified for protection from development set out in Appendix 8.1 and the boundaries shown on the Council's website?	Question 8.8a - If you answered No, what what would you change and why? (please give KKP Study reference) If you answered Yes, you can comment here.	Question 8.8b - If you have any comments on the boundaries of these sites as shown on the Council's web site please describe the changes you would like to be made. (please give KKP Study reference) Ideally please upload a sketch plan.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1250067	LPIO-27388		The Spatial Portrait 2020 for settlement area 3, including Noctorum Field, states that the approach is: <ul style="list-style-type: none"> <li>Protecting and enhancing the limited supply of biodiversity, quality open space and playing fields.</li> <li>Providing for the enhancement and protection of local heritage.</li> <li>Preserving the attractiveness of high-quality residential areas along the Noctorum Ridge at Bidston, Noctorum, Claughton and Oxtan.</li> </ul> NPPF guidance indicates that open spaces with recreational value should be protected from development, having regard to current levels of provision and local deficiencies. Wirral UDP Policy RE5 sets out general criteria for the protection of playing fields and Proposal RE6 identifies sites within the urban area that should be protected from development. The aim of Proposal RE6 is to prevent the continued loss of playing fields from within the urban area. Noctorum Field is included in this need to protect. The Wirral Playing Pitch Strategy 2016 illustrates that Noctorum Field has 4 non-community cricket pitches, and 1 rugby pitch, non-community, which is used to capacity by the school. The approach is to retain/protect. It also illustrates that there is a current shortage of 16 match sessions relating to rugby, with a future demand shortfall by 2025 of 18. The highest shortfall within the Borough. In relation to Noctorum Field, the implication is clear; it is located in an area with a shortage of adequate playing pitch facilities, and the local and national policies applied require it to be protected from development.							
1244900	LPIO-1424	no	The school playing field for St Bridgets school, Rectory Road, West Kirby, should be protected from development							
1245153	LPIO-4413	no	The Rectory Road Field and St Bridget's School Playing Field (both in West Kirby) should both be included in Appendix 8.1							
1237870	LPIO-2608	no	The map is on such a small scale it is difficult to identify areas - even close to where I live ! I believe that ALL GREENBELT LAND should protected.							
1238147	LPIO-10277	no	The list is not comprehensive for Heswall-it should include the trangle of land on the corner of Telegraph Road and Boundary Lane opposite the Catholic Church. Also i support the request by the Heswall Society to classify the green spaces in Heswall as Urban Green Space							
1246754	LPIO-10315	no	The list is deficient. St Bridget's Chruh School playing field (between the churchyard and the Old Rectory) should be listed as protected from development. Please see all the comments on the glebe land above which are applicable here. It is: - a green open space; - a natural resource; - important for local wildlife habitats and biodiversity; - in keeping with the surrounding semi-rural area and West Kirby Old Village Conservation Area; - of actual / potential historical significance; - important to the community both as an area for physical activity for school children, as a place of respite and as an area for community gatheerings and activities e.g. annual Church fair etc;							
1245501	LPIO-5152	yes	The link on this page (local plan website) does not work. It is not possible to see the boundaries. <a href="https://wirral-consult.objective.co.uk/kse/s15759912517122#target-d481475e13821">https://wirral-consult.objective.co.uk/kse/s15759912517122#target-d481475e13821</a>							
1245650	LPIO-24306		The former Royal Rock hotel site is shown as open space. This is part of the regeneration scheme for Rock Ferry Waterfront and was intended to be for car parking. The Mersey Coastal Park Strategy (December 2009) and Rock Ferry Waterfront Regeneration Brochure (December 2009) are attached. Could you kindly include this in your review.		<a href="https://wirral-consult.objective.co.uk/file/5655890">https://wirral-consult.objective.co.uk/file/5655890</a>	<a href="https://wirral-consult.objective.co.uk/file/5655893">https://wirral-consult.objective.co.uk/file/5655893</a>				
1241096	LPIO-6935	no	The field between St. Bridget's churchyard and the Old Rectory, known locally as St. Bridget's school playing field, should be included in Appendix 8.1, as other school playing fields are.		<a href="https://wirral-consult.objective.co.uk/file/5684262">https://wirral-consult.objective.co.uk/file/5684262</a>	<a href="https://wirral-consult.objective.co.uk/file/5661944">https://wirral-consult.objective.co.uk/file/5661944</a>				
1246667	LPIO-9066	no	The field and open green space adjacent to St Bridget's church on Rectory Road in West Kirby should be protected from development in order that it can continue to be enjoyed by the local community and especially the pupils of St Bridget's Primary School.							
1245343	LPIO-1503	no	The Council should recognise that the field belonging to St Bridgets Church in West Kirby should be considered as a playing field as it acts as such for St Bridgets Church of England Primary School. This field should be protected from all development to ensure that the school children still have space to play their sport.							
1248150	LPIO-22581	yes	The Council needs to think of other ways to stimulate economic growth. I would like the area known as Tower Grounds to be protected. It is one of the few areas in New Brighton where residents can enjoy trees. It is well used by dog walkers, the elderly, young people who play football and small children who use the play area. Please do not allow this area to be built on.							
1246733	LPIO-9993	no	St Bridget's School playing field, West Kirby has not been listed although other school fields have. As a teacher & parent I am strongly in favour of it being protected as the children regularly use it for their sports lessons & break times. The field is also in the local conservation area.							
1241016	LPIO-233	no	St Bridget's School playing field in West Kirby should be included in the list.		<a href="https://wirral-consult.objective.co.uk/file/5669188">https://wirral-consult.objective.co.uk/file/5669188</a>					
1246621	LPIO-9653	no	St Bridget's Church playing fields in West Kirby (between the Churchyard & Old Rectory) ha snot been identified for protection but should be. This is a historic piece of land which perfectly frames the rural setting of St Bridgets church and is part of the conservation area. It has been used recreationally by generations of children attending the school and also forms part of the hub of the local community and has formed the setting for neighbourhood gatherings. These have proved invaluable for helping neighbours get to know & keep in touch with each other which is a vital part of our social fabric in times of need							
1245146	LPIO-2359	yes	Some additions to Local Green Space required							
1248152	LPIO-24135		SHLAA 4012 Riverwood Road - The southern boundary of this site is immediately adjacent to Eastham Country Park. It is entirely inappropriate for housing – an application for a block of flats was refused on appeal. We strongly suggest that this site is designated 'open green space' to complement the woods of the adjacent Country Park.							
1237667	LPIO-4589	no	See the answer to question 8.10 below. There are areas that should be included as Local Green Spaces.							

Person ID	ID	Question 8.8 - Do you agree with the list of open spaces identified for protection from development set out in Appendix 8.1 and the boundaries shown on the Council's website?	Question 8.8a - If you answered No, what what would you change and why? (please give KKP Study reference) If you answered Yes, you can comment here.	Question 8.8b - If you have any comments on the boundaries of these sites as shown on the Council's web site please describe the changes you would like to be made. (please give KKP Study reference) Ideally please upload a sketch plan.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1242697	LPIO-24716		Residents would wish all sites in Appendix 8.1 to be preserved.		<a href="https://wirral-consult.objective.co.uk/file/5659118">https://wirral-consult.objective.co.uk/file/5659118</a>	<a href="https://wirral-consult.objective.co.uk/file/5659119">https://wirral-consult.objective.co.uk/file/5659119</a>	<a href="https://wirral-consult.objective.co.uk/file/5659120">https://wirral-consult.objective.co.uk/file/5659120</a>	<a href="https://wirral-consult.objective.co.uk/file/5659121">https://wirral-consult.objective.co.uk/file/5659121</a>		
1247464	LPIO-11918		Reference Plot of land Ground adjoining Cheltenham Crescent/Epsom Road. Please ensure that this land is captured in the local plan as an open green space in line with the original planning application and that it is protected open space on the Final Draft Local Plan Policies Map. I am requesting that the land referenced has a proper ground maintenance plan put in place, to include landscaping, cutting, planting and general maintenance. The land is currently poorly maintained, only being cut 3 times a year, to a quite poor standard. Also the site is uneven and dangerous in parts and has a number poorly maintained trees on it and also is heavily littered. Outside the immediate cutting times it is an eyesore and we have noticed an increased number of vermin in the area, recently ourselves having an issue inside our property. What could be a lovely area and asset has become a neglected, scruffy place and certainly impacts the appeal and value of houses in the area.							
1246339	LPIO-6196	no	Please add St Bridgets School playing fields , West Kriby							
1244969	LPIO-1679	no	Our Public Footpath network should also be included							
1248152	LPIO-24114		OS216 - Knockaloe - an early Victorian house in Bridle Road dating from about 1851. Currently the future of this property is uncertain. A former member club the grounds include playing fields and other amenities. It seems to be yet another potential development site. Local residents are rightly concerned for its future. A tree survey has been undertaken and we await details. The future of trees in Wirral is now the subject of a new and emerging Council policy as agreed with Wirral Tree Wardens. It is essential that trees on this site are protected by a TPO as soon as possible. The site is listed on the Merseyside Historic Environment Record. Work on the tennis courts and area in the 1950s revealed an early rubbish dump with pottery from at least the 18th century. Moreover, although only a stray a Vespasian coin was discovered in the kitchen garden in about 1910.							
1248626	LPIO-24631		OS195 - Bromborough Road Woodland North The previously identified surplus land, shown on figure 2 in our attachment, is no longer surplus to operational requirements. As the site is within the operational boundary of a manufacturing plant the open space designation should be removed, so that there is no impediment to utilising this land for future operational requirements. The land is not and has never been publicly accessible. It has always been within the operational boundary of the operational estate at Port Sunlight and has therefore never functioned as a space for open air recreation and cannot therefore have any value attributed to it on this basis. It does not have any significant visual amenity, landscape character or conservation value. The technical due diligence work that was undertaken on the site when it was marketed for sale in 2018 also confirmed that the space does not have any significant environmental or ecological value.		<a href="https://wirral-consult.objective.co.uk/file/5656289">https://wirral-consult.objective.co.uk/file/5656289</a>					
1248152	LPIO-24098		OS190 - Bromborough Court House, its bank and ditch and Fishponds is a Scheduled Ancient Monument Site. This has recently been subject to professional archaeological work approved by Historic England. The finds have largely confirmed that which was already known from early documents, maps, and from invaluable accounts from families who had lived there. The latest planning application now allows a public footpath on the site together with the removal of the protective railings. We would have preferred otherwise but we have to trust that there will be no unintended consequences which would jeopardise the integrity of the site and which may damage it permanently.							
1248311	LPIO-23008		OS024 I would like the area known as Tower Grounds to be protected. It is one of the few areas in New Brighton where residents can enjoys trees. It is well used by dog walkers, the elderly, young people who play football and small children who use the play area. Please do not allow this area to be built on.							
1241989	LPIO-20898		OS024 I would like the area known as Tower Grounds to be protected. It is one of the few areas in New Brighton where residents can enjoys trees. It is well used by dog walkers, the elderly, young people who play football and small children who use the play area. Please do not allow this area to be built on.							
1241065	LPIO-10545	no	No mention of the open space area on the side of Morpeth Dock and the One o'clock gun Woodside							
1247829	LPIO-14672		Must include existing Urban Green Space, Green Belt, LWSs, Nature reserves, SSSIs, ideally also land that supports marine designation areas (Ramsar sites, SPAs) ie holds, at times, feeding and roosting birds.							
1244896	LPIO-5990	yes	ITPAS supports the list of open spaces identified for protection but has queries and observations: This Chapter's Evidence Documents are either Draft or aged, possibly out-of-date and 'unsound'. The List appears to be deficient in examples within the ITPAS Area (Irby, Thurstaston, Pensby, Thingwall and parts of Barnston, Greasby and Heswall). These include but are not limited to Arrowse Park, Royden Park, Thurstaston Common, Irby Quarry, Irby Heath/Hill, Dawpool Primary School Playing Field, and Landican Allotments. 'Caldy Hill' is mentioned. This includes Stapledon Woods, which is to be protected and yet is included as part of Site 6.15, termed 'Weakly Performing' Green Belt and thus possible for release for development. Not only is this absurd but, were Site 6.15 released for house development, the views of Stapledon Woods, the experience and enjoyment of them and their wildlife would all be in jeopardy or lost. Stapledon Woods were included along with agricultural fields forming Site 6.15 as the Council's manipulation device to have the Site classified as 'Highly Enclosed'. Stapledon Woods is bounded by low-density housing apart from the open aspect side formed by the agricultural fields; whereas Site 6.15 cannot be designated as 'Highly Enclosed' without the Woods. Before the Council amalgamated the separate field Sites and included Stapledon Woods, their Consultants concluded this whole Site did not pass selection criteria for Release from GB for development. Significant parts of another amalgamated and manipulated Site (7.27 – South of Thingwall Road) are areas to be protected including the Ancient Woodland of Harrock Wood and Arrowse Brook, public footpaths, medieval farming land formations and heritage remains, which in toto exclude the whole Site from acceptable assessment criteria for release and development. As such, Option 2A lies in ruins (literally and metaphorically).							

Person ID	ID	Question 8.8 - Do you agree with the list of open spaces identified for protection from development set out in Appendix 8.1 and the boundaries shown on the Council's website?	Question 8.8a - If you answered No, what what would you change and why? (please give KKP Study reference) If you answered Yes, you can comment here.	Question 8.8b - If you have any comments on the boundaries of these sites as shown on the Council's web site please describe the changes you would like to be made. (please give KKP Study reference) Ideally please upload a sketch plan.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1246598 (Hoylake Vision)	LPIO-8728	no	Include the proposed 'Golf Resort' area as a potential Wildfowl and Wetlands Centre							
1247345	LPIO-11537		In reference to the plot of green space on the junction of Epsom Road and Cheltenham Crescent. It was our understanding that the intention by the Council was to level the above green space re-seed and maintain the plot of land. However it is now apparent that this is not the case and the intention of the Council is to solely attend to the green space on Epsom Road. The 'green space' on Cheltenham Crescent was purchased a number of years ago with the intention of erecting further properties. The planning permission for this was gratefully rejected. Since that time the land has remained as it was intended-open green space. But unfortunately has proved difficult for the Council to maintain, whether due to ownership rites or physical difficulty in sourcing a grass cutter to perform the task. To include this plot of land along with that of Epsom Road would be beneficial to both the Council and Residents of Cheltenham Crescent-reducing vermin and increasing drainage within the area.							
1246676	LPIO-9291	no	In general I agree, however, I would like for St. Bridget's playing field to be included in addition to those in the current list of Open Spaces. Many other school playing fields have been added and I believe that it also meets the same criteria. It is a playing field that has been used for decades by school children, nestled in the centre of a conservation area and important part of West Kirby heritage. There is no alternative green space or playing field that the school could use and I hope that it can be added to the list for preservation.							
1248152	LPIO-22749		i. Knockaloe - an early Victorian house in Bridle Road dating from about 1851. i. Currently the future of this property is uncertain. A former member club the grounds include playing fields and other amenities. It seems to be yet another potential development site. Local residents are rightly concerned for its future. A tree survey has been undertaken and we await details. The future of trees in Wirral is now the subject of a new and emerging Council policy as agreed with Wirral Tree Wardens. It is essential that trees on this site are protected by a TPO as soon as possible. ii. The site is listed on the Merseyside Historic Environment Record. Work on the tennis courts and area in the 1950s revealed an early rubbish dump with pottery from at least the 18th century. Moreover, although only a stray a Vespasian coin was discovered in the kitchen garden in about 1910. Conclusion We trust that you will take all the points that The Bromborough Society has made into consideration when finalising the Local Plan 2020 and amend the Plan accordingly."							
1242537	LPIO-18043		I would like the area known as Tower Grounds in New Brighton (OS024) to be protected. It is one of the few areas in New Brighton where residents can enjoy trees. It is well used by dog walkers, the elderly, young people who play football and small children who use the play area. Please do not allow this area to be built on.							
1239410	LPIO-844	yes	I support the proposed allocation of the field on Abbots Drive in Bebington to be included, however there is a smaller field, within the estate on Monks Way which is used by children on the estate to play games and socialise. It is also a well used dog walking spot for the residents in the Estate.							
1241495	LPIO-9463	yes	I support the open spaces as designated.							
1238669	LPIO-14355		I have looked at this in connection with the Cllr's request to look at areas that are open space but not designated as such. The area was, years ago, thought of for development. That was under Bebington Council's plan for Bromborough. In the event bungalows were developed but their extent finished some distance north of this triangle. Subsequently it was cleared and planted with wildflowers as part of a highway scheme.. The grass overtook that planting. Trees were planted some years ago and are now well established. The area is shown shaded for housing. A number of homes look directly over the site. I wish to flag this triangular area of land up to be kept as open space.		<a href="https://wirral-consult.objective.co.uk/file/5654456">https://wirral-consult.objective.co.uk/file/5654456</a>					
1247280	LPIO-11449		I have attended the local plan facilities at Millennium Centre, Leasowe, I was extremely concerned that land adjoining Cheltenham Crescent, is not designated as green space. This is quite confusing given that land on Epsom Road closest to the River Birket has been designated Green Space. As the Councillor will know from past experience, we have endeavoured to have this ground adopted by the council and for it to be properly maintained. This would then be in line with our understanding when we first bought our house in September 2001. At that time it was understood that the land we view is Green Space, would be maintained and could not be built on. Since then the land has been passed around various land speculators and the Council has refused multiple planning applications because THE LAND IS Flood Plain. We wish to register our request for the land to be treated in the manner we expected and were lead to believe, back in 2001, and that the Council will treat this area as Local Land (Section 8:10 Local Green Space), level it and landscape it in such way as to improve the aspect of this neighbourhood and fulfil its primary purpose as Flood Plain. In furtherance, I will contact people on the estate to ask them to also comment in furtherance of getting this precious area of land properly designated and cared for.							
1247804	LPIO-14145	yes	I consider that St Bridget's School playing field should be protected from development as other school playing fields have been protected. St Bridget's playing field is integral to the West Kirby Old Village Conservation Area and retains the view between the old vicarage and St Bridget's Church. The field provides recreational benefits for the school, the church and the whole community including the popular Earth Festival. The field is like a village green for West Kirby, and particularly the old village							
1247806	LPIO-14148	no	I cannot understand why the council have not listed the St Bridget's playing fields as being protected from development when other playing fields have. This is the only area of green that the children of St Bridget's school have for recreation other than a tarmac playground. All sports days are held on this land and the children of the school use it regularly. If this was to be built on the children of St Bridget's would have to travel to find land for this purpose.							
1247807	LPIO-14206	yes	I cannot understand why the council have not listed the St Bridget's playing fields as being protected from development when other playing fields have. This is the only area of green that the children of St Bridget's school have for recreation other than a tarmac playground. All sports days are held on this land and the children of the school use it regularly. If this was to be built on the children of St Bridget's would have to travel to find land for this purpose.
