

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; If Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1246747	LPIO-10050	yes	I agree overall, but I worry about how realistic/achievable it really is (see my earlier comments).							
1244412	LPIO-1019	no	Forecasted housing demand is vastly overestimated. Should it be pursued there is the real possibility that current areas of housing market decline and economic deprivation will deteriorate further; those who can will move out to the new build elsewhere whilst there is no new population to replace them in the homes abandoned. This will create even more social exclusion, increased costs of regeneration/deprivation and also reduce then quality of life for every citizen of Wirral by drastically reducing any access to green space for everyone.							
1246559 Cheshire Wildlife Trust	LPIO-10230	no	We do not agree with the vision as it does not adequately reflect the three overarching objectives of the planning system as set out in the NPPF. Objective c (Environment) of the NPPF explicitly describes protecting and enhancing our natural, built and historic environment in the third pillar of sustainable development. Failing to have any reference to this in the vision is unacceptable and a serious oversight which must be addressed. We suggest the following wording should be included: Our natural environment will be protected, enhanced and better connected, helping to provide natural solutions to the climate and ecological emergencies.							
1241629	LPIO-10253	yes								
1246772	LPIO-10329	yes	Agree wholeheartedly with Objectives but strongly disagree with modelled projections of growth in housing demand.							
1246778	LPIO-10374	no	Much of the focus is on the East of Wirral. Regeneration of Birkenhead seems focused on shopping, but this is reduced in demand terms going forwards. Really positive to develop some of this area, but focus needs to be on wider leisure that would appeal, including sports (ice skating? roller skating? Exemplary sports centre / running track?) that would attract people to the area. West of Wirral has been largely neglected in this proposal.							
1246731	LPIO-10389	no	No, because it is based upon an understated baseline of housing need and a flawed Green Belt Study that understates the amount of Green Belt land that only performs a weak function. The sites that are relied on for development lack developability and deliverability within the required plan period and therefore the plan is unsound.							
1248825	LPIO-10660	yes	The Vision could better articulate the role of Wirral Waters at the heart of the future of Wirral, as a sustainable 21st century 'city extension exemplar', as the pre-eminent driving force for regeneration of Birkenhead. The catalytic effect and synergy with other developments and regeneration programmes, such as the Wirral Growth Company's plans for Birkenhead town centre should not be underestimated. The vision should be unambiguous that the private and public investment of 'regional and national importance' taking place on the 'left bank of the Mersey' is a reference to Wirral Waters and its potential contribution to the region. The WLP should be seeking to do everything it can to accelerate its progress.		<a href="https://wirral-consult.objective.co.uk/file/5684264">https://wirral-consult.objective.co.uk/file/5684264</a>					
1238582	LPIO-10678	yes								
1247066	LPIO-10802	yes								
1247073	LPIO-10824	no								
1237930	LPIO-10838	no								
1247077	LPIO-10854	no								
1247079	LPIO-10871	yes								
1247087	LPIO-10887	yes								
1243890	LPIO-1089	yes								
1247097	LPIO-10902	yes								
1247098	LPIO-10917	no								
1247103	LPIO-10935	no								
1247120	LPIO-10954	no								
1247128	LPIO-11021	yes								
1247129	LPIO-11037	no

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; if Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1247154	LPIO-11187	yes								
1247154	LPIO-11188	yes								
1247196	LPIO-11566		As previously said, I do not agree with Council's projections.							
1247359	LPIO-11645	yes	I agree with the proposed Vision and Strategic Objectives. Strategic Objective 5 (Green Space) and Strategic Objective 8 (Distinctive Character) are of particular importance in Nocturum. Green spaces such as NF work as part of a network of spaces to provide areas for sport, amenity, both physical and visual, and areas for biodiversity, and linkages to wildlife corridors, which also encourage walking and cycling. Along with the Wirral Golf Club and the nearby Bidston Hill, Hill Road allotments and Flaybrick Cemetery, NF contributes to a high-quality green environment within the conurbation.							
1247015	LPIO-11766		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247405	LPIO-11978	yes								
1247363	LPIO-11979	yes

1247394	LPIO-12007	yes								
1244681	LPIO-1236		<p>I agree on the brownfield first approach, I do not agree with including any greenbelt release.</p> <ul style="list-style-type: none"> <li>• The local plan must make it clear that all plans, proposals and decisions will be in-line with the climate emergency, Wirral's carbon budget and carbon reduction pathway.</li> <li>• The Vision and spatial planning objectives should reflect the social role of planning in supporting strong, vibrant and healthy communities, and tackling inequalities</li> <li>• The pursuit of economic growth must cease to be an automatic aim of human societies. We should instead aim to develop sustainable, circular economies, which improve well-being focused on human values rather than consumerism.</li> </ul>							

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; if Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1247214	LPIO-12393		As previously said, I do not agree with Council's projections.							
1247492	LPIO-12491		As previously said, I do not agree with Council's projections.							
1240843	LPIO-12656		As previously said, I do not agree with Council's projections.							
1247578	LPIO-12854		As previously said, I do not agree with Council's projections.							
1241412	LPIO-129	yes	Just don't get carried away with everything being in Birkenhead							
1247510	LPIO-12978		As previously said, I do not agree with Council's projections.							
1246335	LPIO-13102		As previously said, I do not agree with Council's projections.							
1246578	LPIO-13332	no	I do not agree with the Council's projections							
1246853	LPIO-13370		As previously said, I do not agree with Council's projections.							
1243700	LPIO-1344	no	There is clearly a conflict between the "green" vision and the "land development" vision. The Council must logically have a priority which is not made clear in this document. For example, we are not told of the climate footprint the Local plan has nor what steps will/can be taken to retain a neutral footprint. The climate emergency called by the Council states that even a neutral position is insufficient to meet the challenge of climate change. For years WBC has been producing vision statements and i am getting pretty tired of them because seldom has one reached fruition. (Sorry the 1983 green belt vision is the exception) I want a plan that has better than a 90% chance of success.							
1246852	LPIO-13492		As previously said, I do not agree with Council's projections.							
1247746	LPIO-13646		As previously said, I do not agree with Council's projections.							
1247228	LPIO-13734	yes								
1247747	LPIO-13747	yes								
1238192	LPIO-13788		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1244782	LPIO-1381	yes								
1247012	LPIO-13843		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247014	LPIO-13897		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1242183	LPIO-13964		As previously said, I do not agree with Council's projections.							
1247218	LPIO-14059		As previously said, I do not agree with Council's projections.							
1244900	LPIO-1411	yes								
1247219	LPIO-14164		As previously said, I do not agree with Council's projections.							
1247220	LPIO-14261		As previously said, I do not agree with Council's projections.							
1247222	LPIO-14393		As previously said, I do not agree with Council's projections.							
1247226	LPIO-14481		As previously said, I do not agree with Council's projections.							
1247245	LPIO-14571		As previously said, I do not agree with Council's projections.							
1244905	LPIO-1466	yes								
1244905	LPIO-1469	yes								
1246827	LPIO-14700		As previously said, I do not agree with Council's projections.							
1247016	LPIO-14833		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247018	LPIO-14893		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247864	LPIO-15192	yes	I agree with the proposed Vision and Strategic Objectives.							
1247865	LPIO-15209	yes	I agree with the proposed Vision and Strategic Objectives.							
1247866	LPIO-15220	yes	I agree with the proposed Vision and Strategic Objectives.							
1247867	LPIO-15238	yes	I agree with the proposed Vision and Strategic Objectives.

1247869	LPIO-15290	yes	I agree with the proposed Vision and Strategic Objectives.							
1244901	LPIO-1532	yes								
1247246	LPIO-15320		As previously said, I do not agree with Council's projections.							

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; If Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1247870	LPIO-15395	yes	I agree with the proposed Vision and Strategic Objectives.							
1247871	LPIO-15423	yes	I agree with the proposed Vision and Strategic Objectives.							
1247248	LPIO-15424		As previously said, I do not agree with Council's projections.							
1247872	LPIO-15463	yes	I agree with the proposed Vision and Strategic Objectives.							
1247251	LPIO-15537		As previously said, I do not agree with Council's projections.							
1247252	LPIO-15629		As previously said, I do not agree with Council's projections.							
1247274	LPIO-15722		As previously said, I do not agree with Council's projections.							
1247275	LPIO-15832		As previously said, I do not agree with Council's projections.							
1247936	LPIO-15975		As previously said, I do not agree with Council's projections.							
1238043	LPIO-1608	yes								
1244969	LPIO-1614	yes	Without any alteration to the current Green Belt boundary							
1247287	LPIO-16195		As previously said, I do not agree with Council's projections.							
1239377	LPIO-1624	no	Unfortunately, the Council's vision and objectives remain flawed due to the lack of accurate projections.							
1247344	LPIO-16282		As previously said, I do not agree with Council's projections.							
1247349	LPIO-16370		As previously said, I do not agree with Council's projections.							
1247353	LPIO-16458		As previously said, I do not agree with Council's projections.							
1247354	LPIO-16546		As previously said, I do not agree with Council's projections.							
1247935	LPIO-16588	no	As previously said, I do not agree with Council's projections.							
1247434	LPIO-16644		As previously said, I do not agree with Council's projections.							
1247436	LPIO-16760		As previously said, I do not agree with Council's projections.							
1247437	LPIO-16882		As previously said, I do not agree with Council's projections.							
1247439	LPIO-16883		As previously said, I do not agree with Council's projections.							
1247441	LPIO-17057		As previously said, I do not agree with Council's projections.							
1247960	LPIO-17178		As previously said, I do not agree with Council's projections.							
1247962	LPIO-17265		As previously said, I do not agree with Council's projections.							
1247965	LPIO-17336	yes	I agree with the proposed Vision and Strategic Objectives. Strategic Objective 5 (Green Space) and Strategic Objective 8 (Distinctive Character) are of particular importance in Nocturum. Green spaces such as NF work as part of a network of spaces to provide areas for sport, amenity, both physical and visual, and areas for biodiversity, and linkages to wildlife corridors, which also encourage walking and cycling. Along with the Wirral Golf Club and the nearby Bidston Hill, Hill Road allotments and Flaybrick Cemetery, NF contributes to a high-quality green environment within the conurbation.							
1247966	LPIO-17370		As previously said, I do not agree with Council's projections.							
1247967	LPIO-17426	yes	I agree with the proposed Vision and Strategic Objectives. Strategic Objective 5 (Green Space) and Strategic Objective 8 (Distinctive Character) are of particular importance in Nocturum. Green spaces such as NF work as part of a network of spaces to provide areas for sport, amenity, both physical and visual, and areas for biodiversity, and linkages to wildlife corridors, which also encourage walking and cycling. Along with the Wirral Golf Club and the nearby Bidston Hill, Hill Road allotments and Flaybrick Cemetery, NF contributes to a high-quality green environment within the conurbation.							
1242519	LPIO-1745	no								
1247971	LPIO-17472		As previously said, I do not agree with Council's projections.							
1241726	LPIO-17566		As previously said, I do not agree with Council's projections.							
1247979	LPIO-17678		As previously said, I do not agree with Council's projections.							
1247980	LPIO-17679		As previously said, I do not agree with Council's projections.							
1241669	LPIO-178	yes								
1245502	LPIO-17857		As previously said, I do not agree with Council's projections.							

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; If Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1246558	LPIO-17908	no	Q3a: I object to the proposed use of the green belt land because the field is one of the most beautiful sloping views in Caldý, it is an open space that is important to the mental health of children walking to and from school and people walking in Caldý woods. I for one get pleasure from seeing the migrating birds there every year, the crops being planted, harvested and the soil being turned over. Quite frankly there is no need to build on green belt ( note GREEN BELT !!!!!) when there are so many brown field sites that could be used. Q3b: There would be an increase of traffic from any development , the run off from a development would create a significant increase on the existing drainage and sewer systems. Q3c: Caldý woods are a peaceful place to walk your dog and take a stroll. Any development would have an impact on the amount of people in the woods, the noise, light pollution, increase in vermin. Q3d: The view from the woods over the fields gives a peaceful outlook over the open fields and the village feel of Caldý and the approach to West Kirby is preserved by the green spaces we still have. Q3j : b) brownfield sites. No need to use green belt Q3l: The field below Caldý hill is ploughed, sown and harvested every year/ It is fertile soil on a slope some of the est Agricultural land on the Wirral. Q3m: Its GREEN BELT designated for a reason... the reason being that we don't build on it. It stops villages and towns melding into a metropolis and preserves our green spaces for future generations. Only greedy developers would consider such a thing. To destroy or green fields would be a travesty. It shouldn't even be proposed. People chose to live in Caldý to breathe fresh air to have beautiful views, to appreciate the nature surrounding us, trees, wide variety of birds, wild animals ( foxes, weasels, badgers to name a few). I shouldn't even be having to write this. Green belt is green belt. Hands off!							
1247541	LPIO-17959		As previously said, I do not agree with Council's projections.							
1247539	LPIO-18068		As previously said, I do not agree with Council's projections.							
1237857	LPIO-18172		As previously said, I do not agree with Council's projections.							
1245060	LPIO-1820	no	As previously said, I do not agree with Council's projections.							
1247996	LPIO-18218		As previously said, I do not agree with Council's projections.							
1245069	LPIO-1835	no	If Green belt is developed, several of the strategies will not be realised. i.e protect our green belt, improve green space, green corridors to drive through. There will be no corridors if green belt is developed upon. Why does the vision not state.... No green belt will be developed upon, thus protecting etc etc. The council should make such a commitment.							
1247021	LPIO-18384		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247022	LPIO-18438		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.

1247084	LPIO-19734		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; If Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1237833	LPIO-19755		It is noted that the Vision covers the Plan period to 2035, the HBF are concerned that given we are already in 2020 and the Plan is a considerable way from being adopted that this will not be a sufficient time period. The NPPF (para. 22) requires that strategic policies should look ahead over a minimum 15-year period from adoption. Whilst the vision does make a passing reference to the contribution the regeneration of Birkenhead will play in meeting the housing needs of the Wirral. The vision does not consider the importance of delivering housing and affordable homes to meet the needs of local people. This would sit better with Strategic Objective 7 which seeks to provide sufficient housing to meet local housing needs and provide a choice of housing.							
1247085	LPIO-19797		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247088	LPIO-19863		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247089	LPIO-19919		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247090	LPIO-19979		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247091	LPIO-20034		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1242541	LPIO-2005	yes	I agree on the brownfield first approach, I do not agree with including any greenbelt release. The local plan must make it clear that all plans, proposals and decisions will be in-line with the climate emergency, Wirral's carbon budget and carbon reduction pathway. I suggest you alter the vision to reflect - the specific commitments to climate mitigation and adaptation within the Council's climate emergency declaration. - Our natural habitats and wildlife assets will be protected and enhanced with a net gain in biodiversity across the Peninsular.							
1247092	LPIO-20090		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247093	LPIO-20151		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247094	LPIO-20212		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1245083	LPIO-2024	no	I do not agree with council's projections.							
1247095	LPIO-20268		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247096	LPIO-20323		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247099	LPIO-20380		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247101	LPIO-20434		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247108	LPIO-20561		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247102	LPIO-20562		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247106	LPIO-20601		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247105	LPIO-20602		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1237870	LPIO-2066	no	NO !! I have already stated my objections. There was no need to ask this question.							
1247109	LPIO-20704		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247110	LPIO-20763		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247111	LPIO-20764		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247112	LPIO-20923		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247113	LPIO-20978		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1241016	LPIO-210	yes	It is a bold vision that aims to make the Wirral as a whole a better place to live in 2035. It will be fantastic to look back in 2035 and see what has been achieved in regenerating East Wirral.							
1247115	LPIO-21034		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247116	LPIO-21088		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1246851	LPIO-21152		As previously said, I do not agree with Council's projections.							
1245100	LPIO-2119	no	Wirral should be a Zero Carbon emitting Borough. Prioritising pedestrians, cycling and public transport over cars should be key. The borough should aim to protect the environment, maintaining and increasing bio-diversity. I DO AGREE with the brownfield first approach. I DO NOT AGREE with any green belt release. The Local Plan must make it clear that all plans, proposals and decisions will be in line with The Climate Emergency, Wirral's carbon budget and greenhouse gas emission policy. The Vision and Spatial planning objectives should reflect the social roles of planning in supporting strong vibrant communities and tackling inequalities. The pursuit of economic growth must cease to be an automatic aim of human societies. We should instead aim to develop a sustainable, circular economy which will improve well being and is not focused on consumerism, which is one of the fuels of climate change.							
1246918	LPIO-21267		As previously said, I do not agree with Council's projections.							
1246924	LPIO-21268		As previously said, I do not agree with Council's projections.							

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; If Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1246928	LPIO-21269		As previously said, I do not agree with Council's projections.							
1245112	LPIO-2140	yes								
1246920	LPIO-21517		As previously said, I do not agree with Council's projections.							
1246926	LPIO-21518		As previously said, I do not agree with Council's projections.							
1238835	LPIO-2159	yes	I tend to agree with Council's proposed vision, but I disagree with their projections. These projections are flawed and based upon out-of date data. They should be scrapped and a new set of data issued, based on current data. There is no point in wasting tax payers money on producing these reports, if you are just going to ignore them. As I said earlier, in his January 2019 letter, Mr Brokenshire said the housing numbers are just a starting point. Council has enough evidence now to challenge this and produce a more accurate plan, on that is economically viable and sustainable and will not bankrupt the council.							
1247117	LPIO-21673		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247118	LPIO-21674		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247145	LPIO-21781		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247147	LPIO-21782		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247148	LPIO-21889		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247150	LPIO-21890		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1244329	LPIO-21999		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247119	LPIO-22061		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1246678	LPIO-22062		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247151	LPIO-22170		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247152	LPIO-22171		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247153	LPIO-22284		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247155	LPIO-22285		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247156	LPIO-22392		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247158	LPIO-22393		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247159	LPIO-22580		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247160	LPIO-22582		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247161	LPIO-22627		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247164	LPIO-22628		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1237944	LPIO-2273	yes	Objective 8: New development design policy should reflect the existing architectural character of the area, to provide social cohesion and enhance the Heritage policies within the proposal Local Plan. Objective 9: Include requirements to provide local businesses NOT dependent on Internet Services, e.g. food stores; post offices; pubs; as these services build local communities. Objective 10: this objective should include acceptable proposals to the Council for reducing the cost of remedial works on brownfield sites (e.g. building storm water tanks under the brownfield site, and then capping the site with concrete, whilst allowing selected low toxic/zero toxic areas to be planted with trees, to ensure a green urban design can be achieved.). The reduced cost of remedial works is likely to make development of brownfield sites more acceptable to residential developers.							
1247167	LPIO-22760		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247168	LPIO-22761		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247169	LPIO-22948		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247170	LPIO-22950		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247173	LPIO-23037		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247174	LPIO-23038		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247175	LPIO-23145		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247176	LPIO-23146		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247177	LPIO-23274		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247178	LPIO-23275		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							
1247179	LPIO-23276		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.							

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; if Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1245146	LPIO-2332	yes								
1248438	LPIO-23762		Our Client supports the aspiration for Wirral to offer its residents a high-quality of life, providing the opportunity to live and work in the Borough. This will require investment in homes, employment, retail and leisure facilities, all of which is recognised within the Spatial Vision. Investment in sustainable travel also has a key role to play in delivering and securing environmental improvements. That said, the Spatial Vision makes no reference whatsoever to the role of its larger towns and villages, with the exception that they will be "greener and more sustainable." This aligns with our concern that the Council's preferred approach is very heavily skewed towards investment and development around the urban conurbation in East Wirral, with little to no investment and development to the west of the M53 motorway. This approach has already been applied and failed. It cannot continue to be pursued if the Borough wants to achieve the social, economic and environmental dimensions of sustainable development set out in the NPPF, nor indeed the Spatial Vision itself. As with the Council's preferred approach, there is a need to review the Spatial Vision to recognise the need for a balanced development and spatial strategy across Wirral up to 2035, including the sustainable release of greenfield land in the Green Belt to meet local housing needs. Accordingly, while we support some elements of the Spatial Vision, we object to the fact that, based on the Council's preferred approach, almost half of the Borough will play little to no role in facilitating and benefiting from economic investment in the Borough. This, in itself, is not a sustainable approach to development.	<a href="https://wirral-consult.objective.co.uk/file/5684850">https://wirral-consult.objective.co.uk/file/5684850</a>	<a href="https://wirral-consult.objective.co.uk/file/5657890">https://wirral-consult.objective.co.uk/file/5657890</a>					
1248389 Highways England	LPIO-23765		This part of the document sets out the Council's ambitions for the way in which Wirral will develop and is divided into three sections: Wirral's future challenges and opportunities; Vision for future development over the life of the Local Plan 2020-2035; and the objectives for the Local Plan which will help to achieve the vision. Overarchingly the Vision states: "By 2035, Wirral will continue to offer a high quality of life as an attractive place to live an active, sustainable, productive, safe and healthy lifestyle, to complement the attractiveness of and make a significant contribution to the economic competitiveness of the Liverpool City Region." In terms of transport it states:- "An integrated transport network will reduce reliance on private car travel, giving Wirral residents a variety of sustainable travel choices to meet their travel needs. Active travel will be the mode of choice for short journeys." Highways England acknowledge that one of the challenges listed directly relates to the M53 and potential capacity constraints – "High- Level infrastructure capacity constraints, such as the M53, particularly at junctions 4 and 5, the A41 and the Mersey crossings to Liverpool, which may make it more challenging to deliver the Borough's growth requirements;" The recognition of this challenge at an early stage is crucial and ongoing engagement with Highways England needs to be maintained to ensure this challenge is addressed adequately as the allocation of sites is finalised.							
1248091	LPIO-23812		The lack of Strategy is a fundamental flaw. Where is the justification for the allocation of housing land versus employment land and the value of the open spaces to the developing Leisure sector, food production and the reduction of climate change and improved air quality?							
1242185	LPIO-23893	yes	Yes. The vision is good.							
1244826	LPIO-2390	no	I agree on the brownfield first approach, I do not agree with including any greenbelt release. I do agree with Wirral Waters objectives.							
1248472	LPIO-24013		The Vision should be amended to acknowledge that more Green Belt release will be required to accommodate housing needs and that it will take time for the regeneration areas of the Borough to meet their full potential.	<a href="https://wirral-consult.objective.co.uk/file/5684824">https://wirral-consult.objective.co.uk/file/5684824</a>	<a href="https://wirral-consult.objective.co.uk/file/5684823">https://wirral-consult.objective.co.uk/file/5684823</a>					
1247798	LPIO-24234		Supports the aspiration for Wirral to offer its residents a high-quality of life, providing the opportunity to live and work in the Borough. This will require investment in homes, employment, retail and leisure facilities, all of which is recognised within the Spatial Vision. Investment in sustainable travel also has a key role to play in delivering and securing environmental improvements. The Spatial Vision makes no reference whatsoever to the role of its larger towns and villages, with the exception that they will be "greener and more sustainable." This aligns with our earlier comments that the Council's preferred approach is very heavily skewed towards investment and development around the urban conurbation in East Wirral, with little to no investment and development to the west of the M53 motorway. This approach has already been applied and failed. It cannot continue to be pursued if the Borough wants to achieve the social, economic and environmental dimensions of sustainable development set out in the NPPF, nor indeed the Spatial Vision itself. As with the Council's preferred approach, there is a need to review the Spatial Vision to recognise the need for a balanced development and spatial strategy across Wirral up to 2035, including the sustainable release of greenfield land in the Green Belt to meet local housing needs. Accordingly, whilst we support some elements of the Spatial Vision, we object to the fact that, based on the Council's preferred approach, almost half of the Borough will play little to no role in facilitating and benefiting from economic investment in the Borough. This in itself is not a sustainable approach to development.	<a href="https://wirral-consult.objective.co.uk/file/5684846">https://wirral-consult.objective.co.uk/file/5684846</a>						
1248517	LPIO-24280		Whilst agreeing with the generality of the idea that Wirral should continue to offer a high quality of life, as an attractive place to live an active, sustainable, productive, safe and healthy lifestyle, to complement the attractiveness of and make a significant contribution to the economic competitiveness of the Liverpool City Region, the Vision falls short in that it does not emphasize sufficiently the value of the regeneration of previously developed / brownfield land to make a contribution to the Borough. We propose that it should specifically recognise the value of brownfield land in meeting the needs of the area.							
1248542	LPIO-24357		We support the vision, in particular the aspiration to have made significant progress in the regeneration of Birkenhead. We also support the vision of Birkenhead as a vibrant mixed-use area with a new "Central Business District Quarter, perhaps fewer shops to reflect changes in retail opportunities, but with a mix of new homes and businesses and leisure uses."		<a href="https://wirral-consult.objective.co.uk/file/5684894">https://wirral-consult.objective.co.uk/file/5684894</a>					

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; if Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1248557 Environment Agency	LPIO-24430		As some may expect the Spatial Vision is very much economically and socially focused. Considering the significant natural assets located within the Wirral we believe the vision should be expanded with a statement promoting environmental protection and enhancement. This would not only provide a bolder more balanced vision but also provide a clearer link to the plans Strategic Objectives. Paragraph 3.6 (page 44) explains 'The Local Plan will seek to address these challenges and to build upon the opportunities, by addressing the issues related to housing and economic growth; working to alleviate social, economic and environmental disparities; ensuring the protection of environmental assets; and securing urban regeneration as part of the wider vision for Wirral and the Liverpool City Region. Underlining all this is our commitment to create a more sustainable and resilient future for local communities, in response to the Climate Emergency'. Many of the objectives [in paragraph 3.6, page 44]are to be welcomed however we would strongly suggest the protection of environmental assets is expanded to include the 'protection and enhancement of environmental assets'.							
1248566 Natural England	LPIO-24468		Natural England advises that the Plan's vision and emerging development strategy should address impacts on and opportunities for the natural environment and set out the environmental ambition for the plan area. The Plan should take a strategic approach to the protection and enhancement of the natural environment, including providing a net gain for biodiversity, considering opportunities to enhance and improve connectivity. We support the overarching spatial vision to deliver a healthy, sustainable and prosperous borough							
1248567 Historic England	LPIO-24516	no	[Questions 3.1-3.3] Historic England considers that the vision in lacking reference to the historic environment puts at risk the future of the Wirral's historic environment. The NPPF requires plans to set out the strategic priorities for the area. There is an expectation that, included within them should be the conservation and enhancement of the historic environment, as well as landscape and the natural environment. The Vision for the Wirral omits any reference to the historic environment and therefore fails to give the prominence it deserves with other matters in line with the requirements of the NPPF. Within the Strategic Objectives, in particular Objective 2, 5, and 8, the historic environment is mentioned, and given the strategic objectives should flow from the vision; this therefore further reinforces the need to include it within the Vision for the Wirral.							
1246559 Cheshire Wildlife Trust	LPIO-24554		We do not agree with the vision as it does not adequately reflect the three overarching objectives of the planning system as set out in the NPPF. Objective c (Environment) of the NPPF explicitly describes protecting and enhancing our natural, built and historic environment in the third pillar of sustainable development. Failing to have any reference this in the vision is unacceptable and a serious oversight which must be addressed. We suggest the following wording should be included: Our natural environment will be protected, enhanced and better connected, helping to provide natural solutions to the climate and ecological emergencies.							
1242697	LPIO-24658		The vision is ambitious and aspirational, as visions tend to be, and not all will be achieved. If the main point of regeneration of the east is largely completed, with improvements to public transport, then the vision would become a reality.	<a href="https://wirral-consult.objective.co.uk/file/5659118">https://wirral-consult.objective.co.uk/file/5659118</a>	<a href="https://wirral-consult.objective.co.uk/file/5659119">https://wirral-consult.objective.co.uk/file/5659119</a>	<a href="https://wirral-consult.objective.co.uk/file/5659120">https://wirral-consult.objective.co.uk/file/5659120</a>	<a href="https://wirral-consult.objective.co.uk/file/5659121">https://wirral-consult.objective.co.uk/file/5659121</a>			
1248749	LPIO-24822		Whilst we do not disagree with the proposed vision which generally aligns with and refers to the regeneration and development of Birkenhead and the broad locations for growth set out later in the Issues and Options report, these areas are all within the Urban Conurbation east of the M53. There is no reference to the Urban Settlements west of the M53 and how the plan is seeking to ensure their viability and growth. Indeed, throughout the Issues and Options paper very little regard is given to these Urban Settlements. If this is not addressed within the Draft Local Plan, there is a real danger that the plan will fail to address the needs of a significant portion of the Borough. The vision of the Plan needs to meet the housing needs of the entire Borough, considered as a whole.	<a href="https://wirral-consult.objective.co.uk/file/5684847">https://wirral-consult.objective.co.uk/file/5684847</a>	<a href="https://wirral-consult.objective.co.uk/file/5684848">https://wirral-consult.objective.co.uk/file/5684848</a>	<a href="https://wirral-consult.objective.co.uk/file/5684845">https://wirral-consult.objective.co.uk/file/5684845</a>				
1248769	LPIO-24944		Whilst we do not disagree with the proposed vision which generally aligns with and refers to the regeneration and development of Birkenhead and the broad locations for growth set out later in the Issues and Options report, these areas are all within the Urban Conurbation east of the M53. There is no reference to the Urban Settlements west of the M53 and how the plan is seeking to ensure their viability and growth. 1248956	LPIO-25361		Do not disagree with the proposed vision but there is no reference to the other Urban Settlements west of the M53 and how the plan is seeking to ensure their viability and growth. If this is not addressed within the Draft Local Plan, there is a real danger that the plan will fail to address the needs of a significant portion of the Borough. The vision needs to encompass the housing needs of the entire Borough as a whole and be widened with regards to Green Belt release.	<a href="https://wirral-consult.objective.co.uk/file/5677474">https://wirral-consult.objective.co.uk/file/5677474</a>	<a href="https://wirral-consult.objective.co.uk/file/5684859">https://wirral-consult.objective.co.uk/file/5684859</a>					
1246763	LPIO-25404		However, it is essential that there is no disconnect between the scale of growth proposed in the Plan and the Wirral's ambitions and objectives.							
1242950	LPIO-2545	yes	We agree.							
1248986	LPIO-25456		Whilst we do not disagree with the proposed vision which generally aligns with and refers to the regeneration and development of Birkenhead and the broad locations for growth set out later in the Issues and Options report, these areas are all within the Urban Conurbation east of the M53. There is no reference to the Urban Settlements west of the M53 and how the plan is seeking to ensure their viability and growth. Indeed, throughout the Issues and Options paper very little regard is given to these Urban Settlements. If this is not addressed within the Draft Local Plan, there is a real danger that the plan will fail to address the needs of a significant portion of the Borough. The vision of the Plan needs to meet the housing needs of the entire Borough, considered as a whole.	<a href="https://wirral-consult.objective.co.uk/file/5662723">https://wirral-consult.objective.co.uk/file/5662723</a>	<a href="https://wirral-consult.objective.co.uk/file/5662725">https://wirral-consult.objective.co.uk/file/5662725</a>	<a href="https://wirral-consult.objective.co.uk/file/5662770">https://wirral-consult.objective.co.uk/file/5662770</a>				
1249002	LPIO-25513	yes	Having sought the views of all relevant Merseytravel Operational Departments we can confirm that Merseytravel is broadly supportive of the direction that the Issues and Options 2020 – 2035 Document indicates it will take the Wirral Local Plan. On this basis, Merseytravel would wish to continue active collaboration with Wirral Council upon the development and implementation of the Plan.							
1249015	LPIO-25569		Do not disagree with the proposed vision but there is no reference to the other Urban Settlements west of the M53 and how the plan is seeking to ensure their viability and growth. If this is not addressed within the Draft Local Plan, there is a real danger that the plan will fail to address the needs of a significant portion of the Borough. The vision needs to encompass the housing needs of the entire Borough as a whole and be widened with regards to Green Belt release.	<a href="https://wirral-consult.objective.co.uk/file/5684897">https://wirral-consult.objective.co.uk/file/5684897</a>						
1237546 Wirral Wildlife	LPIO-2563	no	Wirral Wildlife consider that the climate change paragraph should be first not last, as it influences everything else. NPPF 148. If large-scale tree planting is to happen, then land has to be found for that, either by itself or as canopy over other uses such as amenity space and streets. Wirral Wildlife consider that increasing tree canopy cover should be a part of the vision, e.g. "WBC will work with partners to achieve an increase in tree canopy cover across the Borough, with a target of a 50% net increase on current levels by 2030" (see Wirral Tree Strategy)							
1249070	LPIO-25652		Do not disagree with the proposed vision but there is no reference to the other Urban Settlements west of the M53 and how the plan is seeking to ensure their viability and growth. If this is not addressed within the Draft Local Plan, there is a real danger that the plan will fail to address the needs of a significant portion of the Borough. The vision needs to encompass the housing needs of the entire Borough as a whole and be widened with regards to Green Belt release.	<a href="https://wirral-consult.objective.co.uk/file/5684896">https://wirral-consult.objective.co.uk/file/5684896</a>	<a href="https://wirral-consult.objective.co.uk/file/5679650">https://wirral-consult.objective.co.uk/file/5679650</a>					
1243721	LPIO-2567	yes	The vision of regeneration is appropriate to the Wirral. We hope it can be delivered without adversely affecting the character of our peninsula offering leisure and wild-life support.							
1246458	LPIO-25707		As previously said, I do not agree with Council's projections.							
1246459	LPIO-25708		As previously said, I do not agree with Council's projections.							
1249100	LPIO-25874 (1 of 2)		Do not disagree with the proposed vision but there is no reference to the other Urban Settlements west of the M53 and how the plan is seeking to ensure their viability and growth. If this is not addressed within the Draft Local Plan, there is a real danger that the plan will fail to address the needs of a significant portion of the Borough. The vision needs to encompass the housing needs of the entire Borough as a whole and be widened with regards to Green Belt release.	<a href="https://wirral-consult.objective.co.uk/file/5677514">https://wirral-consult.objective.co.uk/file/5677514</a>	<a href="https://wirral-consult.objective.co.uk/file/5677512">https://wirral-consult.objective.co.uk/file/5677512</a>	<a href="https://wirral-consult.objective.co.uk/file/5684898">https://wirral-consult.objective.co.uk/file/5684898</a>	<a href="https://wirral-consult.objective.co.uk/file/5684949">https://wirral-consult.objective.co.uk/file/5684949</a>	<a href="https://wirral-consult.objective.co.uk/file/5677509">https://wirral-consult.objective.co.uk/file/5677509</a>	<a href="https://wirral-consult.objective.co.uk/file/5684951">https://wirral-consult.objective.co.uk/file/5684951</a>	<a href="https://wirral-consult.objective.co.uk/file/5677510">https://wirral-consult.objective.co.uk/file/5677510</a>
1249100	LPIO-25874 (2 of 2)		Do not disagree with the proposed vision but there is no reference to the other Urban Settlements west of the M53 and how the plan is seeking to ensure their viability and growth. If this is not addressed within the Draft Local Plan, there is a real danger that the plan will fail to address the needs of a significant portion of the Borough. The vision needs to encompass the housing needs of the entire Borough as a whole and be widened with regards to Green Belt release.	<a href="https://wirral-consult.objective.co.uk/file/5684895">https://wirral-consult.objective.co.uk/file/5684895</a>	<a href="https://wirral-consult.objective.co.uk/file/5677508">https://wirral-consult.objective.co.uk/file/5677508</a>	<a href="https://wirral-consult.objective.co.uk/file/5677511">https://wirral-consult.objective.co.uk/file/5677511</a>	<a href="https://wirral-consult.objective.co.uk/file/5677513">https://wirral-consult.objective.co.uk/file/5677513</a>	<a href="https://wirral-consult.objective.co.uk/file/5677516">https://wirral-consult.objective.co.uk/file/5677516</a>	<a href="https://wirral-consult.objective.co.uk/file/5677507">https://wirral-consult.objective.co.uk/file/5677507</a>	
1249116	LPIO-25925		We broadly agree with the proposed vision but reference is only made to providing new homes specifically in Birkenhead. Reference should be made to new homes being provided across the Borough as part of an appropriate option which includes Green Belt release in sufficient quantities to effectively meet the Borough's genuine housing needs.	<a href="https://wirral-consult.objective.co.uk/file/5674092">https://wirral-consult.objective.co.uk/file/5674092</a>	<a href="https://wirral-consult.objective.co.uk/file/5674093">https://wirral-consult.objective.co.uk/file/5674093</a>	<a href="https://wirral-consult.objective.co.uk/file/5674095">https://wirral-consult.objective.co.uk/file/5674095</a>	<a href="https://wirral-consult.objective.co.uk/file/5674096">https://wirral-consult.objective.co.uk/file/5674096</a>	<a href="https://wirral-consult.objective.co.uk/file/5684833">https://wirral-consult.objective.co.uk/file/5684833</a>	<a href="https://wirral-consult.objective.co.uk/file/5684836">https://wirral-consult.objective.co.uk/file/5684836</a>

1249116	LPIO-25966 1 OF 2		We broadly agree with the proposed vision but reference is only made to providing new homes specifically in Birkenhead. Reference should be made to new homes being provided across the Borough as part of an appropriate option which includes Green Belt release in sufficient quantities to effectively meet the Borough's genuine housing needs.	<a href="https://wirral-consult.objective.co.uk/file/5675698">https://wirral-consult.objective.co.uk/file/5675698</a>	<a href="https://wirral-consult.objective.co.uk/file/5675693">https://wirral-consult.objective.co.uk/file/5675693</a>	<a href="https://wirral-consult.objective.co.uk/file/5675700">https://wirral-consult.objective.co.uk/file/5675700</a>	<a href="https://wirral-consult.objective.co.uk/file/5675692">https://wirral-consult.objective.co.uk/file/5675692</a>			
1249116	LPIO-25966 2 OF 2		We broadly agree with the proposed vision but reference is only made to providing new homes specifically in Birkenhead. Reference should be made to new homes being provided across the Borough as part of an appropriate option which includes Green Belt release in sufficient quantities to effectively meet the Borough's genuine housing needs.	<a href="https://wirral-consult.objective.co.uk/file/5675697">https://wirral-consult.objective.co.uk/file/5675697</a>	<a href="https://wirral-consult.objective.co.uk/file/5675694">https://wirral-consult.objective.co.uk/file/5675694</a>	<a href="https://wirral-consult.objective.co.uk/file/5675696">https://wirral-consult.objective.co.uk/file/5675696</a>				
1249116	LPIO-26026		We broadly agree with the proposed vision but reference is only made to providing new homes specifically in Birkenhead. Reference should be made to new homes being provided across the Borough as part of an appropriate option which includes Green Belt release in sufficient quantities to effectively meet the Borough's genuine housing needs.	<a href="https://wirral-consult.objective.co.uk/file/5684802">https://wirral-consult.objective.co.uk/file/5684802</a>	<a href="https://wirral-consult.objective.co.uk/file/5684835">https://wirral-consult.objective.co.uk/file/5684835</a>	<a href="https://wirral-consult.objective.co.uk/file/5677041">https://wirral-consult.objective.co.uk/file/5677041</a>	<a href="https://wirral-consult.objective.co.uk/file/5677037">https://wirral-consult.objective.co.uk/file/5677037</a>	<a href="https://wirral-consult.objective.co.uk/file/5684804">https://wirral-consult.objective.co.uk/file/5684804</a>		
1249116	LPIO-26060 1 OF 2		We broadly agree with the proposed vision but reference is only made to providing new homes specifically in Birkenhead. Reference should be made to new homes being provided across the Borough as part of an appropriate option which includes Green Belt release in sufficient quantities to effectively meet the Borough's genuine housing needs.	<a href="https://wirral-consult.objective.co.uk/file/5674240">https://wirral-consult.objective.co.uk/file/5674240</a>	<a href="https://wirral-consult.objective.co.uk/file/5684832">https://wirral-consult.objective.co.uk/file/5684832</a>	<a href="https://wirral-consult.objective.co.uk/file/5674256">https://wirral-consult.objective.co.uk/file/5674256</a>	<a href="https://wirral-consult.objective.co.uk/file/5684834">https://wirral-consult.objective.co.uk/file/5684834</a>	<a href="https://wirral-consult.objective.co.uk/file/5684837">https://wirral-consult.objective.co.uk/file/5684837</a>		
1249271	LPIO-26118 (1 of 3)		The delivery of housing is barely mentioned the Vision. The economic growth and prosperity which the Council seek should be coupled with the provision of new homes, in order to deliver truly sustainable development.	<a href="https://wirral-consult.objective.co.uk/file/5677493">https://wirral-consult.objective.co.uk/file/5677493</a>	<a href="https://wirral-consult.objective.co.uk/file/5678242">https://wirral-consult.objective.co.uk/file/5678242</a>	<a href="https://wirral-consult.objective.co.uk/file/5684854">https://wirral-consult.objective.co.uk/file/5684854</a>	<a href="https://wirral-consult.objective.co.uk/file/5678236">https://wirral-consult.objective.co.uk/file/5678236</a>	<a href="https://wirral-consult.objective.co.uk/file/5678244">https://wirral-consult.objective.co.uk/file/5678244</a>	<a href="https://wirral-consult.objective.co.uk/file/5677494">https://wirral-consult.objective.co.uk/file/5677494</a>	<a href="https://wirral-consult.objective.co.uk/file/5685010">https://wirral-consult.objective.co.uk/file/5685010</a>
1249271	LPIO-26118 (2 of 3)		The delivery of housing is barely mentioned the Vision. The economic growth and prosperity which the Council seek should be coupled with the provision of new homes, in order to deliver truly sustainable development.	<a href="https://wirral-consult.objective.co.uk/file/5677492">https://wirral-consult.objective.co.uk/file/5677492</a>	<a href="https://wirral-consult.objective.co.uk/file/5678239">https://wirral-consult.objective.co.uk/file/5678239</a>	<a href="https://wirral-consult.objective.co.uk/file/5678247">https://wirral-consult.objective.co.uk/file/5678247</a>	<a href="https://wirral-consult.objective.co.uk/file/5684889">https://wirral-consult.objective.co.uk/file/5684889</a>	<a href="https://wirral-consult.objective.co.uk/file/5678241">https://wirral-consult.objective.co.uk/file/5678241</a>	<a href="https://wirral-consult.objective.co.uk/file/5678248">https://wirral-consult.objective.co.uk/file/5678248</a>	<a href="https://wirral-consult.objective.co.uk/file/5677491">https://wirral-consult.objective.co.uk/file/5677491</a>
1249271	LPIO-26118 (3 of 3)		The delivery of housing is barely mentioned the Vision. The economic growth and prosperity which the Council seek should be coupled with the provision of new homes, in order to deliver truly sustainable development.	<a href="https://wirral-consult.objective.co.uk/file/5678243">https://wirral-consult.objective.co.uk/file/5678243</a>	<a href="https://wirral-consult.objective.co.uk/file/5678240">https://wirral-consult.objective.co.uk/file/5678240</a>	<a href="https://wirral-consult.objective.co.uk/file/5677490">https://wirral-consult.objective.co.uk/file/5677490</a>	<a href="https://wirral-consult.objective.co.uk/file/5678246">https://wirral-consult.objective.co.uk/file/5678246</a>	<a href="https://wirral-consult.objective.co.uk/file/5678238">https://wirral-consult.objective.co.uk/file/5678238</a>		
1249269	LPIO-26143		Generally support the Spatial Vision but there is no reference to the delivery of homes other than in Birkenhead, which does not have the land available to meet the Borough's housing needs, particularly for families and couples who aspire to live in suburban areas rather than high density apartments and flats and does not align with Strategic Objective 7.		<a href="https://wirral-consult.objective.co.uk/file/5675699">https://wirral-consult.objective.co.uk/file/5675699</a>					
1249263	LPIO-26169		The delivery of housing is barely mentioned the Vision. The economic growth and prosperity which the Council seek should be coupled with the provision of new homes, in order to deliver truly sustainable development.	<a href="https://wirral-consult.objective.co.uk/file/5684852">https://wirral-consult.objective.co.uk/file/5684852</a>						
1249309	LPIO-26191	yes								
1249315	LPIO-26199	yes								
1249320	LPIO-26212	yes								
1249321	LPIO-26226	no	I disagree with the growth and housing need projections. I agree with regenerating Birkenhead and Wirral Waters.							
1247414	LPIO-26238	no								
1249743	LPIO-26360		We agree with the proposed visions in principle but do not agree that they can be suitably achieved under the strategy that is set out within the Issues and Options Document. It is assumed that 'new homes to meet our housing needs' refers to meeting Wirral's housing requirement during the plan period in line with the latest available evidence. The current strategy to direct the vast majority of housing in Wirral towards Birkenhead and Wirral Waters will not meet Wirral's housing needs in full. There also needs to be a significant uplift in respect of the overall housing requirement to align with actual population changes and employment land requirements in Wirral. The Spatial Vision needs to set the tone in respect of meeting housing needs for all residents in Wirral, which requires not only ensuring that a sufficient quantum of housing is delivered but that the right type of housing is delivered in the right location to meet specific requirements such as affordable housing, high quality family housing where a deficit exists and homes for elderly people.	<a href="https://wirral-consult.objective.co.uk/file/5684858">https://wirral-consult.objective.co.uk/file/5684858</a>						

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; If Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1249746	LPIO-26394		We support the Spatial Vision for Wirral in so far as it goes, but consider that it is deficient in that it does not currently make adequate reference to housing. The single reference to meeting housing needs is as part of the regeneration of Birkenhead. We suggest that the vision should be modified to reflect the Government's objective to significantly boost the supply of housing in general and that it should commit to satisfying the size, type and tenure of housing needed for different groups in the community. This would complement Strategic Objective 7. It should also commit to achieving a high quality of residential environment, protecting residential amenity and providing access to a network of open spaces. We would also expect the Spatial Vision to refer to the proposed Settlement Hierarchy within which the Council intends to identify a single major urban area to the east of the M53 Motorway, taking account of the difference between this area and the more commuter-based urban settlements to the west of the motorway.	<a href="https://wirral-consult.objective.co.uk/file/5683633">https://wirral-consult.objective.co.uk/file/5683633</a>	<a href="https://wirral-consult.objective.co.uk/file/5683637">https://wirral-consult.objective.co.uk/file/5683637</a>	<a href="https://wirral-consult.objective.co.uk/file/5683635">https://wirral-consult.objective.co.uk/file/5683635</a>	<a href="https://wirral-consult.objective.co.uk/file/5683638">https://wirral-consult.objective.co.uk/file/5683638</a>	<a href="https://wirral-consult.objective.co.uk/file/5683639">https://wirral-consult.objective.co.uk/file/5683639</a>	<a href="https://wirral-consult.objective.co.uk/file/5683636">https://wirral-consult.objective.co.uk/file/5683636</a>	<a href="https://wirral-consult.objective.co.uk/file/5683657">https://wirral-consult.objective.co.uk/file/5683657</a>
1249782	LPIO-26421		Whilst we are supportive of the general principles of the Vision, which seeks to promote urban regeneration, sustainability and economic prosperity, the Vision is very much focused on Birkenhead and its surrounding area. Whilst we note that the regeneration of this area is at the top of the Local Plan agenda, we have explained throughout these representations that development in this area alone will not be able to meet emerging housing requirements. It is notable that the Vision does not make reference to a number of other areas of the Borough, which could lead to these areas being overlooked for much needed growth. In short, the vision of the plan needs to encompass the housing needs of the entire Borough as a whole. We also recommend that in line with our earlier comments, the plan period should be extended to at least 20 years, therefore beyond 2035 as currently suggested.	<a href="https://wirral-consult.objective.co.uk/file/5683892">https://wirral-consult.objective.co.uk/file/5683892</a>						
1249219	LPIO-26460		The vision is an excellent one. We are looking to see how the final plan proposes to deliver this challenging vision.	<a href="https://wirral-consult.objective.co.uk/file/5677529">https://wirral-consult.objective.co.uk/file/5677529</a>	<a href="https://wirral-consult.objective.co.uk/file/5677528">https://wirral-consult.objective.co.uk/file/5677528</a>					
1240932	LPIO-26596	no	No, we do not support the Council's vision due to concerns about its deliverability. We broadly support elements of the Council's proposed Spatial Vision and importantly, share the Council's ambition to see a Local Plan which shapes a healthy, sustainable and prosperous Wirral. Other elements of the Council's Vision mirror our Vision as outlined in the attached Vision Document. However, we are concerned about the deliverability of the Council's Local Plan Vision. Our vision for the development of our landholding is deliverable and unlocks strategic transport, landscape and economic opportunities to enhance Wirral as a whole, both now and in the longer-term. We also note the Council's Vision makes no mention of the rural Wirral or indeed anywhere in the Borough outside of the narrow urban corridor to the east of the M53. We therefore recommend that the Vision is amended to give greater recognition of the development needs of the wider Wirral.	<a href="https://wirral-consult.objective.co.uk/file/5683689">https://wirral-consult.objective.co.uk/file/5683689</a>	<a href="https://wirral-consult.objective.co.uk/file/5682697">https://wirral-consult.objective.co.uk/file/5682697</a>	<a href="https://wirral-consult.objective.co.uk/file/5682701">https://wirral-consult.objective.co.uk/file/5682701</a>				
1245180	LPIO-2665	no	, I do not agree with Council's projections.							
1237961	LPIO-26688	no	The Gayton Parkway site and our client's position in respect of the Local Plan consultation The Vision Document clearly shows the site offering a natural extension to Heswall, with limited impact on openness; the site no longer performs Green Belt functions, and with a willing developer and single landownership it is altogether available, suitable, viable and ultimately deliverable and developable in the Local Plan period.	<a href="https://wirral-consult.objective.co.uk/file/5685069">https://wirral-consult.objective.co.uk/file/5685069</a>	<a href="https://wirral-consult.objective.co.uk/file/5685068">https://wirral-consult.objective.co.uk/file/5685068</a>

1250067	LPIO-27382	yes								

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; if Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1245073	LPIO-2899	yes	The vision stated in the blue box the full Issues and Options Document (page 45) appears to be different from that set out in bullets in the simplified Consultation Questionnaire (page 7)? Assuming you are referring to the blue box on page 45 of the full Issues and Options Document, yes, I agree, providing that a realistic target is set for housing needs, and there is no release of Green Belt for building.							
1244896	LPIO-2921	no	The Vision is incomplete and not yet credible, being backed by insufficiently complete and robust evidence. See attached document.	<a href="https://wirral-consult.objective.co.uk/file/5677098">https://wirral-consult.objective.co.uk/file/5677098</a>						
1245159	LPIO-2967	yes								
1245287	LPIO-3083	yes	Landscape design will play a vital role in delivery, so landscape designers and ecologists should be at the heart of the delivery team.							
1238645	LPIO-3091	yes	I agree with the vision, however it should state that all plans should be made whilst considering the climate emergency and the aims to be carbon neutral. Brownfield regeneration should be considered as any first option.							
1239492	LPIO-316	yes								
1237904	LPIO-3173	no	As previously said, I do not agree with Council's projections							
1245158	LPIO-3223	yes								
1245346	LPIO-3256	no	I agree on the brownfield first approach, I do not agree with including any greenbelt release. • The local plan must make it clear that all plans, proposals and decisions will be in-line with the climate emergency, Wirral's carbon budget and carbon reduction pathway. • The Vision and spatial planning objectives should reflect the social role of planning in supporting strong, vibrant and healthy communities, and tackling inequalities. • The pursuit of economic growth must cease to be an automatic aim of human societies. We should instead aim to develop sustainable, circular economies, which improve well-being focused on human values rather than consumerism.							
1241315	LPIO-3262	no	As previously said, I do not agree with Council's projections.							
1245416	LPIO-3363	yes								
1238156	LPIO-34	no	I am happy to support much of the Vision and the associated Objectives as outlined - just as I am happy to call Wirral my home. There are targets here to aim for. But this is ambitious, and where it comes to regeneration vulnerable in particular to the dominant influence of Peel Holdings and their plans and progress, and the plans of the other local authorities in our Region. I would like to see more detail on how the objectives will be underpinned to ensure as much of the Vision as possible can be realised in the context of the competitive and market economy we live in before I can tick "Yes!" to question 3.1 - which I would then be keen to do.							
1238549	LPIO-346	yes								
1245437	LPIO-3508	no	Recalculate housing projections, and use only brown belt to develop when lower realistic housing needs become evident.							
1245451	LPIO-3545	yes								
1245462	LPIO-3619	yes								
1245288	LPIO-3709	yes								
1245457	LPIO-3760	yes	This is exactly what the Council should be working towards. Most of it can be achieved without using green belt land, but nowhere is there a commitment to spell this out clearly. I don't like the comment about 'green corridors'.							
1237827	LPIO-3778	yes	Absolutely the right thing to do.							
1240653	LPIO-3914	yes								
1241770	LPIO-3915	yes								
1245498	LPIO-3930	yes	building on greenbelt would be contradictory to this vision							
1245501	LPIO-4006	yes	However, allowing development of green field sites, selling off and rezoning of agricultural areas and site of scientific and historical interest will work directly against the overall vision to ensure Wirral has strong sense of place and identity. It will be a place that people are proud to call home and want to invest in.							
1240939	LPIO-4112	yes								
1245638	LPIO-4223	no	As previously said, I do not agree with Council's projections.							
1238379	LPIO-429	no	I do not agree with the Council's projections.							
1245153	LPIO-4346	yes								
1244629	LPIO-4522	no	I do not agree with Council's projections on housing and cannot understand why the Council is not challenging the government methodology, it is almost as if the Council had another agenda which is hidden in this document and does not want to deviate from their hidden agenda.							
1237667	LPIO-4536	yes								

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; if Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1244720	LPIO-4601	yes								
1237696	LPIO-4686	no	Insufficient acknowledgement of the areas heritage and tourist potential.							
1242528	LPIO-476	no	this is deliberately too long and too complicated to have many people comment on it							
1237873	LPIO-4825	no	As previously said, I do not agree with Council's projections.							
1245794	LPIO-4904	yes	Excellent Vision. Will give 100% support to a credible, resourced Plan to deliver it.							
1243171	LPIO-4947	yes								
1241327	LPIO-4963	yes								
1245713	LPIO-5003	no	No do not include greenbelt sites							
1237923	LPIO-5048	no	I do not agree with the projections made by the council							
1237567	LPIO-5186	no	Our Client disagrees with the Vision and proposes that it should specifically recognise the value of brownfield land in meeting the needs of the area.	<a href="https://wirral-consult.objective.co.uk/file/5658055">https://wirral-consult.objective.co.uk/file/5658055</a>	<a href="https://wirral-consult.objective.co.uk/file/5669873">https://wirral-consult.objective.co.uk/file/5669873</a>					
1245496	LPIO-5199	no	I do not agree with the council's projections.							
1239571	LPIO-5252	yes								
1242372	LPIO-5312	yes								
1240383	LPIO-5418	yes	The vision is excellent and the expected delivery should be too							
1242947	LPIO-547	yes								
1245954	LPIO-5492	yes								
1245607	LPIO-5500	yes								
1246041	LPIO-5546	yes								
1246159	LPIO-5591	yes								
1241661	LPIO-5648	no	I agree with the brownfield first approach. <ul style="list-style-type: none"> <li>• All plans, proposals and decisions will be in-line with the climate emergency, Wirral's carbon budget and carbon reduction pathway.</li> <li>• The Vision and spatial planning objectives should reflect the social role of planning in supporting strong, vibrant and healthy communities, and tackling inequalities</li> <li>• The pursuit of economic growth must cease to be an automatic aim of human societies. Specific references to the pursuit of economic growth as an aspiration should be removed. We should instead aim to develop sustainable, circular economies, which improve well-being focused on human values rather than consumerism.</li> </ul>							
1245767	LPIO-5849	yes	Yes I do. However, opening up the Green Belt for development is both unnecessary and contra to much of the Vision.							
1246303	LPIO-5875	no	I agree that the preferred option for urban regeneration is valid, but do not condone the use of any greenbelt till this is done. I do not accept that a large single development, removing valid agricultural land can be justified.							
1246310	LPIO-5919	no	As previously said, I do NOT agree with Council's projections.							
1242751	LPIO-593	no	As previously said, I do not agree with Council's projections.							
1246342	LPIO-6006	yes	Except only limited regeneration needed now in New Brighton preserving Green Spaces.							
1246339	LPIO-6102	yes								
1238310	LPIO-6131	no	The vision cannot be achieved by pursuing an unrealistic 12000 home target and by releasing greenbelt. The word sustainability is prominent through the vision statement and NPPF. The included greenbelt options are not sustainable development patterns. They have a negative impact on the 12 objectives of the vision. WBC cannot build an achievable vision on general statistical input that does not apply to the Wirral. WBC must use researched Wirral specific data as a solid foundation for the vision. WBC's good environmental, heritage and climate change policies that are part of the vision are being overridden by WBC obsession with the 12000 homes figure. The vision for regeneration is being undermined as developers wait for prime greenbelt sites to be released. The lack of confidence WBC is showing in challenging the 12000 figure is having negative repercussions for that vision. WBC must set a realistic vision based on fact to build sustainable communities not meet statistical targets at any cost. WBC has set good objectives. They need to make the right decisions to achieve them. WBC must Challenge the standard method calculation number. WBC must give more time to properly collate and apply the information they need to provide a considered plan WBC should delay the issue of the draft plan.							
1240964	LPIO-6165	yes								
1246161	LPIO-6224	yes	Yes. The vision represents an accurate reflection of where Wirral should embrace opportunities available and address the challenges that have been described. We welcome the inclusion of the need for a 'Healthy' future for Wirral.							

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; if Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1246372	LPIO-6235	yes	Please have dedicated cycle lanes leading to the train stations for example from Liscard to Birkenhead north over the Wallasey Bridge road.							
1245086	LPIO-6271		I broadly agree with the proposed Vision - much of it is very laudable but the housing projections in particular need to be challenged. There is no need for 12000 new homes. Also we need to go further to curb our carbon emissions than current guidelines - this will not be enough to prevent a climate catastrophe.							
1244729	LPIO-6310	no	If the Wirral Council release the Green Belt for building, what is the point of having Green Belt? Such a move would be very detrimental to the whole Wirral for generations to come and irreversibly and adversely affect the landscape. The Wirral Council would have failed in their duty to look after the area and local residents. Wirral Council would be guilty of despoiling the region for the future.							
1239535	LPIO-6327	yes								
1246393	LPIO-6344	yes								
1246410	LPIO-6404	yes								
1246402	LPIO-6405	no	I don't agree or believe in the Council's Projections.							
1246415	LPIO-6426	yes								
1246419	LPIO-6485	yes								
1246420	LPIO-6509	yes	*Protect our environmental and heritage assets* You have said this in your vision - Please have this at the forefront of any Plan.							
1246421	LPIO-6520	yes								
1241723	LPIO-6557	yes	I agree on the brownfield first approach but I do not agree with including any greenbelt release. I would like the local plan to make it clear that all plans, proposals and decisions will be in-line with the climate emergency, Wirral's carbon budget and carbon reduction pathway. (Cool2 objectives). The Vision and spatial planning objectives should reflect the social role of planning in supporting strong, vibrant and healthy communities, and tackling inequalities. The pursuit of economic growth must cease to be an automatic aim of human societies. We have a planet of finite resources. We should instead aim to develop sustainable, circular economies, which improve well-being focused on human values rather than consumerism.							
1246348	LPIO-6589	no	We've all heard about these visions before. The council needs to manage what it's got apart from those obvious areas that need regeneration. Previous so-called visions - the Hoylake golf development - hopefully never to see the light of day. Chinese development for the International Conference Centre or was it a Rolls Royce engine plant something like that a few years ago. The Hong Kong company which was funding this vision went bankrupt but not before Wirral councillors had a few jollies out of it - trips to China and France and spent in both cases millions of pounds of council tax payers' money. It's time they had a good realistic look at what needs to be done, i.e. New Ferry. Amazing how WBC were prepared to lend the developer of Hoylake golf development £26,000,000 until the balance of the council changed and yet ignore New Ferry. Again, these visions based on false premise of 12,000 houses.							
1246435	LPIO-6623	yes								
1245286	LPIO-6640	yes								
1237647	LPIO-665	yes								
1246438	LPIO-6658	yes								
1241910	LPIO-6675		Misleading - you cannot declare a climate emergency and then build 12,000 homes.							
1243420	LPIO-6690	yes								
1241096	LPIO-6691	yes	Improving Wirral as a whole by developing brownfield sites for housing and economic growth is important. Achieving urban regeneration, alleviating social, economic and environmental disparities while at the same time protecting environmental assets and combatting the climate emergency are all worthwhile and important objectives.	<a href="https://wirral-consult.objective.co.uk/file/5684262">https://wirral-consult.objective.co.uk/file/5684262</a>	<a href="https://wirral-consult.objective.co.uk/file/5661944">https://wirral-consult.objective.co.uk/file/5661944</a>					
1246441	LPIO-6714	yes								
1246445	LPIO-6734	yes								
1246447	LPIO-6762	no								
1246452	LPIO-6781	no								
1246455	LPIO-6798	yes								
1246401	LPIO-6922	no	No, for reasons stated earlier in this consultation response. The methodology is flawed. The Council needs to return to the drawing board and reassess its numbers and consult with local people.							
1246482	LPIO-7017	no								
1246456	LPIO-7065	yes								
1246486	LPIO-7084	no								

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; If Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1246488	LPIO-7116		As previously said, I do not agree with Council's projections.							
1246495	LPIO-7141	yes								
1246501	LPIO-7159	no	I agree only with the brownfield approach. No Greenbelt release, I agree with Wirral Waters Objective.							
1246504	LPIO-7179	no								
1244604	LPIO-7198		Very difficult to say; whilst the Councils says 800, "other parties" say it should be 300? When you look at the Government methodology on the "standard method" (online) there are about 20 pages - VERY DIFFICULT TO UNDERSTAND BY THE NON-EXPERT.							
1244604	LPIO-7209	yes								
1246515	LPIO-7243	yes								
1238102	LPIO-7293	yes								
1246524	LPIO-7319	no								
1241958	LPIO-739	yes								
1246545	LPIO-7397	yes								
1237978	LPIO-7417	yes								
1246549	LPIO-7434	yes								
1246550	LPIO-7450		It is too simplistic for me to say yes or no. Stronger commitment must be shown in the "Vision" to protecting the Green belt, evidence that calculations on housing needs meet the needs of the population, such as accurate calculation of number of residents.							
1246551	LPIO-7475	no	In response to Q3.1 the Wirral Local Plan should go further to seek to address the challenge of the shortfall of deliverable and developable urban sites on which to bring forward new homes by re-allocating the particular site which is achievable to supply deliverable land that can provide 100% affordable homes to the Borough. The Local Plan should highlight an opportunity to deliver residential development within the existing urban area as a priority for the Borough so as to ensure the vision of meets the issue of housing growth for Wirral.	<a href="https://wirral-consult.objective.co.uk/file/5679667">https://wirral-consult.objective.co.uk/file/5679667</a>						
1240932	LPIO-7605	no	No, Our Client does not support the Vision due to concerns about its deliverability. Our Client broadly supports elements of the Vision and importantly, shares the Council's ambition to see a Local Plan which shapes a healthy, sustainable and prosperous Wirral. Other elements of the Council's Vision mirror Our Client's Vision for the development of the Estate outlined in our accompanying Vision Document. The Council cites a number of challenges at paragraph 3.5 of the consultation document which cast serious doubt over the Vision's deliverability. These include the shortage of deliverable and developable urban and brownfield sites on which to bring forward new homes; the challenging viability environment; high-level infrastructure capacity constraints and the availability of government funding to assist in overcoming constraints to development. These representations and their supporting reports identify these concerns and raise a number of other significant issues which would impact the deliverability of the Council's Vision. Our Client's Vision for the development of its Estate is deliverable and throughout its history the Estate has a strong track record of successfully developing some of Wirral's most notable places. As outlined in the accompanying Vision Document, our offer takes an Estate-wide approach which can deliver much-needed new homes and uniquely, uses our significant landholding to unlock strategic transport, landscape and economic opportunities to enhance Wirral as a whole, both now and in the longer-term. Our Client also notes that the Council's Vision makes no mention of rural Wirral or indeed anywhere in the Borough outside of the narrow urban corridor to the east of the M53. Our Client therefore recommends that the Vision be amended to give greater recognition of the development needs of the wider Wirral. Please refer to paragraphs 4.1 to 4.5 of our full representations for our more detailed response to this question.	<a href="https://wirral-consult.objective.co.uk/file/5683689">https://wirral-consult.objective.co.uk/file/5683689</a>	<a href="https://wirral-consult.objective.co.uk/file/5682697">https://wirral-consult.objective.co.uk/file/5682697</a>	<a href="https://wirral-consult.objective.co.uk/file/5682701">https://wirral-consult.objective.co.uk/file/5682701</a>				
1246581	LPIO-7638	yes								
1243342	LPIO-769	yes								
1246592	LPIO-7700	no	The vision does not go far enough and should state that there will be NO development on greenbelt, no exceptions. The flood risk vision also does not go far enough, I do not consider that sufficient account of historic flooding issues in Greasby has been taken into account, particularly with regard to any suggestion that the Greenhouse farm site should be developed which would have a catastrophic impact on future flood risk in Arrowe Road.							
1240903	LPIO-7723	no	Five of the twelve sites allocated for potential development are in Irby. This is totally disproportionate and will have a massive environmental impact on the area. This is the largest of the 5 sites with up to 1100 houses. The consequent increase of potentially 2000+ residents on this site alone, the resulting noise, traffic and air pollution impact of their cars together with all the other effects of a huge housing estate will have a massive detrimental environmental impact on this small village. This site also borders Horrock Wood, an SSSI, which will be severely impacted, and the wildlife habitats on the site will be destroyed.							
1246594	LPIO-7767	no	As previously said, I do not agree with Council's projections							
1245690	LPIO-7882	yes								
1246591	LPIO-7887	yes	The comment I would make relates to this phrase: "significant contribution to the economic competitiveness of the Liverpool City Region." It does not capture the fact that many Wirral residents make a contribution to the economy outside of the LCR from their Wirral base							

Person ID	ID	Question 3.1 - Do you agree with our proposed Vision?	Question 3.1a - If No, please explain what you would change or suggest an alternative vision; If Yes, you can make comments here:	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6	Attachment 7
1246596	LPIO-7983	yes								
1246523	LPIO-8018	yes	On general terms it seems fine but the prof will only become clear as this process develops							
1246605	LPIO-8129	no	As previously said, I do not agree with Council's projections							
1246598 (Hoylake Vision)	LPIO-8167	yes								
1239029	LPIO-821	yes	Some but not all							
1246612	LPIO-8285	yes	I do support the vision and overall plans for regeneration and development of Birkenhead and surrounding area. I also like the fact that at no point it suggests that you want to lose/use any greenbelt I, again, question your figures as to housing need, as it is these that are allowing you to even question the need for greenbelt development. Getting these projections correctly lowered now is essential as it is only by doing this can you focus on your vision.							
1237882	LPIO-8322	no	I disagree with WBC housing need projections.							
1244670	LPIO-8433	no	You have got the figures wrong, this needs another look at considering the impact of Brexit and now Covid 19							
1243448	LPIO-854	no	In general I do agree but I disagree with some of the details. For example, WBC states that it wants to be environmentally friendly and reduce its carbon footprint and yet it still has not excluded greenbelt sites in its development plan. Green spaces offset tones of carbon production and hugely contribute to a clean environment and a healthier and happier population. Greenbelt should NEVER be built on. I also disagree with the forecast of population growth and the future increased demand for employment from a very elderly population.							
1241852	LPIO-8544	yes								
1237832	LPIO-8605	yes								
1240872	LPIO-8611	no	The east bank should omit towns and villages below Bebington. These do not need further development. Remove Wirral from the LCR, its damaging and not to Wirrals benefit. If these are the visions to be taken forward then you must place special value on sites that provide green corridors or access to the open countryside which is essential for wildlife. Rather than cut off Eastham woods, Dibbendsdale nature reserve, Brotherton park these areas and the green corridors around them must be given extra protection.							
1246631	LPIO-8690	yes								
1246544	LPIO-8742	yes	I agree with brownfield development first, but not that greenfield sites should be considered for development. Greater emphasis should be placed on consideration by the plan of the Climate Emergency, and progress towards meeting carbon-emission targets. All planning and design must aim to deliver strong, healthy communities. Employment focus needs to be on creating a more circular economy. Constant growth is not sustainable.							
1246202	LPIO-8762	yes								
1245787	LPIO-8763	no	For the most part I do agree with the vision, however it is rather generic in the picture it paints and it doesn't embrace the fundamental character of the peninsula proud of its coastline and estuaries, its port-centred industries, it's out looking progressive links with the world for trade and an innovator in sustainable development and renewables. It doesn't mention the health of nature or our rich cultural heritage when talking about quality of life.							
1245034	LPIO-8813	yes								
1237807	LPIO-8870	yes	It is difficult to disagree with such a cliché-ridden vision that may perhaps be better described a a pious hope. Given the Council's appalling track record on preserving its Heritage Assets - Hamilton Square is a case in point then it does not bode well for its Vision. Although Liverpool is mentioned, Chester too as its part to play in heritage tourism.							
1246651	LPIO-8952		I agree on the Brownfield first approach, I do NOT agree with including any green belt release. The local plan must make it clear that all plans, proposals and decisions will be in line with the Climate Emergency, Wirral's carbon budget and carbon reduction pathway. The Vision and spatial planning objectives should reflect the social role of planning in supporting strong vibrant and healthy Communities and tackling inequalities. The Pursuit of economic growth must cease to be an automatic aim of human societies. In charge we should instead aim to develop sustainable circular economies which improve well-being focused on human Values rather than consumerism.							
1237724	LPIO-8961	no	Whilst the vision was inspiring at the time it was conceived it has sadly been overtaken by events and need revising in the light of imminent downturn in the economy and altered priorities.							
1246666	LPIO-8987	yes								
1246671	LPIO-9095	yes								
1246672	LPIO-9142	yes								
1246624	LPIO-9203	yes	However, I have issue with some of your projections
