

Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan?	Question 8.15a - If you answered No, what would you change and why? Do you have an alternative approach? If Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1246747	LPIO-10276	yes	Do not build on the greenbelt!						
1244412	LPIO-1059	no	using unrealistically high housing demand numbers and proposing to build on open green spaces to a level that isnt needed is not ensuring he health and well being of residents. Everyone needs access to green and open spaces for their physical and mental well being.						
1246724	LPIO-10608	yes	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1241065	LPIO-10629	no	That the car is no longer an appropriate form of transport. See Department of Transport's Decarbonising Transport: Setting the Challenge.						
1246544	LPIO-10649	yes	But any building on green belt, bringing with it increased car use, would not be conducive to health and well-being						
1241337	LPIO-10653	yes	Health and wellbeing of a community's residents should be paramount to our Council. Building on green belt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1246242	LPIO-11004		By allowing building on Green Belt the Council will be guilty of reducing the well being of residents. We all need these green and open spaces.						
1243890	LPIO-1149	yes							
1247196	LPIO-11625		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247015	LPIO-11871		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247214	LPIO-12458		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247492	LPIO-12560		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1240843	LPIO-12716		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247578	LPIO-12915		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247510	LPIO-13040		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1246335	LPIO-13178		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1246578	LPIO-13343		Health and wellbeing has been highlighted by Covid 19. At times like these our countryside (including areas such as Storeton in which I live) plays a vital role in our health. Greenbelt areas with footpaths and public access have been essential in allowing exercise and fresh air to those from the urban areas.						
1246853	LPIO-13431		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1246852	LPIO-13557		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247746	LPIO-13712		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						

Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan? Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1238192	LPIO-13820		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247012	LPIO-13874		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247014	LPIO-13928		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1244681	LPIO-1395	yes	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1242183	LPIO-14029		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247218	LPIO-14124		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247219	LPIO-14228		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1244900	LPIO-1430	yes							
1247220	LPIO-14325		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247222	LPIO-14453		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247226	LPIO-14543		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247245	LPIO-14641		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1246827	LPIO-14759		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247016	LPIO-14864		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247018	LPIO-14934		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1243700	LPIO-1525	yes	Regard to the health and well being of residents, particularly the vulnerable members of our society, is a principle duty of the Council. A major weakness in the Council's strategy is the scant regard taken to air quality and in particular the effect of noxious gases from traffic. Flats are being built in Heswall that do not have any amenity space for residents are less than five steps away from a public car park and ten steps from a road junction which constantly has standing traffic. Nice words don't make good plans!						
1247246	LPIO-15379		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247248	LPIO-15509		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247251	LPIO-15601		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						

Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan?	Question 8.15a - If you answered No, what would you change and why? Do you have an alternative approach? If Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247252	LPIO-15688		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1244901	LPIO-1572	yes	Current green spaces should be protected from development in order that the local community and visitors can enjoy the natural habitat and enhance mental and physical wellbeing and health.						
1247274	LPIO-15792		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247275	LPIO-15946		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247936	LPIO-16060		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247287	LPIO-16254		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247344	LPIO-16342		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247349	LPIO-16429		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247353	LPIO-16518		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247354	LPIO-16612		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247436	LPIO-16820		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247935	LPIO-16949		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247437	LPIO-17016		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247439	LPIO-17017		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247441	LPIO-17116		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247960	LPIO-17237		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247962	LPIO-17337		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247966	LPIO-17438		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1244969	LPIO-1750	no	The approach is correct but the starting point is wrong. All Green Belt should be retained, it provides many of the solutions which will be required for addressing climate change and improving the health of local residents if a positive management approach is adopted						

Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan?	Question 8.15a - If you answered No, what would you change and why? Do you have an alternative approach? If Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247971	LPIO-17535		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1241726	LPIO-17635		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247979	LPIO-17804		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247980	LPIO-17806		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1245502	LPIO-17931		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1242537	LPIO-18009	yes	We need to ensure that our urban areas are made as green as possible, making them a healthier and more pleasant places to live. Pocket parks, trees and flower beds, community gardening initiatives and allotments should be prioritised in areas where poverty is at its greatest such as Birkenhead, Seacombe and Rock Ferry. Housing stock in these areas to be upgraded and retrofitted to make them carbon zero. Empty houses need to be brought into use. There should be extra community policing to make residents feel more secure and there should be better public transport in these areas.						
1247541	LPIO-18032		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247539	LPIO-18138		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1247983	LPIO-18156	yes	Maintaining and developing green spaces in our urban areas is essential for making them healthy, pleasant places to live. Small parks, trees and flower beds which inspire community gardening and allotments need to be established in poor areas of Birkenhead, Seacombe and Rock Ferry. The Council must upgrade houses and make them carbon zero, bringing empty houses into use. Extra community policing and better public transport should be prioritised in these areas						
1247996	LPIO-18313		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1237857	LPIO-18353		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use. We need to maintain/reduce housing density to increase our resilience during pandemics.						
1247021	LPIO-18415		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247022	LPIO-18469		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247023	LPIO-18524		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247024	LPIO-18579		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247025	LPIO-18674		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						

Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan?	Question 8.15a - If you answered No, what would you change and why? Do you have an alternative approach? If Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247038	LPIO-18675		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247039	LPIO-18795		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247040	LPIO-18796		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247041	LPIO-18868		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1248026	LPIO-18896		This could be very relevant to the redevelopment and reinvigoration of Birkenhead. Strategic Objective 9 highlights the need for the provision and promotion of essential local infrastructure. I see this as key to any developments. What is critical is that any such necessary infrastructure should be built at the same time as the housing developments, rather than be left to a later date. Therefore whether existing schools, primary health care services, etc can cope with new local housing developments should be a precursor to the developments themselves and take into account the likely number and demographic profile of the future residents.						
1247042	LPIO-18935		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247060	LPIO-19040		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247061	LPIO-19041		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.

1247105	LPIO-20666		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						

Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan?	Question 8.15a - If you answered No, what would you change and why? Do you have an alternative approach? If Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247109	LPIO-20736		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247110	LPIO-20827		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247111	LPIO-20828		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1241989	LPIO-20894		Please green our urban areas making them a healthier and more pleasant place to live. Pocket parks, trees and flower beds, community gardening initiatives and allotments to be prioritised in areas where poverty is at its greatest such as Birkenhead, Seacombe and Rock Ferry. Housing stock in these areas to be upgraded and retrofitted to make them carbon zero. Empty houses to be brought into use. Extra community policing to make residents feel more secure. Better public transport in these areas in particular, including trams. Squeeze pocket parks into these areas rather than more housing. These areas shame us all. The quality of life and mental and physical well being of residents is massively affected by the run down housing stock and the general lack of possibilities for contact with nature. Repair recycling and upcycling of resources to be encouraged in these areas in the form of workshops. Seacombe could be a fashion hub where clothes are made from second hand charity shop garments. This could provide employment for a number of residents. All community centres to be upgraded to the standard of same in affluent areas. The difference between a community centre in Seacombe and in Hoylake is enormous. Even the one in New Brighton is small dank and miserable. People without resources deserve bright attractive spaces where they can pass their time. Access to such places should not just be for the affluent. <a href="http://squashliverpool.co.uk/">http://squashliverpool.co.uk/</a> This is an example of the kind of initiative that is needed in Rocky Ferry Seacombe Egremont etc. It is a genuine workers co-op not for profit this is what we need.						
1247112	LPIO-20956		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247113	LPIO-21010		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.

Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan?	Question 8.15a - If you answered No, what would you change and why? Do you have an alternative approach? If Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1248296	LPIO-22794		Empty shops could be turned into green community hubs, for example social supermarkets, repair and recycle/upcycle of clothes and furniture, community cafes and children's play facilities. Further to this, greening our urban areas would make a huge difference to the mental health and wellbeing of local residents. Council workers should be encouraged to continue to work from home, where possible. This would enable them to use their time more productively and reduce their carbon footprint. It would also improve their work life balance and encourage experienced staff to stay within the local government sector.						
1247167	LPIO-22836		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247168	LPIO-22837		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1242519	LPIO-2291	yes	Building on greenbelt and destroying good farmland is NOT conducive to health and wellbeing.						
1247169	LPIO-22932		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247170	LPIO-22933		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1248311	LPIO-23004		Please green our urban areas making them a healthier and more pleasant place to live. Pocket parks, trees and flower beds, community gardening initiatives and allotments to be prioritised in areas where poverty is at its greatest such as Birkenhead, Seacombe and Rock Ferry. Housing stock in these areas to be upgraded and retrofitted to make them carbon zero. Empty houses to be brought into use. Extra community policing to make residents feel more secure. Better public transport in these areas in particular, including trams. Squeeze pocket parks into these areas rather than more housing. These areas shame us all. The quality of life and mental and physical well being of residents is massively affected by the run down housing stock and the general lack of possibilities for contact with nature. Repair recycling and upcycling of resources to be encouraged in these areas in the form of workshops. Seacombe could be a fashion hub where clothes are made from second hand charity shop garments. This could provide employment for a number of residents. All community centres to be upgraded to the standard of same in affluent areas. The difference between a community centre in Seacombe and in Hoylake is enormous. Even the one in New Brighton is small dank and miserable. People without resources deserve bright attractive spaces where they can pass their time. Access to such places should not just be for the affluent. <a href="http://squashliverpool.co.uk/">http://squashliverpool.co.uk/</a> This is an example of the kind of initiative that is needed in Rocky Ferry Seacombe Egremont etc. It is a genuine workers co-op not for profit this is what we need.						
1247173	LPIO-23101		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247174	LPIO-23102		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247175	LPIO-23212		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247176	LPIO-23214		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247177	LPIO-23370		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						

Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan?	Question 8.15a - If you answered No, what would you change and why? Do you have an alternative approach? If Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1247178	LPIO-23371		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1247179	LPIO-23372		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1248376	LPIO-23562		The existing Green Belt is already making an important contribution towards tackling Climate Change, reducing harmful pollution and promoting health and wellbeing through leisure activities and its						
1248376	LPIO-23563		<p>Further measures will include:</p> <ul style="list-style-type: none"> <li>• Increasing tree cover through large scale tree planting;</li> <li>• Encouraging local food production, reducing unnecessary food miles;</li> <li>• Creating and restoring flood plains, protecting homes and businesses from flooding;</li> <li>• Improving wildlife habitats by creating and maintaining wildlife corridors, linking with urban parks and open spaces;</li> <li>• Improving air quality, reducing high incidence of asthma;</li> <li>• Providing further opportunities for recreation.</li> </ul> <p>Climate change, Brexit and now the Coronavirus are all "Exceptional Circumstances" for Wirral to reduce the target. Now, more than ever, we need Green Fields to mitigate against climate change, produce food and for people's health and well being. The Barnston Road site will mean a significant increase of cars in the area, increasing traffic and pollution. We should be investing in the Green Belt as a positive measure of tackling Climate Change and improving the quality of life of all local residents, most particularly those who live in urban areas. We are fortunate to have Green Belt within the Borough and we need to protect and cherish it. It was created specifically to direct development into run-down areas and to prevent further decline: the need for Regeneration remains as evident as ever. Building houses in Green Belt would directly reduce still further the viability of housing in the north and east of the Peninsula, delaying their rejuvenation and improved quality of life. Wirral is the fastest growing visitor destination in the Liverpool City Region and the economic benefits of a Green Belt which creates the landscape background for so many of the visitor attractions must be recognised. Tourism and Leisure are vital to Wirral's Local Economy and Green Belt plays a major role. We cannot afford to lose any. Rather than releasing land from the Green Belt, the social, environmental and economic arguments would all suggest that we should be investing in the management of this Green Space. Priority should be given to the regeneration of the existing urban areas and to protection of farmland and wildlife; and this should be reflected in Planning Policy and the Local Plan by ensuring the continued protection of the Green Belt. I intend sending copies of this letter to my local Councillors and MP for their information.</p> <p>In conclusion, I firmly believe that there should be no building on the green belt anywhere! The Council should reduce their target and concentrate on bringing forward housing on brownfield sites such as Wirral Waters (which already has planning permission for 13000 homes)</p>						
1248411	LPIO-23605		Furthermore, we should be investing in the Green Belt as a positive measure for improving the quality of life of all local residents, and most particularly those who live in urban areas. I am sending copies of this letter of objection to my Local Councillor and to my Member of Parliament						
1245146	LPIO-2361	yes	Essential						
1246401	LPIO-23632		The Green Belt adds significantly to health and well-being and it is greatly prized and appreciated by Wirral residents, visitors and tourists alike.						

Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan?	Question 8.15a - If you answered No, what would you change and why? Do you have an alternative approach? If Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1242185	LPIO-23954		We are pleased to learn that health and well-being is a cross-cutting theme for the Local Plan, and urge the Council to stop needless development of greenspace, farm fields and especially protected Green Belt land, due to the inherent benefits to health and well-being enjoyed by people. Green Belt land is where it needs to be, in proximity to the large populations who live in our urban settlements, towns and cities. There is ever increasing research considering the benefits of access to nature for recreation and leisure and the positive impact to health and well-being. The more recreational routes, and Public Rights of Way, that can be created and protected, so that people may enjoy our natural environment, the better. We need a Local Plan to ensure more people can take advantage of improved health and well-being. Please refer to the extensive report provided on Air Quality & Health issues attached.	<a href="https://wirral-consult.objective.co.uk/file/5659121">https://wirral-consult.objective.co.uk/file/5659121</a>	<a href="https://wirral-consult.objective.co.uk/file/5684263">https://wirral-consult.objective.co.uk/file/5684263</a>	<a href="https://wirral-consult.objective.co.uk/file/5657006">https://wirral-consult.objective.co.uk/file/5657006</a>			
1242697	LPIO-24720		The ideas on pedestrian access, greenspace for leisure and restoration, allotments etc are good. In terms of social interaction, there is no need to force the issue because people join groups and communities, and mainly because people mix with similar people. Social engineering is wrong and unproductive. The Council should focus on the leisure aspects with pedestrian access, walking opportunities, greenspace, parks, and more.	<a href="https://wirral-consult.objective.co.uk/file/5659118">https://wirral-consult.objective.co.uk/file/5659118</a>	<a href="https://wirral-consult.objective.co.uk/file/5659119">https://wirral-consult.objective.co.uk/file/5659119</a>	<a href="https://wirral-consult.objective.co.uk/file/5659120">https://wirral-consult.objective.co.uk/file/5659120</a>	<a href="https://wirral-consult.objective.co.uk/file/5659121">https://wirral-consult.objective.co.uk/file/5659121</a>		
1244826	LPIO-2481	yes	The Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1248749	LPIO-24906		There is a lack of open space and recreation opportunities within Wirral Waters and south/ east Birkenhead where a large proportion of housing allocations are to be located. Given that high density development is proposed and there are viability issues on these sites we are concerned that the appropriate amenities will not be in place/ provided for future residents. This will no doubt impact the health and wellbeing of these residents whilst also causing an even greater divide between the western parts of Wirral and the urban conurbation.	<a href="https://wirral-consult.objective.co.uk/file/5684847">https://wirral-consult.objective.co.uk/file/5684847</a>	<a href="https://wirral-consult.objective.co.uk/file/5684848">https://wirral-consult.objective.co.uk/file/5684848</a>	<a href="https://wirral-consult.objective.co.uk/file/5684845">https://wirral-consult.objective.co.uk/file/5684845</a>			
1248524	LPIO-24917		The health and well-being of Wirral's people is at stake when the Local Plan is prepared. We must plan in a more sustainable way in the future and make sure our air, land, and water are free of pollutants, and that we have enough green infrastructure, including trees and hedgerows to filter contaminants and make the area a healthy place to live, work and visit. Housing should be located close to employment to minimise commuting and pollution, and to encourage cycling and walking.	<a href="https://wirral-consult.objective.co.uk/file/5684261">https://wirral-consult.objective.co.uk/file/5684261</a>					
1248769	LPIO-25025		There is a lack of open space and recreation opportunities within Wirral Waters and south/ east Birkenhead where a large proportion of housing allocations are to be located. Given that high density development is proposed and there are viability issues on these sites we are concerned that the appropriate amenities will not be in place/ provided for future residents. This will no doubt impact the health and wellbeing of these residents whilst also causing an even greater divide between the western parts of Wirral and the urban conurbation.	<a href="https://wirral-consult.objective.co.uk/file/5659045">https://wirral-consult.objective.co.uk/file/5659045</a>	<a href="https://wirral-consult.objective.co.uk/file/5684957">https://wirral-consult.objective.co.uk/file/5684957</a>	<a href="https://wirral-consult.objective.co.uk/file/5659039">https://wirral-consult.objective.co.uk/file/5659039</a>	<a href="https://wirral-consult.objective.co.uk/file/5659038">https://wirral-consult.objective.co.uk/file/5659038</a>	<a href="https://wirral-consult.objective.co.uk/file/5684956">https://wirral-consult.objective.co.uk/file/5684956</a>	
1248823	LPIO-25129		There is a lack of open space and recreation opportunities within Wirral Waters and south/ east Birkenhead where a large proportion of housing allocations are to be located. Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan?	Question 8.15a - If you answered No, what what would you change and why? Do you have an alternative approach? If Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1249116	LPIO-26083		We do not have any specific views on the approach to health and wellbeing at this stage but would not support any policy requirement which would render developments unviable or undeliverable and reserve the right to comment when further detail is released at a later stage of the process.	<a href="https://wirral-consult.objective.co.uk/file/5674240">https://wirral-consult.objective.co.uk/file/5674240</a>	<a href="https://wirral-consult.objective.co.uk/file/5684832">https://wirral-consult.objective.co.uk/file/5684832</a>	<a href="https://wirral-consult.objective.co.uk/file/5674256">https://wirral-consult.objective.co.uk/file/5674256</a>	<a href="https://wirral-consult.objective.co.uk/file/5684834">https://wirral-consult.objective.co.uk/file/5684834</a>	<a href="https://wirral-consult.objective.co.uk/file/5684837">https://wirral-consult.objective.co.uk/file/5684837</a>	
1243721	LPIO-2619	yes	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1237870	LPIO-2626	yes	Health and wellbeing is important - BUT not at the expense of GREENBELT LAND.						
1249116	LPIO-26261		We do not have any specific views on the approach to health and wellbeing at this stage but would not support any policy requirement which would render developments unviable or undeliverable and reserve the right to comment when further detail is released at a later stage of the process.	<a href="https://wirral-consult.objective.co.uk/file/5674240">https://wirral-consult.objective.co.uk/file/5674240</a>	<a href="https://wirral-consult.objective.co.uk/file/5684832">https://wirral-consult.objective.co.uk/file/5684832</a>	<a href="https://wirral-consult.objective.co.uk/file/5674256">https://wirral-consult.objective.co.uk/file/5674256</a>	<a href="https://wirral-consult.objective.co.uk/file/5684834">https://wirral-consult.objective.co.uk/file/5684834</a>	<a href="https://wirral-consult.objective.co.uk/file/5684837">https://wirral-consult.objective.co.uk/file/5684837</a>	
1249219	LPIO-26490		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.	<a href="https://wirral-consult.objective.co.uk/file/5677529">https://wirral-consult.objective.co.uk/file/5677529</a>	<a href="https://wirral-consult.objective.co.uk/file/5677528">https://wirral-consult.objective.co.uk/file/5677528</a>				
1240932	LPIO-26634		We support the Council's Preferred Approach that improving health outcomes for individuals and communities across Wirral will be a theme running through the final draft Local Plan and will be addressed in environment, design and infrastructure policies. We also welcome the proposed addition of a specific policy on improving health and addressing health inequalities in the draft Plan. We also recognise the role that high quality, well designed sustainable development can play in the promotion of health and wellbeing in local communities. The attached Vision Document illustrates how a comprehensive and joined-up approach to development supports not only the Council's ambitions but also reflects national policy outlined at paragraph 91 of the Framework to achieve healthy, inclusive and safe places. In particular, such a comprehensive approach involving increased countryside access could reflect the Government's ambition at paragraph 91(c) to "enable and support healthy lifestyles, especially where this would address identified local health and well-being needs – for example through the provision of safe and accessible green infrastructure, sports facilities, local shops, access to healthier food, allotments and layouts that encourage walking and cycling".	<a href="https://wirral-consult.objective.co.uk/file/5683689">https://wirral-consult.objective.co.uk/file/5683689</a>	<a href="https://wirral-consult.objective.co.uk/file/5682697">https://wirral-consult.objective.co.uk/file/5682697</a>	<a href="https://wirral-consult.objective.co.uk/file/5682701">https://wirral-consult.objective.co.uk/file/5682701</a>			
1245180	LPIO-2792	no	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1245100	LPIO-2817	no	All new developments should be built on the principle of low car use. Using this principle, safe walking routes within neighbourhoods, designed so that residents will be encourage to default to walking rather than taking the car for short journeys, should be built into all new developments. Walking is a very healthy activity, especially in the absence of pollution from cars, and will help reduce the health inequalities between communities on the Wirral. Health and well being should be paramount. Building on Green Belt, Open Spaces, or farmland is not conducive to health and well being. Neither is increased vehicle use. Prioritising walking and cycling over car use will promote health as well as helping Wirral to achieve its Climate Change strategy.						
1238379	LPIO-2914	no	The very fact that the Council is pursuing a totally unrealistic housing need with the threat of building on Green belt land is not taking residents health and well being into account. These open green spaces are vital to the health and well being of Wirral residents and should not feature at all in the Local Plan.						
1245159	LPIO-3095	yes	Needs more robust approach to developer contributions to such facilities or strict direction as part of planning permission.						
1241315	LPIO-3322	no	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1237944	LPIO-3467	yes	Each development should include a Green Corridor to both meet the aims of the Local Plan Climate Change initiatives, and reduce the effects of urban sprawl, and encourage community involvement (e.g. dog walking.)						
1245451	LPIO-3601	yes	Including new parks and playing fields						

Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan?	Question 8.15a - If you answered No, what would you change and why? Do you have an alternative approach? If Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1245462	LPIO-3648	no	Needs more robust approach to developer contributions to such facilities or strict direction as part of planning permission. Including new parks and playing fields						
1237827	LPIO-3834	yes	Need to limit road building and expansion to a minimum.						
1245288	LPIO-3903	yes							
1238835	LPIO-4047	yes	This issue is of paramount importance to the Council and the citizens of Wirral generally. Any new developments should have at the forefront of its design, the sustainability of health and well being for the community's residents, as a whole. Therefore, the challenges that Council need to face up to include: 1. the lack of any need to build on the greenbelt 2. the lack of any need to build on our farmland and green spaces 3. the need to cut down on the unwanted and unnecessary use of motor vehicle journeys. If you start with these objectives then your resulting plan will have a higher chance of success.						
1240939	LPIO-4183	yes							
1245346	LPIO-4269	no	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1245638	LPIO-4322	no	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1244720	LPIO-4773	yes							
1244629	LPIO-4803	yes	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1245816	LPIO-5035	no	The proposal to develop Green Belt land does not support the health and wellbeing of our community.						
1237923	LPIO-5104		building on greenbelt open spaces and farmland is not conducive to health and wellbeing, neither is an increase in traffic. greenbelt is the lungs of wirral and should be protected not offered up for short term profits						
1245713	LPIO-5132	yes	Our Health and wellbeing should be paramount to our council. Building on greenbelt, open spaces on parkland, and increasing vehicle use. is not conducive to Heath and wellbeing						
1245496	LPIO-5250	yes	Health and wellbeing of residents should be of paramount importance to our council. Building on greenbelt land, open spaces and farmland is not conducive to health and wellbeing.						
1246006	LPIO-5356		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1240383	LPIO-5458	yes	The health and well-being of local residents is an essential consideration. The natural environment plays an important role in enhancing health and well-being. Removing Green Belt land for development would have a negative impact on health and well being.						
1242541	LPIO-5677		Health and well being of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and well being, neither is increased vehicle use.						
1245984	LPIO-5774	yes	Health and well-being of the local population should be one of the main priorities of the Council. Maintaining green spaces, green belt and accessible leisure facilities all contribute to health and well being. One of the major threats to the residents of the Wirral is climate change. The Council has declared a crisis but needs to be more proactive especially in terms of the Local Plan in reducing carbon emissions in new developments, planting more trees and converting to greener energy sources.						
1246310	LPIO-5980	no	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						

Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan?	Question 8.15a - If you answered No, what would you change and why? Do you have an alternative approach? If Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1238310	LPIO-6198	no	WBC is not following its own approach. WBC are not applying the recommendations and guidelines of the health impact report The Interim Health Impact Assessment of the plan has 12 strategic objectives in its scoping report. The selection and use of green belt sites in options 2a and 2b would directly oppose, negatively impact, undermine or shift focus in 11 of the 12 objectives. WBC has provided the following excellent reasons not to release greenbelt for the promotion of health and wellbeing. By considering greenbelt sites WBC have not supported the following objectives in the plan. Strategic Objective 1: To support sustainable approaches to the location, design, construction, operation and impact of new development support visual attractiveness and 'green 'to promote wellbeing for local residents . Minimise and prevent the opportunity or noise and other disturbance to occupiers and neighboring uses. Strategic Objective 2: Promote safe, efficient and sustainable travel, improve accessibility, connectivity, and ease of movement, which reduces the need to travel by private car and encourages healthy lifestyles. Direct new development to locations which will provide easiest access to existing centers, high-frequency public transport corridors, pedestrian and cycle routes Strategic Objective 3: Ensure the responsible use of land and natural resources to mitigate and adapt to climate change and promote the transition to a low carbon Borough Strategic Objective 4: Protect and improve the quality and accessibility of green space, green infrastructure and nature, whilst protecting and enhancing biodiversity and ensuring that development delivers net environmental gains Strategic Objective 8: Provide and promote essential local infrastructure including emergency services, community, cultural, education, transport, health and leisure facilities, shops, and services all within easy reach of local communities where possible						
1246161	LPIO-6257	yes	WUTH is extremely supportive of ensuring the impact of the Local Plan on the Borough's Health and Wellbeing is a key facet of the plan moving forward. WUTH would welcome the opportunity to continue to engage on this point and play a key role in shaping its strategy.						
1246402	LPIO-6488	yes	Building on green belt and open green spaces does not promote health and well being						
1242751	LPIO-653	no	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1241800	LPIO-6832	yes	I think this is central to the "vision" for the borough, my thoughts on this are: <ul style="list-style-type: none"> <li>• Opportunities for happier and healthier lives. Chances for kindness toward oneself, the community and the earth; producing happiness. Chances for health and wellbeing through exercise, lifestyle and aspirations.</li> <li>• Freedom of ideas and emotional fluidity. Chances for living in harmony with others in the community. Clarity, empathy, meaningful sharing and understanding, supportive emotional growth. Peace-making. Freedom to hear a range of ideas and intelligence to share humanity.</li> <li>• Accessible identities. In terms of how people of Wirral want to identify themselves through their ideals, their family roles, work and careers or emerging identities. Alternative cultures are supported so other ways of living can co-exist, and people can live with integrity, true to their values.</li> <li>• Engaging dialogue. Chances for integration with culture and allowing all members of society to contribute and benefit from dialogue in its many forms.</li> </ul>						
1241661	LPIO-6841	yes	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1241723	LPIO-6944	no	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use. Not enough is being done to combat air pollution.						
1245086	LPIO-6979	yes	Health & well being of the population should be in the forefront of the councils planning. Maintaining all our green belt is one way of ensuring this is the case.						
1237647	LPIO-719	yes							

Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan?	Question 8.15a - If you answered No, what would you change and why? Do you have an alternative approach? If Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1246488	LPIO-7309		Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use						
1246348	LPIO-7371	yes	What about the health and wellbeing of people who have had to watch a neighbouring house being demolished and a big block of flats built which looms over them thereby creating traffic problems where before there was none. What about flats built with minimal or no amenity space. What about flats built with virtually no car parking thus causing more congestion in streets, etc, etc. I go by what I see, not some future model dreamed up by council officers.						
1240932	LPIO-7634	yes	Yes, Our Client supports the Council's Preferred Approach that improving health outcomes for individuals and communities across Wirral will be a theme of the final draft Local Plan and feature in environment, design and infrastructure policies. It also welcomes the proposed addition of a specific policy on "improving health and addressing health inequalities". We currently support and promote active living across its land; numerous footpaths and bridleways crossing the Estate are regularly used by walkers, riders and cyclists whilst sports are enjoyed on our land. We also sponsor sports events in the Borough. The Interim Health Impact Assessment (Hitch, November 2019) prepared as part of the evidence base for the draft Local Plan highlights how high quality housing development and living environment are fundamental to improving the health of Wirral residents whilst the Wirral Housing Strategy (2016) notes a third of homes on Wirral fail to meet the decent homes standard. There is clearly a need to improve the quantity and quality of housing that is available to Wirral residents. Our Client also recognises that high quality, well designed sustainable development plays an important role in promoting health and wellbeing in local communities. The Vision Document illustrates how a comprehensive and joined-up approach to development across the Estate supports not only the Council's ambitions but reflects national policy outlined at paragraph 91 of the NPPF to achieve healthy, inclusive and safe places. In particular, such a comprehensive approach involving increased countryside access across the Estate reflects the Government's ambition at paragraph 91c to "enable and support healthy lifestyles...through the provision of safe and accessible green infrastructure, sports facilities, local shops, access to healthier food, allotments and layouts that encourage walking and cycling". Please refer to paragraphs 9.26-9.29 of our representations for our more detailed response.	<a href="https://wirral-consult.objective.co.uk/file/5683689">https://wirral-consult.objective.co.uk/file/5683689</a>	<a href="https://wirral-consult.objective.co.uk/file/5682697">https://wirral-consult.objective.co.uk/file/5682697</a>	<a href="https://wirral-consult.objective.co.uk/file/5682701">https://wirral-consult.objective.co.uk/file/5682701</a>			
1246581	LPIO-7655	no	Health and wellbeing of a community's residents should be paramount to the Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1246592	LPIO-7847	yes	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use. Protect food supply by not building on farmland						
1246594	LPIO-8012		Health and well being of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and well being, neither is increased vehicle use						
1240903	LPIO-8039	no	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1246596	LPIO-8090	no	Building on green belt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1246605	LPIO-8207	no	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1241096	LPIO-8376	yes	Taking care of health and well-being, both physical and mental, is vital and, as listed in this section of the Local Plan, it is a multi-faceted concept. Feelings of powerlessness contribute to poorer mental health for example and WBC should work closely with local people to find out what is important to achieve for each community.	<a href="https://wirral-consult.objective.co.uk/file/5684262">https://wirral-consult.objective.co.uk/file/5684262</a>	<a href="https://wirral-consult.objective.co.uk/file/5661944">https://wirral-consult.objective.co.uk/file/5661944</a>				
1246612	LPIO-8406	yes							

Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan?	Question 8.15a - If you answered No, what would you change and why? Do you have an alternative approach? If Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1237882	LPIO-8472	no	Absolutely not! Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use. Certain green belt parcels could be used much more effectively at encouraging greater use of such spaces of health and wellbeing purposes e.g. Parcel 6.15 could be used to encourage even more bio diversity and encourage the local population to visit the area more often e.g. re-wilding and nature trails. Scandinavian examples of this could be used as examples of good practice...but again WBC would have to be visionary rather than short term reactionary here!						
1237748	LPIO-8518	no	Health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing, neither is increased vehicle use.						
1243888	LPIO-8579	yes							
1246523	LPIO-8654	yes	Words and plans must be followed by appropriate actions to achieve these goals.						
1246598 (Hoylake Vision)	LPIO-8735	yes							
1240653	LPIO-8795	no	The specific policy "Improving Health and addressing health inequalities" is not provided and thus I have no information to agree upon.						
1241770	LPIO-8797	no	The current threat of destruction of our greenbelt has already inflicted a lot of damage on people's mental and emotional well being. Residents have been living with a cloud over them since the initial suggestion that all greenbelt was under threat from development. A key element of the strategy 'improving health and addressing health inequalities' is not included in this consultation thus making it impossible to make an informed comment.						
1243593	LPIO-8859	no	I don't believe there will be sufficient done to consider this.						
1246631	LPIO-8977	yes							
1240872	LPIO-9181	no	Unless you can develop new areas like Wirral Waters away from existing habitable areas I find it hard to understand how this is achievable.						
1239377	LPIO-9225	yes	Health and well-being of our community should be paramount in Council directives. Building on green belt, open spaces and farmland is not conducive to health and well-being and should be discouraged.						
1245034	LPIO-9226	no							
1246651	LPIO-9269	yes	The health and wellbeing of our communities residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to the health and wellbeing of residents - neither is promoting increased vehicle used by building new roads.						
1246678	LPIO-9396	no							
1241495	LPIO-9471	yes	Yes, I would support this approach. In addition it is widely accepted that access to green open spaces, both coast and countryside, is beneficial to people's physical and mental wellbeing. Therefore these spaces should be protected preferably with funding available to look after them.						
1246624	LPIO-9491		see next question						
1242554	LPIO-9750	yes	We support the approach.						
1243448	LPIO-978	yes	In the main. However, Wirral is such a beautiful place to live and has easily accessible green spaces, countryside views and coastline to all residents across Wirral. None of the existing countryside or open coastal areas should be subject to development as this would reduce the health and wellbeing of its population.						

Person ID	ID	Question 8.15 - Do you agree with the Council's approach to ensuring that new development will take account of health and wellbeing through the Local Plan?	Question 8.15a - If you answered No, what what would you change and why? Do you have an alternative approach? If Yes, you can comment here.	Attachment 1	Attachment 2	Attachment 3	Attachment 4	Attachment 5	Attachment 6
1246693	LPIO-9910	yes	The health and wellbeing of a community's residents should be paramount to our Council. Building on greenbelt, open spaces and farmland is not conducive to health and wellbeing mentally and physically and neither is increased vehicle use.						
1237724	LPIO-9918	no	Huge and disruptive developments will not in any way be good for the health and well being of residents or vistors.
