Section 4:

Could the proposal have a positive or negative impact on any protected groups (race, gender, disability, gender reassignment, age, pregnancy and maternity, religion and belief, sexual orientation, marriage and civil partnership)?

You may also want to consider socio-economic status of individuals.

Please list in the table below and include actions required to mitigate any potential negative impact.

Which group(s) of people could be affected	Potential positive or negative impact	Action required to mitigate any potential negative impact	Lead person	Timescale	Resource implications
All Groups	<p>Positive Impact – Arrow Park Golf Course and The Warren Golf Course currently operate with a subsidy from the Council. It is not thought that the subsidy will be reduced to £0 in the current operating model. The Council does not wish to be in a position of considering reducing or closing the services offered.</p> <p>Significant capital investment is also required in the courses in order to maintain the playability of the courses and improve off course facilities.</p> <p>This proposal would allow for a specialist golf provider to take control of the courses and provide investment to improve the service offered to Wirral residents and visitors.</p>				

Section 4a: Where and how will the above actions be monitored?

The actions outlined in Section 4 will form part of the project deliverables. These deliverables will be planned and tracked through the project plan. The overall implementation of actions will be monitored as part of the project governance.

Section 4b: If you think there is no negative impact, what is your reasoning behind this?

The intention is that Arrowe Park Golf Course and The Warren Golf Course transfer to a new operator. The staff, existing lease and concession holders would also transfer to the new provider. Therefore all existing arrangement for protected groups would remain in place.

The restrictive covenant to continue to provide 'Pay and Play' golf seeks to ensure that all residents and visitors continue to have the opportunity to access golf at the courses. The additional capital expenditure from a new provider in order to improve courses and off course facilities is expected to benefit users.

For these reason it is not thought that there will be any negative impacts arising from this proposal.

Section 5: What research / data / information have you used in support of this process?

The following activities have been undertaken as part of an external review:

- A review of financial and operational data on the services
- A review of needs in the area.

This has been supplemented with workshops, interviews, and other input from the Council, other agencies and the services themselves, as well as analysis to develop a concept of how a reimagined group of services might look.

The external review has been led by Bates Wells Braithwaite (BWB). They were awarded this work based on their strong company ethos and track record of working with local authorities across the country to achieve social value objectives including in areas such as this.

In addition extensive research has been undertaken in house in order to gather and review case studies from other authorities, a review of the market and options for the future delivery of services.
